 Authorities say the difference between husky children and those who are poor eaters, underweight and nervous is often simply a matter of proper nourishment, especially an adequate supply of vitamins.

But vitamins alone are not enough. For authorities now agree that vitamins do not work alone. They work as a team with certain other food For this reason, thousands are

switching to Ovaltine. Unlike mere "vitamin carriers," Ovaltine food beverage contains not only extra vitamins but nearly all the precious food elements needed for health and top for Toronto to attend the annual vitality. These include Vitamins A. B₁ and D, the important minerals calcium, phosphorus and iron, high quality proteins and quick energy fuel-food-a combination of food elements authorities agree are needed for best results.

So, if your child is thin, nervous and not developing properly, why not turn to Ovaltine as thousands are musical instrument invented by doing. Three normal meals plus two glasses of Ovaltine a day give your child all the extra amounts of vitamins and minerals needed for health and
