HOWLING NORTHEASTER STRIKES U.S. EAST COAST-Here is a view of some of the wreckage left in the wake of the ripping northeaster that hit the U.S. eastern seaboard. This photo was made at Winthrop, Mass., where big tides and heavy seas did considerable coastal damage. The winds, which sometimes reached hurricane force, brought rain and snow. Note great concrete slabs in foreground here. They were tossed about like cookies by the heavy seas. Many deaths were reported.
