Buy War Savings Stamps

Nine Reasons for Buying the forthcoming

Ninth Victory

Loan Bonds

- Maintain and pay our Army of Occupation in Germany.
- Bring our boys home.
- Provide the best of medical and hospital care for the sick and wounded until they are restored to health and employment.
- Pay Service Gratuities.
- Pension dependents of those who died On Active Service.
- Rehabilitate and help returned men to re-establish themselves in civil life.
- Help to provide essential food and medical supplies and other goods and services necessary to prevent famine and pestilence in liberated countries, and the dangers that would follow the world-wide spread of post-war diseases.
- Co-operate with our allies in bringing essential help to liberated countries. Production for this purpose together with production on the back log of home requirements will help ensure a high level of employment.
- Prevent inflation by continuous saving and restricting unnecessary spending.

The Ninth Victory Loan will be the real test of Canadians' determination to finish the job. The tendency to relax after Victory is natural enough; but there are many tasks still to be completed and obligations to be fulfilled, otherwise the sacrifice of our men and the thrift, industry and resolution which inspired us to save and lend during the past six years will have been in vain.

This will be the only Victory Loan for a year. Therefore continue to save at the same rate per week or month as you have been doing and buy twice as many Victory Bonds as you bought in any previous six months' Victory Loan saving period. You have a year to save for them and a year to pay for them. Buy on the Payroll Savings Plan or buy them through your bank, loan or trust company.

There is no better security than Victory Bonds. You can always borrow on them—or they are readily saleable.
