GREENLAN SOVIET UNION CANADA Pacific Ocean AFRICA Possible Routes for Transfering Allied Armed Forces from Europe to Pacific Indian Ocean

TOUGH SUPPLY PROBLEM IN EAST-The above map shows the vast routes that supplies and men have to travel from the United States and from Europe to the Far East. The routes are those followed by ships. There are also air routes, but the problem is so great it is not believed likely that cargo planes will be able to carry more than a small fraction of the supplies and men needed for the final push against the Japanese homeland or the Asiatic mainland.
