The Sincerity of Mr. Ilsley . . .

Hon. J. L. Ilsley, Minister of Fin- equals 4. ance, long has been a favorite statesman-in-office. He undoubtedly has been the most popular tax-imposer in our history, or perhaps in the history of any country. Sir Thomas White in the other war was highly regarded, but he merely established the principle of the income tax. It has remained for Ilsley to expand principle into practice with severity to both rich and poor.

Some people say that all Nova Scotians early are schooled in politics and Mr. Ilsley's career is no contradiction. But his hold on the Canadian people, West and East, is based on an ability, of which he seems not to be conscious, to convey the impression that here is a man of the utmost sincerity, honesty and forthrightness. His eloquence is the eloquence of conviction. His triumphs with all audiences are the triumph of a mind setting aside all petty considerations in

# LIBERAL POLICIES mill create post-mar JPFURTURES

YOUR Liberal Government under Mackenzie King has taken practical steps to see that every Canadian after the war shall have a wideopen chance to make a real success of his life. It can be done by giving everybody the opportunity to get ahead faster and go further.

That includes returned men, farmers and fishermen, factory workers and people in business and children-every Canadian!

Isn't that what you want—a chance to make your own way IN your own way?

Here are definite, practical steps which the Liberal Government has taken (not just talked about, but taken) to make this Canada a better place to work in and bring up your children. You will have to decide whether you want the

men who devised these measures to carry them through, or whether you wish to entrust your own and your family's future to others. Every one of the following 12 steps affects your

job-no matter what it is-after the war!

#### Reconstruction

Liberal aim: Jobs for 900,000 more workers than in 1939; and 60,000 more each year as the population grows. Every kind of enterprise will be encouraged. The Liberal Government has already set up the machinery: the Department of Reconstruction. The Liberal Government has the man-the Hon. C. D. Howe-under whose direction Canadians have done a great job in the war, and are ready to do it in peace.

Foreign Trade

Liberal objective: Sixty percent (60%) increase in value over Canada's pre-war export trade. This means thousands of jobs, and is based on the number of jobs created by Canada's normal export trade. Preparations are under way now: expansion of trade commissioner service; negotiations with United States and United Kingdom and other countries. Liberal policies and trade mean full employment.

Credit for Enterprise

Liberal belief: Money must serve the needs of humanity. The people of Canada shall have economic freedom. We are a great people-we are going to continue to do big things after

the war. Therefore the Liberal Government set up the Industrial Development Bank to provide money at low interest for long terms, Another step towards creating full employment.

Exports Encouraged War-torn countries will want to buy tremendous quantities of Canadian goods. But can they pay for them right away? Manufacturers can't pay their help unless they can get money for their goods. To overcome this obstacle to employment, the

Liberal Government has set up the Export Credit Insurance Act. This does two things: (1) it insures Canadian exporters against loss, and (2) makes loans to foreign governments under contract to Canadian exporters.

Farm Improvement

Your Liberal Government has made low interest loans available to farmers to finance their work and make improvements.

Guaranteed Markets

To provide farmers with a better income under wartime conditions, the Liberal Government made contracts for definite quantities of important products at agreed prices-notably bacon, eggs, cheese and beef. These contracts have worked out so well the Liberal Government extended many of the agreements for longer periods (in the above cases to the end of 1946). It has provided for guaranteed markets and income for Canadian farmers. This increased trade has brought prosperity to farmers everywhere in Canada. Liberal legislation (the Agricultural Prices Support Act) guarantees future prosperity.

Family Allowances

From July next, Family Allowances are to be paid every month to parents for healthier, better clothed, better housed, better educated young Canadians. \$250,000,000 a year direct spending power in the hands of people who need it most.

Liberal monthly payments until age 16 (maximum total per child \$1,224) will give all children a better chance to become vigorous happy citizens.

The Liberal Government's new \$400,000,000 National Housing Act enables hundreds of thousands of Canadians to own their own homes.

O New Homes for Canadians

In the first year after Germany's defeat, at least 50,000 dwellings will be built. Low rental housing schemes are included. This means hundreds of thousands of jobs for the building trades and allied industries-many thousands more for people who make furnishings and home equipment.

Returning Veterans

Canada's generous plans for enabling returned men to take their place in civil life are now well known. Gratuities, benefits and grants of \$750,000,000 will enable men and women of the Armed Services to apply their energies in building the prosperous Canada for which your

Liberal Government has been planning. To Floor Prices under Fish and Farm Products

Success in farming and fishing depends upon the maintenance of fair prices. To protect farmers and fishermen, the Liberal Government has provided floor prices under these products. Prosperous farmers and fishermen make a prosperous Canada.

Better Labour Conditions

In co-operation with organized Labour, the Liberal Government has confirmed collective bargain ing, provided unemployment insurance, organized labour-management committees, approved labour representatives on government boards. More than 600,000 workers, because of the Liberal Government's attitude towards Labour and the labour movement, now get annual vacations with pay.

Reduction in Taxation The Liberal Government will gradually reduce taxation when the European war is over. Taxes will come down to free spending power and to give Canadians every opportunity for prosperity,

employment and freedom. What you have done in war-you can do in peace. You can do your part by supporting the Liberal Candidate in your constituency.
