Terrace In Happy Mood

Board of Trade Gratified Over Electricity and Highway

TERRACE, Sept. 10—With good humor prevailing throughout in view of a number of satisfactory developments, Terrace and District Board of Trade held its monthly meeting on Thursday night in Willie's Hotel. There was a very good attendance of the members. President Harry King was in the chair.

One cause of satisfaction was the recent announcement from the B. C. Power Commission that it will take Terrace under its wing and set up a power plant sufficient for present needs. It is understood that their men will arrive during the present month to supervise the installation.

Another subject which made everyone feel in good humor was the highway. Recent reports thereon are that the road to Prince Rupert is now in quite good condition, hav-

ing been attended to by the public works department. The meeting decided to send a letter of appreciation to the heads of the department—Hon. Herbert Anson and Chief Engineer A. L. Carruthers—to let them know that Terrace thanks them for the good work on the highway.

It was decided to make a survey of the district and to bring in a report of the business turnover. A committee was appointed by the chairman for this purpose, the idea being that the present time seems opportune to try to get one or other of the banks to open a branch in Terrace. The Bank of Montreal closed its branch here some years ago but the meeting thought that things would appear very different in a business way today to what they were a few years ago. To mention only the increase in numbers as shown by the issue of ration books, the population has trebled in the past four years.

Other matters were touched on at this meeting, including a deposit of clay in the near neighborhood which offers real possibilities. Recent tests have shown that brick and tile of the very best can be made of this local material.

Capt. C. J. Norrington spoke on behalf of the Reserve Army. The meeting was sympathetic and it is likely that the younger members at any rate will before long enrol in a unit which it is hoped may be established in Terrace.

A. E. Goodenough and Olaf Hanson spent Saturday in Terrace.

Shorty Coldwell, Earl South and Henry Snager of the U.S. Army spent the week-end in Terrace.

I Married an Angel!

YESSIR, the sweetest, cleverest, most reasonable little gal in the world. Knows what's what about good food, too!

So when she said "Postum's a grand-tasting drink—you'll like it, honey!"... I was willing to give it a try. Just for her sake, mind you!

I had to be convinced... and am I! Boy! What a flavor! Rich and hearty and satisfying—not like tea, not like coffee, just a grand drink.

Angel says that even children can safely drink it. Because Postum hasn't a trace of caffeine or any other drug to affect heart or nerves or digestion.

Even I can make Postum. You just add boiling water or hot milk right in the cup. And for all that, it costs less than 1¢ a serving.

We can say this in three words...

MULTIPLY A WHISPER BY A MILLION—

AND YOU'VE GOT INFLATION

DEFLATION

Let's not deceive ourselves by the belief that the danger is over—just because the war is won. And let's remember that inflation is always followed by deflation with its misery of bankrupt businesses, mortgage foreclosures and unemployment.

It's your job and your savings that are at stake.

The danger of inflation, with its black shadow—deflation,—will remain as long as goods are scarce and insufficient to meet demands. That may be 6 months, 12 months, 18 months. Only time will tell. As quickly as controls are unnecessary, they are dropped. After nearly 6 years of war, industry cannot switch over to normal production of civilian goods by a snap of the fingers. That takes time. The whole system of raw materials, labor and production has to be re-gearred.

In the meantime, price ceilings, rationing and other controls are the safeguard for every one of us. It's everybody's responsibility to help make them work.

SO—Keep on watching your buying. Don't rush to buy scarce goods. Keep on saving your money. Put it into Victory bonds and War Savings certificates.

Keep on supporting wage and price controls, and rationing.
Keep on fighting inflation and its black shadow... deflation.
