THE SAVING WAY...

TO SUCCESSFUL MEALS!

Cooking with electricity saves time—no constant watching with heat control • Saves fuel—no oven-pecking or basting • Prevents waste—no more boiled over or burned dishes • Saves vitamins—foods can be cooked in their own juices • Saves work—no polishing or scraping, just a damp cloth and your range looks like new.

And remember, oven-cooked and broiled food is more healthy than fried—Plan your meals so that several dishes can be cooked at the same time in the oven—Don't scrape spilled food off the burners as this may injure the element—burn it off.
