Local Girl Makes Good

First Canadian Woman Plane Pilot Heading for China After Spending War Years in Washington, D.C.

Striking example of a local girl who has made good is the case of 36-year-old Ellianne Roberge, who revisited Prince Rupert for a couple of days last week, being entertained by such old friends of pioneer days as Mrs. J. G. Viereck, Mrs. J. L. Blain and Mrs. Joseph Garon.

Miss Roberge, who was the first white girl to be born in Prince Rupert—her father was a carpenter back in the days around 1909 when the city was really young—first achieved national prominence 15 years ago when she became the first Canadian girl to have an airplane pilot's license. After several years in active flying, she eventually became identified with the British air ministry and during the recent war was stationed at Washington, D.C., in an executive capacity in connection with the purchase and delivery of aircraft under lend-lease.

Now Miss Roberge has become identified with the United Nations Relief and Rehabilitation Administration (UNRRA) and will soon be heading for China to spend a couple of years engaged in special work.

On the way from Washington Miss Roberge stopped off for a time at Toronto where her sister, who has distinguished herself in the field of plastic surgery, is now located. From Prince Rupert Miss Roberge proceeded to Vancouver to pay a visit with her mother, Mrs. Olier Besner, before proceeding back to Washington to make final preparations for departure to China.

Miss Roberge has had an interesting career, not without its phases of high adventure, but with it all, she is modest and unassuming, not given to talking about many intriguing experiences which doubtless must have been part of her varied life story.

VICTORY GIVEN—STRENGTH NEEDED

Presbyterian Pastor Warns Against "Leanness of Soul"

Likening the situation in the world today to the position of the Hebrews after their deliverance from the bondage of Egypt when they had been unwilling to endure the sacrifices of crossing the desert to the Promised Land and God had sent "leanness into their soul," Rev. A. F. MacSween, preaching on the topic of "An Unhappy Victory" from a reading of Psalm 106, told his congregation in First Presbyterian Church yesterday morning that God-given victory in the war would be a futile thing if there was not the conviction and strength necessary to implement the reconstruction. There must be more than the material satisfactions of security but essential to complete victory and lasting peace was a deeper and fuller life based on the order of God's Kingdom.

The money has to be "raised", too.

enlarge, or renovate, he can raise the money readily.

The Life Insurance business is strictly a "neighborly" business . . . a great co-operative enterprise which aims at the protection of the people by the people.

WHEN there's a barn to be raised a man's neighbors . . . sometimes a whole community . . . often pitch in and help him do the heavy end of the work.

And as for the money needed for materials, that, too . . . although few people stop to think about it . . . often comes from co-operation, too.

Four million or more Canadian "neighbors" pool a part of their savings in Life Insurance. Their premiums add up to a huge sum, part of which is available for farm and town mortgages, so that when a farmer, for instance, wants to build, or

A portion of every dollar invested by the Life Insurance companies helps to finance farmers and town dwellers who occasionally need mortgage loans to realize their ambitions and get ahead. The remainder is invested in government and municipal bonds and other securities under government regulations. Every man who owns Life Insurance does more than safeguard the future of his loved ones . . . he also shares in Canada's progress.

It is good citizenship to own LIFE INSURANCE

HOW CAN I ???

By ANNE ASHLEY

Q. How can I remove rusty screws?

A. If a rusty screw is obstinate and will not move with an ordinary screwdriver, apply a heavy skewer heated red hot and hold it here until the screw is hot. Then use the screwdriver and it will turn easily.

Q. How can I make a good liquid shampoo?

A. By shaving a bar of castile soap in one pint of water. Allow it to simmer over the fire until the soap is entirely dissolved.

Q. How can I clean brick tiles?

A. If brick tiles are washed with a cloth dipped in vinegar it will restore their finish wonderfully.

100 MILES per HOUR on FIRESTONE SYNTHETICS

BECAUSE OF THESE FIRESTONE EXTRA VALUES—

- Shaw drove for 500 miles at an average speed of 100 miles per hour—on the straightaways he hit 135 miles per hour.
- Not a skid or blowout occurred in this grueling test—equal to 50,000 miles of ordinary driving.

You may never want to drive at 100 miles per hour but it's mighty comforting to know your Firestone tires have the reserve strength and stamina to stand up to any demand you could ever make of them. When you are able to buy tires insist on having Firestone DeLuxe Champion tires on your car.
