# DO YOU LIKE CONTROLS?

Certainly NOT! No free nation does. As a free people we've put up with restrictions and controls, realizing that they were necessary if we were to wage total war.

Liberal policy is to relax and remove them as fast as possible.

But under C.C.F. State Socialism, regimentation and control, to a far greater extent than we have known, would be in effect—permaNENTLY.

The Liberal party is ready with plans for further beneficial social legislation, without regimentation of the citizens or socialization of industry. Give Liberal leadership the 'go-ahead' signal on June 11.

A crowd of 400 labor people heard three of the four federal candidates for Skeena adding outline their political views from the same platform at a lively two-hour meeting sponsored by American Federation of Labor and Canadian Congress of Labor union groups in the Oddfellows Hall last night.

After each candidate had spoken for 15 minutes the audience had the opportunity of trying to impale the speakers on jagged points of policy by submitting written questions. Replies were received and delivered in an atmosphere of good sportsmanship which was one of the outstanding features of the meeting.

The speakers were Bruce Sacramento 3-3, San Diego 4-4. Mickleburgh, Labor Progressive; Hollywood 0-3, Los Angeles LAC Harry Archibald, C.C.F., and Edward T. Applewhaite, Liberal. Major J. T.
