HE Federal election on June 11th will be one of the most portentous in all the colourful history of our country. It will decide for a long time to come whether democratic representative Government is to continue to prevail as a ruling system, or whether we are to abandon it in favour of socialism, and allow the thin end of the wedge of crude Dictatorship to be driven into the heart of the body politic.

Theorists, without the authority of proven, practical experience, are busily spreading doctrines which deliberately misrepresent the true spirit of individual enterprise and the faith and courage by which our Province has been brought to an enviable status in the Dominion. They try to belittle the vital importance of our post-war Overseas trade, the resumption and expansion of which means so much to every family in the country.

No one can deny that in B.C. our carefully developed industrial strength has given us relatively high general living standards. Through long years of ups and downs, Government, business leaders and workers have striven together against many adverse conditions, economic and geographical, and have made bold strides toward a balanced economy, and a satisfying level of living comfort and security which compares favourably with any part of the world.

The preservation of our industrial strength and earning power is the only basis on which we can build our hopes and provide for our future welfare.

Loyal and thoughtful British Columbians, now enjoying the realization of half a century of adventurous initiative and boundless energy, will not allow themselves to be imposed upon by specious theories and promises, which at best are a gamble, with personal freedom and our accomplished living standards as the stakes.

Parliamentary Government, as we know it today, despite some imperfections, ensures for us and those who follow, the precious constitutional safe-guards of freedom and popular representation, and it has given us and can continue to give us progressive legislation based upon the people's will. It should be wholeheartedly supported in our Federal election decision as a basic and essential living principle in the continued development of our country.

However, nothing said at that time affects the policy or platform of the Progressive-Conservative Party which was evolved under the leadership of John Bracken at a considerably later date. Furthermore, it is impossible to analyse an alleged utterance, of the kind mentioned, in its truncated form.

3. National unity between French and English-speaking Canadians is one of the chief aims of the Progressive-Conservative party. No man in Canada is better fitted to achieve this national necessity than Mr. Branken who have already demonstrated in Manitoba his ability to create harmony and understanding and the ability to work together for 'a common purpose between individuals preciously disunited. There have been many forces making for disunion, chief among which has been the manpower policy of the Liberal government. We are determined that here will now be equality of treatment throughout the whole Dominion and that Canada will be truly Canadian.

consistently firm stand on the

"The Greatest Hoax ever perpetrated on a Nation."

"It is a national disgrace and a blight upon the good name of Canadian citizenship. To give political considerations priority over the nation's interest is intolerable and unforgivable."

The Bracken

Dominion-wide disunity is today the gravest danger facing Canada. The political abasement of the King Government's Manpower Policy reaped in wartime the seeds it sowed in peacetime.

"King or Chaos" of the 1940 election campaign has been King AND Chaos ever since. National unity, to which the King Government has paid only lip-service, was sold for political advantage in time of gravest national emergency.

THE PRICE CANADA HAS PAID for the unequal burdens of the King Manpower Policy is beyond measure. Army statistics tell the story. Tragically, the casualty lists bear mute witness to it.

THE PROGRESSIVE CON-SERVATIVE PARTY HAS CONSISTENTLY CONDEMN-ED THE INJUSTICE OF A

PURELY POLITICAL MA POWER POLICY. We do n hesitate therefore to describe King Manpower Policy, and the furtive political manipul tions which characterized the a ministration of that policy, as gross miscarriage of social, pol tical and economic justice. our forthright, progressi leader has said, it was - and - "the greatest hoax ever per petrated on a nation."

NATIONAL UNITY AND WELFARE MUST COME BE FORE NARROW POLITICAL ADVANTAGE. Divide-and-rule policies have no place in framing the basis for peace-time govern ment. Only a party that wil recognize equality of opportun ity for all in time of peace as well as equality of service and sacri fice in time of war can solve the problem of national unity with the confidence of all Canadians

WE STAND FOUR-SQUARE FOR EQUALITY OF SERVICE AND SACRIFICE IN WAR; IN PEACE, EQUALITY OF OPPORTUNITY FOR ALL.
