### U. S. SEAMEN SEIZED BY COMMUNISTS

SHANGHAI, Nov. 7 (P) The reported seizure by Chinese Communists of several American crewmen from an American liberty ship in the Chin Gang Tao region today brought a prompt news blackout in United States Army headquarters at Shanghai. Newspapermen, dependent on British sources, were told that some seamen were seized by Chinese Communists, but some were released with apologies.

The known facts are that the presence in north China of United States marines and the operation of several liberty ships is arousing considerable resentment among the Communists.

If the carrots, beets and turnips are placed in boxes lars tightly until the temperature packed in soil which is kept moist | inside has dropped close to freezin the protection of the garage | ing, and do not cover vegetables any extremely low temperatures. Sand is not good for this packing, as it does not retain moisture well. Potatoes should not be

packed in this way. A better method is a cold cellar, or basement room, in which the temperature can be kept down to as near 34 to 38 degrees us possible, and ventilation provided. In such a room, the vegetables should be stored on shelves, racks, slat bins or solid boxes, raised off the floor. A concrete floor should be sprinkled every few days, and an earth floor kept somewhat damp. notatoes should be stored in a

Pumpkins, squash and sweet temperature between 55 and 65 degrees, which is often found in a heated basement. The crops requiring lower temperatures may be kept in heated basements for some time if they are packed in

boxes with wet sand about them.

Where basement storage is not practical, an outdoor storage pit may be easily constructed by digging a pit as large as desired and deep enough to stand in. Lay heavy boards over the pit, even with the surface, and cover the boards with a mound of earth. A ditch should be dug around the mound, to lead surface water

Avoid vegetables with bruises of Carrots, beets, turnips, ruta- skin punctures, as decay will vegetables which are wet. Even the hardiest vegetables should not be stored if they have been

Do not close outdoor root celor shed they will keep well in in earth pits until the soil has cooled off thoroughly.
