Nazi War Lord Trials . . .

The international war crimes tribunal at Nuernberg where Adolf Hitler's top-ranking henchmen are at the bar of justice for having plunged the world into the colossal conflict which brought death and misery to countless millions is, naburally, the current centre of news interest.

That due and just penalties will be meted out expeditiously is the wish of the civilized world even if the desire may seem to be somewhat calculated.

There is little chance of the Neurnberg trial not bringing just deserts to Goering, Ribbentrop and the rest of the international scoundrels but it is reassuring to hear the chief prosecutor announce that, if anything should miscarry there, individual nations will have their scores to settle.

So there appears to be little chance of the Nazi war lords escaping.

Navy Week . . .

This is Navy Week and it is being observed throughout Canada by the Navy League including its active branch in Prince Rupert. Throughout the long war, the Navy League was of the value not only to the Naval Service but to the Merchant Navies of all the United Nations. Its splendidly run clubs and the countless gifts to sailors which resulted from Navy League activities, were a very definite factor in the maintenance of the war-time morale of men whose comings and goings over the great waters provided a contribution to victory so great that the war most certainly could not have been won without it.

For the provision of many of tomorrow's seamen we may look, as we have looked in the past, to the Navy League's Royal Canadian Sea Cadets whose training for citizenship is as valuable as their training as future seamen. No man can tell what the future will hold for us but the past has shown clearly enough how important it has been for us that the control of the sea should remain in the hands of those pledged to the maintenance of that peace which alone is our true security.

In addition to its work among naval ratings and merchant seamen, the Navy League sponsors the Royal Canadian Sea Cadets and, in cooperation with the Navai Service, sends many thousands of cadets to its summer camps which Prince Rupert boys know so well. In barracks, the cadets are taught many useful subjects as well as the importance of self-discipline and respect for authority. The entire syllabus is designed to turn out young men ready to assume the responsibilities of citizenship.

Support of the Navy League and its work is a practical way to pay tribute to the men of the sea and to ensure a continuance of the sea cadet movement in the interests of Canada's future.

Hon. Frank Putnam . . .

Representing a district the interests and problems of which are largely agricultural and with long experience as a member of the Legislature, Hon. Frank Putnam, who was sworn in as Minister of Agriculture at Victoria yesterday, should be a worthy acquisition to the provincial administration.

Coalition member for the Legislature for Nelson-Creston, Mr. Putnam has been a member of the House continuously since 1928 and held the post of Minister of Agriculture under Former Premier T. D. Pattullo for a brief period in 1941 during the organization of the coalition government.

Value of Publicity . . .

One place where labor unions most of the time run circles around management is in getting their story before the public, says Financial

For this reason strike leaders are with this large early-season ever ready to make statements to the press, almost constantly available to tell what is going on, what they think is going on, what they expect will go on. Carefully planning their press once again packing the "Y." statements and timing strike moves to "make news" and to "keep the headlines" edition after edition, day is room for many more in this after day, is a major part of the strike organizer's job.

 Authorities say the difference between husky children and those who are poor eaters, underweight and nervous is often simply a matter of proper nourishment, especially an adequate supply of vitamins.

But vitamins alone are not enough. For authorities now agree that vitamins do not work alone. They work as a team with certain other food elements.

For this reason, thousands are switching to Ovaltine. Unlike mere "vitamin carriers," Ovaltine food beverage contains not only extra vitamins but nearly all the precious food elements needed for health and top vitality. These include Vitamins A B1 and D, the important minerals calcium, phosphorus and iron, high quality proteins and quick energy fuel-food—a combination of food elements authorities agree are needed

for best results. So, if your child is thin, nervous and not developing properly, why not turn to Ovaltine as thousands are doing. Three normal meals plus two glasses of Ovaltine a day give your child all the extra amounts of vitamins and minerals needed for health and top vitality.
