FOREIGN TRADE means Work for Canadians

BEFORE the war at least 25¢ out of every dollar of Canadian income was derived from exports. How much income, and how many jobs for Canadian workers, will exports provide after the war? That will depend partly on how much we buy abroad. It will depend, too, on how effectively we develop present markets and search out new ones.

The Royal Bank of Canada can assist both buyers and sellers. In Caracas, Buenos Aires, Rio de Janeiro and 16 other important Central and South American cities, our branches provide on-the-ground information about both export markets and sources of supply... offer complete facilities for transacting foreign banking business. We invite your inquiries regarding trade opportunities in these and other areas.
