"A large proportion of the total production of men's outer wear has to be diverted for use by demobilized men."

In 1944 the Ministry of Supply had agreed to a target of 35,000 suits a week for demobilization purposes. Speeded-up demobilization would require 75,000 suits a week for the rest of the year and 65,000 during 1946.

The public must have patience a little longer," Sir Stafford said. 'Demands for export trade and demobilization must be met.

"Supplies of men's clothing cannot possibly increase to any extent during the next year. The public pressed very hard for increased demobilization. Now they will have to sacrifice something for it by not expecting more men's clothes for a while."

To Canada's gallant fighting forces a great portion of the credit is due for Victory over the Nazis, climaxed by the signing of Allied terms for unconditional surrender. While we at home put forth our united efforts to supply material help towards achieving this result, the debt to our Sailors, Soldiers and Airmen still remains. Nor will the slate be wiped clean until every man and weman who returns is happily re-instated in a Canada at peace, offering better opportunities and more attractive prospects for the future than ever before.

Now that the world at large is again at peace, we must fearlessly tackle the tasks that lie ahead. Let us keep unnecessary spending down by keeping the volume of Victory Bond Sales up! Let us, in a true spirit of gratitude, unite in a combined effort to make sure that our boys and girls who offered their all for Canada and the cause of freedom, may come into their heritage. Every Bond each one of us buys is a token of our whole-hearted sympathy in the common cause.
