BUILDING NEW PLANER MILL AT SMITHERS

SMITHERS—The Alliance Lumber Co., with head offices at Crescent Spur, B.C., has leased 10 acres here and has begun clearing ground for the construction of a planer mill.

Plans call for the piling of a million board feet of lumber on the site, which is reached by the Duthie Mine road, and is convenient to a railroad siding. Tentative arrangements have een made to obtain power from the B.C. Power Commission at reduced rates for industrial use.

in PALESTINE they're known as MEG LANGE

TRANSLATED it simply means "Asphalt Shingles." But here in British Columbia, most people would insist on calling them "Duroid" shingles. At least, that's the way they seem to feel about Duroid.

Actually the name "Duroid" is a famous trade-name that appears ONLY on shingles made by Sidney. Genuine Duroid Shingles are made with a base of the finest rag-felt. That's why they're so well-known for dependability and long wear.

For your own home, ask for Genuine Duroid shingles by name. Make doubly sure of getting the real thing, by looking for the Sidney Seal of Quality on every bundle.
