

HAY FEVER RELIEF

THE EASY ORAL WAY

Lantigen "E"

BY MOUTH NO PAINFUL INJECTIONS

LANTIGEN "E" contains extracts of pollens of grasses, weeds, and spores of Canadian origin to which Hay Fever sufferers in Canada are usually allergic. Sufferers from Hay Fever are well advised to start taking LANTIGEN "E" about a month before their usual attack begins. The severity of the attack may be greatly reduced, if not eliminated entirely, when LANTIGEN "E" is taken as directed. Since bacterial infection of the upper respiratory tract frequently occurs with Hay Fever, LANTIGEN "E" combines the antigens of these organisms, a vaccine, with the pollens of grasses, weeds, and spores.
