

**MASSETT**

The Massett branch of the Native Brotherhood of B. C. held its annual election of officers here recently, naming Ivan Adams president. Other officers are: Vice-president, Thomas Smith; second vice-president, George Jones; secretary, Oliver Adams; treasurer, Albert Edwards.

The Massett Co-operative Cannery expects to begin canning clams and crabs March 19.

Four fine trolling boats are being completed by the Old Mas-

sett Trollers Association in time for the coming trolling season.

Harris Skille, well-known Alaska native, whose home was destroyed by fire while he was visiting at Massett, died recently at his home at Juneau.

Massett is busily preparing for the annual convention of the Native Brotherhood of B. C., which will be held here starting March 31.

AEGEAN WINDMILLS  
Mountain passes funneling the steady Aegean winds have long been favorite sites for windmills on the island of Crete.

SENSE OF HUMOR IS WOMAN'S NEED

Scottish Member Believes  
British Adventure Spirit  
"Crushed by Bad Times"

LONDON (AP)—A woman in politics needs balance and a sense of humor to keep from becoming either too masculine in thought or too feminine and ineffective, says Lady Priscilla Grant, newest member of the House of Commons.

The 31-year-old Conservative member for Aberdeen South has had a full life. She was widowed in 1944 when her soldier-husband was killed in the war. She has two daughters, the first born in Cairo, the second at the ancient Grant home at Monymusk, Aberdeenshire.

When the war started she went to work in a Scottish munitions factory as welfare officer, and soon learned the problems and anxieties of the employees. She finished her

service with firm ideas of how a woman can best serve in public life, and her own opinions on labor relations.

"My feeling is that relations between employers and employees can be improved and assisted, the increased production now wanted," she said in an interview.

There are faults on both sides. Labor caused harm by developing suspicion of employers when it was needed.

Employers had failed to make sufficient contact with their employees and break down suspicion.

SPIRIT OF ADVENTURE

There should be recognition that the fear of a slump still troubled the British worker with memories of 20 years of unemployment between the wars. If he had a feeling of security in

his job his spirit of adventure would be released and production and invention would benefit.

The spirit of adventure in Britain for the moment has been crushed by bad times. The feeling is that the Tories did not plan enough and the Socialists plan too much. I believe that much can be done to restore confidence and co-operation.

When she successfully campaigned in the Aberdeen South by-election her two daughters delighted in attending afternoon meetings. The youngest, Anne, already has decided she will be a member of parliament in the future.

Lady Grant says that while women have a place in politics it is almost impossible for them to serve when they have a home to maintain with a husband and small children. Her girls go to a boarding school in Scotland where the holidays coincide with parliamentary recesses and she can spend much of her time with them.

Canadian Guides  
R.A.F. Air Tour

LONDON (AP)—Wing Cmdr. A. J. Shelton, Trenton, Ont., was chosen to fly Air Marshal Sir Roderic Hill, Air Council member for technical services, on a 20,000-mile tour of the India and Far East Commands of the R.A.F. Wing Cmdr. Shelton was formerly chief flying instructor at the Empire Flying School. He served in the R.C. A.F. from October, 1939, until July, 1946, when he was granted a permanent commission in the R.A.F.

ATOMS NO SECRET

HALIFAX (AP)—Despite popular belief to the contrary, atomic energy is no secret, Dr. J. S. Thomson told the School for the Blind here. Even some "scientific illiterates" have had a smattering of its mysteries before now. The end of war must come from a different source than fear of atom bombs, he said.

NOT FOR CHEWING

Chicle originally was brought to the United States as a substitute for rubber.

BUSINESS OPPORTUNITIES

RAWLEIGH BUSINESS now open in Prince Rupert. Trade well established. Excellent opportunity. Write at once, Rawleigh's, Dept. WG-C-166-139, Winnipeg, Canada.

FOUND  
FOUND—Waterman fountain pen. Owner may have same by calling at Daily News and paying for this ad. (tf)

EXTENSIVE IMPROVEMENTS BEING  
MADE AT CAPITOL THEATRE HERE

Mitchell & Currie, contractors, are starting work this week on another phase of extensive improvement program at the Capitol Theatre involving total expenditure of \$40,000 over a two-year period. The latest contract, amounting to \$4700, provides for complete remodelling of the foyer or main entrance

floor and enlargement and improvement of reception facilities and house conveniences therein.

Both women's and men's rest-rooms are to be enlarged and facilities extended. The manager's office is to be moved into the portion now occupied by the ladies restroom which in turn, will be located at the end where the present open cloakroom is situated. A candy bar will be installed where the manager's office is at present situated. The present men's room will be remodelled and enlarged as will also be the pay checkroom. A new ventilation system on this floor will involve the use of forced air direct from outside.

Next major improvement to be undertaken within a month or so will be the installation at estimated cost of \$6000 of a fine new modern illuminated marquee for the whole 65-foot frontage of the building to depth of twelve feet over the sidewalk. In addition to the foyer entrance, the marquee will include all the offices and business places in the front of the theatre build-

ing. Two full length bars of neon lighting will embellish the front of the new marquee and underneath the marquee, also to full length, will be another two bars. The brightness will be further enhanced by red "Capitol" neon signs at each end of the marquee while, over the entrance, will be electric lettered feature title signs instead of the painted signs which have so far been used.

Other improvements to be made at the theatre during the present year will include complete new air conditioning of the auditorium and replacement of all seats.

How CAN I ???  
By ANNE ASHLEY

Q. How can I drive a nail into plaster without marring the wall?  
A. A nail can be driven into a plastered wall without crumbling the plaster if the nail is put in hot water for a few minutes or dipped into melted paraffin.

Q. How can I prevent dandruff?  
A. Dissolve one ounce of flour of sulphur in one quart of soft water. Do not use it until it is thoroughly mixed and settled. Apply it at night.

Q. How can I successfully launder ties?  
A. Before washing ties, baste them carefully, to prevent the lining or padding from becoming lumpy. Remove the bastings before ironing and the ties will look like new.
