### ROTARY PLANS MINSTREL SHOW

Afternoon Tea Another Novel Function Coming Up

The garment of august dignity normally attributed to Rotarians is going to be set aside temporarily by certain members of the local club in favor of the burnt cork and grease paint of darktown minstrels. Their Maand Dixon antics, along with those of outside talent, vill be viewed on the stage of the Capitol Theatre in a Rotary Club minstrel show at some future date.

Rotarians of known musical and histrionic accomplishment squirmed uneasily in their chairs at the club's weekly meeting Thursday afternoon when the membership approved the minstrel show project knowing that they would be called on to perform.

"I have committed many acts of foolishness in my time, but none that anyone would pay money to see," was the neat manner in which one member excused himself from participation in the show.

Nevertheless, in the best tradition of the theatre, the Roarians decided that the show must go on and Club President . W. Kergin named William Terry as chairman of a minstrel committee consisting of E. . Applewhaite, N. E. Gerrard, E. Anfield, H. E. Whalen, H. Lock, A. P. Crawley, George Mitchell and D. C. Stevenson.

The mood for projects of a cultural nature was carried proved a proposal for a tea to even further when the club apbe held on April 17. President Kergin will pour. G. T. Durkin heads the committee in charge of arrangements.

To bring in a slate of offi cers for 1947-48, Past Presidents Peter Lakie, P. H. Linzey, A. S. Nickerson, George Mitchell and J. H. Thompson were named as a nominating committee. Elections will be held in May. Guests at the meeting were

The Trawler Strike Issue - -

## IS THIS UNIONISM OR RESTRAINT OF TRADE!

The action of the United Fishermen and Allied Workers' Union in ordering fish from beam trawlers must be sold to the independent fish buyers and salers until a minimum price is established, but permitting the fish from trawlers to be sold to the Fishermen's Co-operative Association at whatever to ket will bring, is a dangerous precedent that has important meanings to Brita umbia, its fishermen and its industries.

Here are the facts: 1. A situation has existed since February in the beam trawl fishing industry of British Columbia where the United Fishermen and Allied Workers' Union has instructed the beam trawl fishermen not to sell to the Independent fishing companies until a fixed minimum price is guaranteed. But the Union allows the beam trawl fishermen to sell to the Fishermen's Cooperative Association without any price guarantee. In other words, the Co-operative pays whatever the market will allow. This can be interpreted

as a trend to monopoly. 2. The Union claims there is no strike in progress. The United Fishermen and Allied Workers' Union, by order ing that no beam trawl fishing vessel shall sell fish to the independent fish companies, is dictating to the fishermen-who are independent producers -in an apparent attempt to control the distribution as well as the production of beam trawl fishing. Is this restraint of trade?

3. The Union has admitted the necessity for flexibility of prices by: (a) permitting the Co-operative to pay what the market will bear

minimum price schedule to the independents could be terminated or revised on two weeks' notice. (They say that this provides the necessary flexibility). The flaws in this proposal are that it

(b) suggesting that the proposed

lacks flexibility in a market that is in a period of postwar adjustment and does not guarantee that another stoppage will not result in two weeks'

1. The products of the beam trawlersole and cod species—are suited only to the fresh fish or frozen fish trade

ed. Frozen fish is not like s wheat or lumber that can be sin until a more favorable market velops, or that can even be su nations of Europe or Asia II supply develops in North Amen markets, as now threatens. IRI erated shipping space is scare facilities to handle frozen food even more difficult to find in deficient countries). The improvement of the meal se

dition of the world fish markets

Only a limited quantity can be mar-The independent fishing companies of British Columbia are not trying to lower to the beam to be beam? to the beam trawl fishermen. They are simply pointing out that if the the North And fishermen wish to continue to sell their catches to the fish markets of North April 19 they must continue to accept the prices offered by those markets. In insisting with minimum, quaranteed to accept the prices offered by those markets. In insisting to minimum quaranteed price for beam trawl fish, the Union is actually trying to

late world fish market prices which is obviously impossible. The alternative conclusion, of course, is that by refusing to sell to any buyer extended on the sell to any co-operative at free market prices, the Union is creating a monopoly in this marketing agree or the union is creating a monopoly in this marketing agree or the union is creating a monopoly in this marketing agree or the union is creating a monopoly in this marketing agree or the union is creating a monopoly in this marketing agree or the union is creating a monopoly in this marketing agree or the union is creating a monopoly in this marketing agree or the union is creating a monopoly in this marketing agree or the union is creating a monopoly in this marketing agree or the union is creating a monopoly in this marketing agree or the union is creating a monopoly in this marketing agree or the union is creating a monopoly in this marketing agree or the union is creating a monopoly in this marketing agree or the union is creating a monopoly in this marketing agree or the union is creating a monopoly in this marketing agree or the union is creating agr marketing agency. The result of a continuation of this policy by the Union may well be that by market prices, the Union is creating a monopoly in which well be that by market prices, the Union is creating a monopoly in which well be that by market prices, the Union is creating a monopoly in which well be that by market prices, the Union is creating a monopoly in which we will be that by market prices, the Union is creating a monopoly in which we will be that by market prices, the Union is creating a monopoly in the Union is crea well be that by means of using the Fishermen's Co-operative movement as and tentional instrument as an entional instrument. tentional instrument, absolute control over beam trawl fishing will be secured !! Union.
