RITUAL IS IMPRESSIVE

Officers of Canadian Legion
Are Installed In Dignified
Ceremony

At a largely attended meeting of the Prince Rupert Branch of the Canadian Legion in their club rooms last evening the full ritual of the installation of the officers elected at the recent annual meeting was carried out. With J. S. Wilson, zone representative of the Legion, conducting the impressive ceremony, the various officers were in succession inducted into their respective positions, each subscribing to the requirements of his appointment. First came Sergeant-at-Arms James Taylor and then executive council members Graham Alexander, Anthony J. Bussanich, William E. Denning, Fred D. Hardy, Douglas McGilivray, William A. Osborne, Frank H. Stratford and John A. Teng. Next were the First Vice-President, Ralph P. Smith and Second Vice-President, James Nicoll and the ceremony concluded with the installation of the President, Victor G. Houston.

In his concluding address the installing officer reminded the membership that, as they had heard their officers promise to carry out their duties, it was equally necessary that each member renew his oath of service in the organization. Briefly tracing the growth of the Canadian Legion, a constituent body of the world-wide British Empire Service League, Mr. Wilson reminded the members of their responsibility to their comrades.

their dependents, the community and the country. As they ever remembered their fallen comrades they should continue to labor on to make the country worthy of the sacrifices that had been made.

PRESENTATION TO ABBIE EYOLFSON

President Houston then called on Cadet Leading Seaman Albert Eyolfson, Captain Cook Corps, who was the guest of the Legion, to come forward. He congratulated him on the honor of being chosen for the trip to England and assured him of the Legion's best wishes for his future. He then asked him to accept on behalf of the Legion a check which the members hoped he would use to good advantage. "Abbie" thanked the Legion and said he would try to be a credit to the corps and the city.

To conclude the evening's program Sergeant Lance Potterton of the B.C. Police showed three films of views which he had taken of the various parts of the province. These were thoroughly enjoyed and a hearty vote of thanks was accorded Sergeant Potterton for the opportunity to see such outstanding and interesting views. Generous tributes were expressed to Sergeant Potterton on the extremely high standard of the films he had made. J. Goscoe operated the projector.

ANOTHER JOB FOR JAVEX

IT GIVES A WHITER WASH

JAVEX acts like magic on imbedded grime and stains on linens and cottons. Only a small amount is needed. Javex whitens as it cleans—and it's wonderful for keeping sinks and drainboards spotless. Makes toilets snowy-white. It costs so little and lasts so much longer too.

Straightening Terrace Road

Important Piece of Work Nearing Completion

Provincial public works crew is making good headway with the heavy rock work involved in a three-quarter of a mile diversion immediately beyond the Skeena River Highway bridge at Terrace. Thereby will be removed one of the danger points of the northern transprovincial road. By July 1 it is expected the job, which has been in progress for some time, will have been completed.

The job has included the installation of two new piers at the south end of the bridge, elimination of a sharp curve just beyond and the widening out of the road to 22 feet. The site of work extends from the end of the bridge to the Lakelse intersection.

Once the rock work, now 60 per cent finished, is completed, it will not take long to put down the gravel and wind up the job. Two compressor drills and a small shovel are being used in the rock work and three power graders are also available.

This is the major public works project now in progress near Terrace where 35 men are employed on road work with Arthur Kennedy as general foreman, Frank Gavin, road foreman, T. C. M. Foreman, bridge foreman, and Victor Ross, garage mechanic.

BETTER RADIO BEING SOUGHT

TERRACE—With many sections of the central interior almost completely without long wave reception, particularly during the short nights of summer, and short wave reception spotty, the Associated Boards of Trade of Central British Columbia, at its recent executive meeting here, decided to keep up the pressure on the Canadian Broadcasting Corporation for better service. Booster stations at various points along the line of the Canadian National Railways are believed to be the inexpensive and effective solution of bringing in CBC network programs which are particularly lacking.

Boosting of power of Station CFPB at Prince Rupert so that it might enjoy a wider radius is also desired.

TERRACE SEASON IS ABOUT NORMAL

TERRACE — "The season is about normal, this year," commented Will Robinson, general factotum of Terrace, to a Daily News reporter as he glanced out of his office window. "The birches on Lakelse Avenue usually leaf out about April 20 to 27. They were just a little, a very little, ahead this year."

The soil is just a little wet around Terrace for spring plowing and planting but it will not be long now before work on the small farms and gardens in that area is fully under way.

RESEARCH PARTY AT LAKELSE LAKE

TERRACE—First Fisheries Research Board of Canada salmon migration investigation party of the season to go into the field in the central interior this year is one headed by R. Brett of Nanaimo Biological Station with five men who have established camp on Lakelse Lake at the mouth of Granite Creek. A new cabin is being erected and new fences for observation purposes will be put in. This is but one of many parties which will again be placed on the lakes and streams of the central interior this year under the general direction of Dr. A. L. Pritchard.

Guaranteed to Keep You "Regular" Naturally or double your money back

DOUBLE YOUR MONEY BACK Guarantee

Eat an ounce of Kellogg's All-Bran every day.
