The Old Man who tells how the wind is blowing at Lord's Cricket grounds in London has been knocked off his perch and broken in three places. The Old Man, also known as Father Time stood with siekle in hand, complete' with cricket bat, stumps and balls, atop the famous grandstand. He was found grounded at dawn and rushed to Lord's basement hospital but his injuries were too serious and to a London Smithy took over. His beard was bent and the offstump - supporting spindle of the whole structure-suffered a seeds are spaced at exactly the compound fracture and was the distance plants are to grow, cause of his fall. The Old Man however, there is always the risk was designed by Sir Herbert that some seedling plants may Baker and the diehards say he be destroyed by accident or is symbolic of the immortality of the game, which, though the match may end, goes on through the ages. But he's had his setbacks. He was toppled over in 1939—also by a gale—and again in 1940 when a vagabond barrage balloon bumped into him. He spent the war years with the other relies in Lord's committee

The Old Man will probably be ready to "oversee" the test match between England and South Africa starting at Lord's June 21. There is much speculation over England's chances against the Springboks following the drubbing given the M.C. C. team that went to Australia during the winter. Since the two countries first met. England has Africa in 1939 England was vic- avoid crowding. torius in one test four others shire on April 30: -

### SOWING SEEDS IN PAIRS PLANTS ARE SPACED EVENLY

Seeds which are large enough be grasped singly may be spaced in the vegetable garden row quite accurately. When the otherwise; and vacant spaces be left in the row.

One way to avoid this is to sow large seeds in pairs, spaced at the distance plants are to stand. If both seeds grow one plant of the pair can be pulled up. Bush beans, for example. give good results when standing four inches apart in the row. By sowing seeds in pairs four inches apart, an even stand is assured. In the case of beans, even if thinning is neglected and the twin plants are allowed to mature together there is little harm, but with plants of a different habit, thinning would be

Another way of assuring enough plants in the row is to sow single seeds, spaced closer won 29 matches and South Af- than the plants are to stand. rica 12. Twenty-three matches This is likely to result in a stand have been drawn. In the last not so even; and thinning out series of tests played in South must be done without fail to

Crowded plants never produce

There will be fewer vacant spaces when large seeds are sown two and two.

anding in stalemates. The South as well as those which have work to do, if they give careful Africans play their first game plenty of room to grow. This is attention to spacing the seed. in England against Worcester- a lesson which many amateurs On the average, with fresh are slow to learn. They do not seed of standard germination it

### like to pull seedlings in order should be sufficient to sow 50 to give others more space. There per cent more seeds than you will be less of this unpleasant expect to mature as plants.

### Largest Lot of Conscience Money

MONTREAL - The largest single payment of conscience money was acknowledged here today by the treasurer of the Canadian National Railways. It was a cheque for \$1,000 from Winnipeg.

Reporting an abundance of dry, powderly snow that made for excellent skiing, a party of six local ski enthusiasts returned last night from Stewart and Premier where they spent the week-end sliding down They were Allan Arm strong, Don Eby, Ingvar Morse, Harry Edgar, Bob Braece and Roy Bertram. The party went north on Thursday afternoon in the boat Colonel Robinson and spent their time on Mount Dolly and Big Missouri.

ANCIENT UR The city of Ur, in Iraq, is the most ancient city in the world yet undiscovered.
