Cooking is such a pleasure on an electric range. Thermostatic control of heat eliminates constant checking and frequent trips to the kitchen when there is other work to do. Electric cooking is clean cooking—no soot or blackened pots to make extra work for the housewife.

2

The windowsill is no place for your dairy products, meats and vegetables. It's either too cold or too warm — the milk freezes or turns sour. With an electric refrigerator there is practically no waste as foods are kept at a uniform temperature all year round.

ectric servants" give inpensive, faithful service ad save hours of time and ard work.

Many delicious recipes for deserts requiring "electric refrigeration" may be found in modern magazines and cook books.
