Published every afternoon except Sunday by
Prince Rupert Daily News Ltd., 3rd Avenue, Prince Rupert, British Columbia. G. A. HUNTER, Managing Editor. H. G. PERRY, Managing Director. MEMBER OF CANADIAN PRESS - AUDIT BUREAU OF CIRCULATIONS CANADIAN DAILY NEWSPAPER ASSOCIATION

An independent daily newspaper devoted to the upbuilding of Prince Rupert and all communities comprising northern and central British Columbia.

By City Carrier, per week, 15c; Per Month, 65c; Per Year, \$7.00; By Mail, Per Month, 40c; Per Year, \$4.00.

JUDGE BILL' FULTON

IT IS A PLEASURE of which we promptly avail ourselves to congratulate William Otis Fulton,

doyen of Prince Rupert's members of the bar, on his appointment of Judge of the County Court. A plain and popular man, esteemed citizen of many years' standing in Prince Rupert, his elevation to the bench will be heartily approved and he may be trusted to carry out the responsibiliteis of his office with wisdom and dignity. It is gratifying that again a Prince Rupert man was chosen.

To the man whom Mr. Fulton succeeds, His Honor, William E. Fisher, we would also like to pay tribute on the occasion of his retirement. Also a pioneer legal practitioner of Prince Rupert, having come here even earlier than did Mr. Fulton, Judge Fisher has occupied the bench here for nearly fifteen years and has acquitted himself quietly and efficiently, find an immediate. He now goes into retirement with a record of fair and square administration of justice. That he will be spared many years to enjoy life is our wish and that of his many friends.

NEW TRADE ROUTE

A N INTERESTING STATEMENT of the case A for buying in the eastern-midwestern trading area and shipping overland via Canadian National and Briggs Steamship to Alaska is made out by the Alaska-Midwest company, a new partnership of three Alaskans who propose to handle buying for Southeastern Alaska merchants in the Twin

It has been a fight of decades to have such a service and years ago, we are told, there was such a shipping connection. Why it died we have not been told, but probably because there was less population up here to be served and the economy was more of a seasonal nature, making it difficult to operate small ships on a continuous basis.

Alaska-Midwest points up these advantages of the overland connection:

1. It creates a competitive market, forcing Seattle jobbers to give better prices and services or lose

business to the Twin cities. 2. It would give an alternate lifeline in case of coastal shipping tieup. If this proves to be true, it is highly important, for Alaska still is suffering from last fall and winter's tieup of ships. The danger here, however, is that the same union manning Briggs Steamship vessels will be on the coastal ships and might go out in support of their colleagues below. However, if Briggs does not join the Waterfront Employers association and deals direct with the unions, there is no reason why he can't continue to operate as some small lines generally are allowed to do.

3. Prices are lower. There are recurrent rumors that Seattle jobbers treat Alaska as an "export market" and charge us 10 or 15% more for our goods because of this fact. We know it is true in some commodities. It does not seem to be true in paper, however, with Seattle quoting jobbing prices on its laid-down costs which means freight from eastern producing centers is included, buying from St. Paul would mean a saving. This is because the St. Paul wholesale price does not include freight to the west coast which the Seattle jobber adds onto his cost before he adds his markup.

4. Briggs has promised rates from 20 to 50% lower than the rates from Seattle, because his run is shorter and his boat will be actually delivering goods more of the time than if it had to make a long run from Seattle.

5. Handling costs all along the way are less. This adds up to an important item. St. Paul is the carloading point because goods going into Minneapolis from the east is subjected to a switching or transfer charge which is not added in St. Paul. Jobbers in St. Paul promise to deliver the goods to the warehouse or car without charge while in Seattle drayage is added plus, in many cases, a charge for waiting in line with dray at the warehouse. Loading costs in Prince Rupert will be 50 to 75% what they are in Seattle. The goods won't have to be loaded into a warehouse at Rupert, then unloaded and shipped again, as they are in a Seattle wholesale

Car loading and car pooling facilities in St. Paul will, at least to some extent, offset the higher cost of less than carload lots en route to Rupert. St. Paul firms have promised to extend more liberal credit and discount terms, too, though we haven't yet heard just what they will be. More details will be available here next week when the St. Paul delegation arrives.—Ketchikan Chronicle.
