

### Biggest Harnessing Ever Severn River

LONDON @—A delegation from Montgomeryshire county, led by Clement Davies, M.P. and leader of the Parliamentary Liberal Party, three cabinet ministers, are on an inquiry to determine the harnessing of the Severn river to help solve local problems. Minister Shinwell, Health Minister Bevan and Agriculture Minister Tom Williams said they consider the plan. They

were told that Montgomeryshire thinks river control measures would have these results: Provision of sufficient water to supply Montgomeryshire, Radnorshire, Shropshire and part of the Midlands; increased hydro-electric power, particularly for rural electrification; elimination of flooding which now handicaps agriculture.

**SHORTENING**—As far as 1947 is concerned it looks as if Canadian housewives will continue their trek from store to store, hoping to find a stray pound of shortening. International trade in fats and oils this year is estimated at approximately 50 per cent of requirements and since Canada depends largely on imports for edible fats and oils we can expect continued shortages for some time.

Under the term "shortening," the Food and Drugs Act of Canada includes "butter, lard or lard compound, or a combination of other edible vegetable or animal fats or edible oils."

Home economists say too many persons use the word "shortening" in too narrow a way. The economists think of lard, or home rendered and clarified fat, from pork, beef, veal, chicken or even browned drippings, as possible shortenings.

Rendered fat from pork, beef, veal or poultry may be used for baking or pan frying.

In roasting meats or poultry the excess fat should be poured off during cooking, leaving only sufficient fat in the pan for basting and later for gravy. In this way the fat is not darkened as much as it would be if left in the pan for the full roasting time. Such dripping may be used in meat and vegetable dishes and for pan frying.

**SPICED COOKIES**—Looking for something new with which to fill the cookie-jar? Here is a recipe for spiced drop cookies which has been tested by home economists.

**Ingredients:** One-third cup clarified smoked or fresh pork fat (or other shortening); 1/2 cup brown sugar; 1/2 cup honey; 1 egg, well beaten; 3/4 cup thick unsweetened applesauce; 1/4 teaspoon baking soda; 1/2 teaspoon baking powder; two cups pastry flour (or 1 3/4 cups all-purpose flour); 1/2 teaspoon cinnamon; 1/4 teaspoon nutmeg; 1/4 teaspoon salt; 1 cup chopped raisins (optional).

Cream fat and sugar thoroughly. Add honey, mixing well. Add egg and beat well. Add applesauce in which soda has been dissolved. Sift together the dry ingredients and add with the raisins to the creamed mixture. Drop by teaspoonful on a greased baking-sheet. Bake in a hot oven for 20 minutes. The quantity makes between five and six dozen.

**SHOWS WOUNDS AT TRIAL OF NAZI DOCTORS**—One of four Polish women who came voluntarily to Nuremberg to act as witnesses at the trial of 23 Nazi doctors accused of experimenting on human "guinea pigs" is Jadwiga Dzido, a former member of the Polish underground. Here, at the Palace of Justice, Nuremberg, Germany, her wounds are explained to the military tribunal by Dr. Alexander. Jadwiga was "operated" on in 1942.
