Annual reports turned in by almost a score of committees showed an extremely healthy tuation prevailing in all departments of the church.

## STOP RUNNING WATER, REQUESTS CITY ENGINEER; RESERVOIR IS LOW

So critical has become the level of the water in the Roosevelt Park reservoir that the city engineer today issued an appeal to the public to curtail the illegal practice of allowing taps to run in order to prevent freezing.

In spite of the fact that the booster pumps have been running steadily for two days, the level of water in the reser-.voir dropped from 6 to 2 feet in four hours today. "At that rate, there is danger of the whole supply becoming exhausted," Mr. Phillips warned.

The maximum level of the reservoir is 13.8 feet. The safety level is about nine feet.

#### Blowtorch Causes Fire In Residence

A blowtorch used to thaw frozen water pipes was responsible for a fire in the residence of H. M. Waters, 225 Ninth Avenue East, at 12:30 this afternoon. The blaze swept up a partition and damaged the walls on the ground floor and second floor before it was subdued by city firemen.

Through 14 years of daily newspaper advertising, two brothers in Kitchener, Ontario, built a business from the sale of a few odd pieces of furniture to a \$400,000 annual turnover.
