A formal design is suited to a garden of annuals. It should be located near the house, where it will harmonize with the building and lot lines and the flowers can be arranged in a pleasing balance of both mass and color without any touch of stiffness.

nials take months, or years.

The simpler a formal pattern of flower beds can be made, the more surely it will please. It is a serious mistake, often made by beginners, to attempt a somewhat novel or intricate pattern of beds and paths. When this is done, the attention of garden visitors is claimed by the pattern which is likely to be curious rather than beautiful. The flowers are retired to second place, and the whole effect suffers.

A simple plan, in good proportion, which can be immediately comprehended, centers interest upon the beauty of the flowers, which is the purpose to be

The plan above suggests such garden, which has an axis centering on the porch of the house, with a tree as a terminal feature. Such an axis is important in a formal garden; it should centre on a porch, a door or window, and at its other end there should be something to take the eye, if not a tree, then
