Why Not Prince Rupert?

OSSIBLY JOHN STRACHEY, the British Minister of Food, who has been talking so much about the vital part that the port of Vancouver is playing in connection with the movement of Canadian wheat to the United Kingdom in the food emergency, has never heard of Prince Rupert and this grain shipping avenue. Explanations notwithstanding, it is still just a little hard for us to understand why, when not only Britain but all of Europe is crying for Canadian wheat and the statement is made that the volume of the movement is limited only by the capacity to handle it, some way cannot be made to use the port of Prince Rupert and its grain handling facilities.

It used to be that Prince Rupert used to get a few scraps of grain to ship when Vancouver had too much. Now it seems we are not being favored even to that extent. It is no wonder that our patience is becoming frayed about the way we are being ignored and side-tracked.

Arts and Crafts

AANY Prince Rupert people

today to organize an exhibition

of local arts and crafts at the

Civic Centre in the early spring.

Already, a considerable num-

ber have evinced their interest

by volunteering to display the

products of their art and

handicraft. There are, doubt-

less, many more here who

could contribute to making a

real and versatile show of it.

arts and personal handicrafts

is something that is to be much

encouraged as part of the cul-

tural life of the community.

It should command widespread

attention not only on the part

of those who have something

to show but among the many

Timely Visitor

THE provincial Department of Trade and Industry is to Should be interested in the be congratulated on sending the new trade representative from British Columbia to London on a brief visit to Prince Rupert today while on his way abroad to assume his new duties. We are appreciative of the fact that he has been able to call here to look the place over at first hand when other places could not be similarly favored before he leaves. It is also gratifying that, after leaving here, he is to make a visit to Prince George, the hub of

the central interior. It is well that Col. Smith should see for himself what we have in this part of the country and that he may have the picture of what the country looks like to add to the information about us that he will have been provided with

by the department. Prince Rupert expects some day to be a port of shipment for the United Kingdom and this area of the coast with its fish products and lumber and the interior with its developed and so far undeveloped products might quite well be a source of supply of various kinds of goods for Britain. Col. Smith will also observe what there is to offer here in the way of industrial, commercial settlement possibilities. When he gets established in his post in London, it may well be that he will be able to make very valuable contacts on our rict Teachers' Association heard behalf in the way of interesting people there in this last great untouched corner of Empire and the opportunities it nas to offer.

We Fall Down

FAR BELOW what was expected" is the comment that is made by the local Cross president when speaking of the response of Prince Rupert people to the drive for volunteers as donors of blood for the reserve being built up in British Columbia for transfusion purposes.

with a great deal of interest. Prince Rupert people have always been noted for the Mr. Evans plans to visit Alert! spontaneous and full measure in which they responded to good humanitarian causes. It is strange that they should not be coming forward in registering themselves as being willing to give not of money but of their blood so that it may be able when needed for the saving of other's lives. We do not think it is intentional apathy or careless indifference. Possibly, the need has not been fully impressed upon them. All they are called upon to do now is to register with the Red J. S. Wilson, president; J. Hen-Cross executive or any of the ry, vice-president. Miss M. Cunbanks. If they even turn in liffe, secretary; J. Vogt, treastheir names to the Daily News office, we will see they are to the proper transmitted quarters.

CHLORINATOR COSTS COMPARED

Estimated cost of running the city chlorinator on a 24-hoursa-day basis for a full year would be \$2,600, City Engineer E. A. Phillips reported to council last night in answer to a request by Alderman T. B. Black. Cost of emergency operation of plant, on the basis of three five. day periods during the year, would be \$600 or \$40 per day. Full-time operation would reduce the daily cost to \$6.50.

LONDON, (P) - Blood plasma and serum, produced by a drying process in 1940, is still for use, says a report by the Medical Research Council.

IMPORTANT GOVERNMENT NOTICE Respecting Price Control

8528 of November 1, 1941) established basic period maximum prices for goods and designated services. These regulations were passed under the authority of the War Measures Act and continued in force under the National Emergency Transitional Powers Act, 1945.

From time to time these basic maximum prices have been varied or the fixed maximum has been suspended in the case of particular goods and services by Orders issued by the Wartime Prices and Trade Board under the authority of the above Regulations. A few days ago a substantial number of suspensions from price control was announced.

I believe it is desirable therefore that a summary should now be published of those goods and services on which a legal maximum price remains in force under the provisions of the Wartime Prices and Trade Regulations so that all citizens may be given an opportunity to inform

Prices and Trade Board Order No. 684 which is available to the public at any office of the Wartime Prices and Trade Board, and to which reference should be made for exact details.

Summary of

Under Wartime Prices and Trade Board Order No. 684

FOODS
