# Lake Success Expresses Forebodings

## European Army Is Russia's Ace

### Could Seize Most of West in Single Blitz

So Intelligence of Allies Says—Atom in China Could Start It

BERLIN (CP)—Six Russian armies are in winter quarters in East Germany and Allied intelligence rates them strong enough to seize most of western Europe in a single blitz action.

This potential sweep from the Elbe River to the Pyrenees is regarded here as Russia's ace card in the mounting world crisis. It is an action which many European observers dread may be touched off if the United States resorts to atomic warfare against Red China.

## Convicted Of Murder

Los Angeles Killer Is Also Wanted in Toronto

LOS ANGELES @—Frank Buckowski Miller, aged 23, was convicted yesterday of murdering Mrs. Helen Edmunds, 82, when she surprised him burglarizing her home February 1.

Miller is also wanted in Toronto on a charge of shooting Alfred Layng, 26, a bystander, who attempted to stop a grocery store bandit during a robbery last year.

Miller's wife, Jean, was found innocent of the murder here. She was not connected with the Toronto shooting. Her husband will be sentenced on Monday.

## Canadians To Train at Pusan

OTTAWA—The 345 Canadian soldiers, first to arrive in Korea, will continue training at Pusan. It is unlikely they will be ready to fight earlier than March. They are now preparing to receive the Princess Patricia Regiment, en route across the Pacific. Here, it is said all troops liable for service will be sent to Asia, if the state of affairs in Far East continue critical.

## No Change In Troop Plans

FORT LEWIS, Washington @—Brig. J. M. Rockingham, commander of Canada's special force, said yesterday that there are no plans at the moment to send additional troops to "Korea or elsewhere." The sudden change in the Korean situation, he said, had not affected the status of his troops as yet.

## Knock-out Is Brion Promise

CHICAGO @—Young Cesar Brion, full of vim and confidence, predicts a kyo for himself within seven rounds against the aging Joe Louis in their scheduled ten-rounder tonight.

The 23-year-old Argentine heavyweight is at the short end of 4 to 1 odds to defeat Joe Louis, trying a second comeback at age of 33 after being decisively beaten in fifteen rounds by Ezzard Charles last September, still thinks he packs enough dynamite to chill Brion.

"I'll shoot for a knock-out from the very start and throw as many rights as possible," Louis promised.

A crowd of possibly 10,000 and a \$50,000 gate is forecast. Louis will receive 37 1/2 percent of the net gate. His pay-off may amount to less than \$10,000—the smallest purse for a regular bout he has ever received.

## U. N. Forces Are In Critical Position

Chances of Escape From Great Red Offensive Are Matter of Speculation

SEOUL (CP)—Two American divisions escaped south across the icy Chongchon River in northwest Korea today but the Chinese Reds are swarming through a wide gap and threaten to trap a big Allied force.

The Chinese offensive mass of more than 200,000 men is reported to be using tanks for the first time.

A spokesman at advanced United States Eighth Army headquarters said that one Communist column had cut to within 30 miles of the former Red Korean capital of Pyongyang. He said the Red force was near Sinchang, northeast of the old capital, but he did not disclose its size.

At least three other Red Chinese columns are reported rolling down through the Tokchon gap in wide sweeps against the exposed Allied right flank. This was where Communist attacks had earlier crumpled three South Korean divisions.

Another Chinese force is reported attacking for the first time on the extreme left flank but spokesmen did not give the location.

A Chinese break-through in force to the Yellow Sea would seal off large elements of the 110,000-man force fighting for its life in the northwest.

The Chinese Red attack is mounted by 200,000 or more troops with more pouring in steadily from Manchuria.

First Chinese tanks were observed across the Chongchon, tumbling from west of Kunu, eastern anchor of the shrunken Allied line.

Kunu was the escape gate through which the United States 25th and Second Division troops poured after crossing the Chongchon, the Reds attacking from three sides. Kunu's fate is now in doubt.

Allied warplanes, grounded Wednesday morning by bad weather, roared over the front throughout the afternoon today in close support of the desperate ground troops.

S. P. Woodside returned to the city on the Prince George this morning from a brief trip to Vancouver.

## Seventy-Eighth Death In Wreck

NEW YORK @—Toll in the United States Thanksgiving Eve collision of two Long Island Railroad trains last Wednesday rose to 78 yesterday with the death of one of the injured. The latest victim is Samuel Goldstein, 55, of Rockville Centre.

## SEES CONSPIRACY BUT—

### Bevin Hopes for "Political" Solution in Korean Crisis

LONDON (CP)—Foreign Secretary Ernest Bevin today warned that there might be "Russian-Chinese conspiracy on a widespread scale" but added that, despite developments of the last few days, he thought a "political solution" could be found for Korea that would prevent the spread of hostilities.

## More Fish and Higher Value

OTTAWA @—Canada's commercial fishermen landed 1,059,910 pounds of fish in the first 10 months of this year.

That was about 65,000,000 pounds more than they landed in the corresponding period last year. It was worth just about \$10,500,000 more—\$58,118,000 compared with \$47,426,000 for the 994,133,000 pounds caught in January-to-October period of 1949.

On the Pacific coast October landings totalled 36,228,000 pounds valued at \$4,544,000 compared with 71,013,000 pounds valued at \$2,261,000 the year earlier.

## THE WEATHER

### Synopsis

The battle between the mild air over southern British Columbia and the cold air over northern B.C. remained at a stalemate this morning. However a storm now forming off the California coast shows good signs of heading northward and is expected to develop a southerly flow of warm Pacific air over the province in the next two days. This renewed flow of air from the south should cause rising temperatures over the south of the province and will also cause a slow retreat of the polar air to the north. Cloudy skies will continue in most regions. Snow flurries will fall along the north coast and in the northern interior. Rain is expected to spread over the coast this evening and move into the interior during the night.

Forecast

North coast region—Cloudy today and Thursday. Snow flurries in northern sections today changing to intermittent rain tonight. Rain beginning southern section this evening. Milder tonight. Winds, northerly 20 mph northern section and light southern section becoming easterly (25) all sections overnight. Lows tonight and highs tomorrow—at Port Hardy, 36 and 48, Sandspit, 32 and 45, Prince Rupert, 32 and 45.

## Flash

### COMMUNISTS EXCITED

TOKYO—The Chinese Communist spokesman, Mr. Wu, speaking Tuesday continued his address for two hours. He told Warren Austin, American representative and colleagues, he represented 275 million countrymen. At times, his voice rose to a shriek. The hall was packed.

### KOREA ALL-ENGAGING

WASHINGTON, D.C.—The situation in Korea is engaging the total concern of President Truman and government to the exclusion of practically everything else. There was an emergent session with defence authorities last night.

### AT OTTAWA

OTTAWA—The cabinet, which devoted much attention to Canada's attitude over Korea Tuesday, will resume a study of the situation today.

### FEW DAYS WILL TELL

WASHINGTON—A senator from the southern states declared Tuesday the next three days will tell whether there is to be war between the United States and Communist China or a third world war.

### TOKYO EFFECTED

TOKYO—Bill Herbert, CBC broadcaster, says General MacNaughton's report of the Chinese Communist push against the UN forces, and virtual defeat of the latter is having a profound effect in Tokyo. Nothing else seems to matter.

## Four Children Burn To Death

OSHAWA, Ont. @—Four small children died yesterday when fire swept through an upstairs kitchen and a tiny bedroom in a crowded rooming house which had been condemned twice by municipal authorities.

The four children, unattended at the time, belonged to Mr. and Mrs. Gordon Burns. The dead are: Marie, 11 months; Joan, three years; Linda, 5, and Bobby, 2. A fifth child, Donna, 6, was outside at the time.

## Unyielding Attitude of Chinese Reds Alarming

LAKE SUCCESS (CP)—United Nations circles privately expressed forebodings today on chances of localizing the bitter Korean fighting in view of the Chinese Communists' unyielding attitude.

This feeling prevailed even in those non-Communist delegations that had urged bringing the Chinese Reds to Lake Success in the hope that some agreement on conciliation might be worked out.

Peiping's spokesman, Wu Hsiu-Chuan, blasted many of those hopes in the Security Council yesterday when he made it plain that Chinese Communists had no intention of withdrawing from Korea.

The Chinese delegation, headed by Wu Hsiu-Chuan, came here to participate in the debate on Russian charges of American aggression against China.

## C.N.R. Buying Narrows Bridge

VANCOUVER—Donald Gordon, Chairman and President, Canadian National Railways, announced from Montreal yesterday that arrangements have been completed with the Burrard Inlet Tunnel and Bridge Company of North Vancouver, under which the second Narrows Bridge over Burrard Inlet, Vancouver Harbor, would be sold to the Canadian National. The sale is subject to approval by plebiscite of the voters of the city and district of North Vancouver, which will probably be held early in the new year.

The Second Narrows Bridge is the only bridge over Burrard Inlet carrying railway traffic and its sale to the Canadian National is the first step in the accelerated industrial development of North Vancouver which is expected to follow the extension of the Canadian National to the north shore of Burrard Inlet.

In the negotiations just concluded, the city of North Vancouver was represented by Mayor Frank R. Goldworthy and the district of North Vancouver by Commissioner M. E. Snowden.

## Scandal Wrecks French Cabinet

PARIS @—The French cabinet decided to resign last night after the National Assembly had censured Defence Minister Jules Moch for his alleged part in an internal scandal. It concerned a leak in confidential military and political report last year on Indo-Chinese affairs.

## Human Skins Were Tanned

AUGSBURG, Germany @—A former corpse washer at Buchenwald yesterday told of seeing skins of tattooed prisoners prepared for tanning. Benedict Kautsky was the lead-off prosecution witness in the German court trial of Ilse Koch, widow of Buchenwald's former commander. She is charged with instigating 47 murders and 135 attempted murders of camp inmates.

## REPORT OF EXPERT—

### Present Water Line Should Last Few Years and Meet City Needs

The only means of improving the operation of the present city water main is by checking waste and leakage, which is estimated at 37 1/2 per cent of flow, and, if this could be checked substantially, the system should last for a few more years and be capable of meeting the requirements of a 50 per cent increase in population to 17,500, according to a report on the city's water supply system which has been prepared by W. R. Bonnycastle, hydro engineer consultant from Vancouver, who made a survey recently for the city council.

From inspection of the present pipe line in operation and not being able to inspect the interior, I consider that the pipe line will continue to operate at present over a period of several years without serious difficulty, always providing that it is given proper inspection, pin holes promptly repaired so as not to wash out the footings and replacement of supports as required." The condition of underwater crossing are unknown, Mr. Bonnycastle adds.

Suggesting the increase of the main pipe line from 18 to 24 inches, Mr. Bonnycastle estimates that the cost would be \$264,000. "If the present main is not to be replaced at present," says Mr. Bonnycastle's report, "attention should be concentrated on decreasing waste and leakage. The reservoir should be retined during the coming summer."

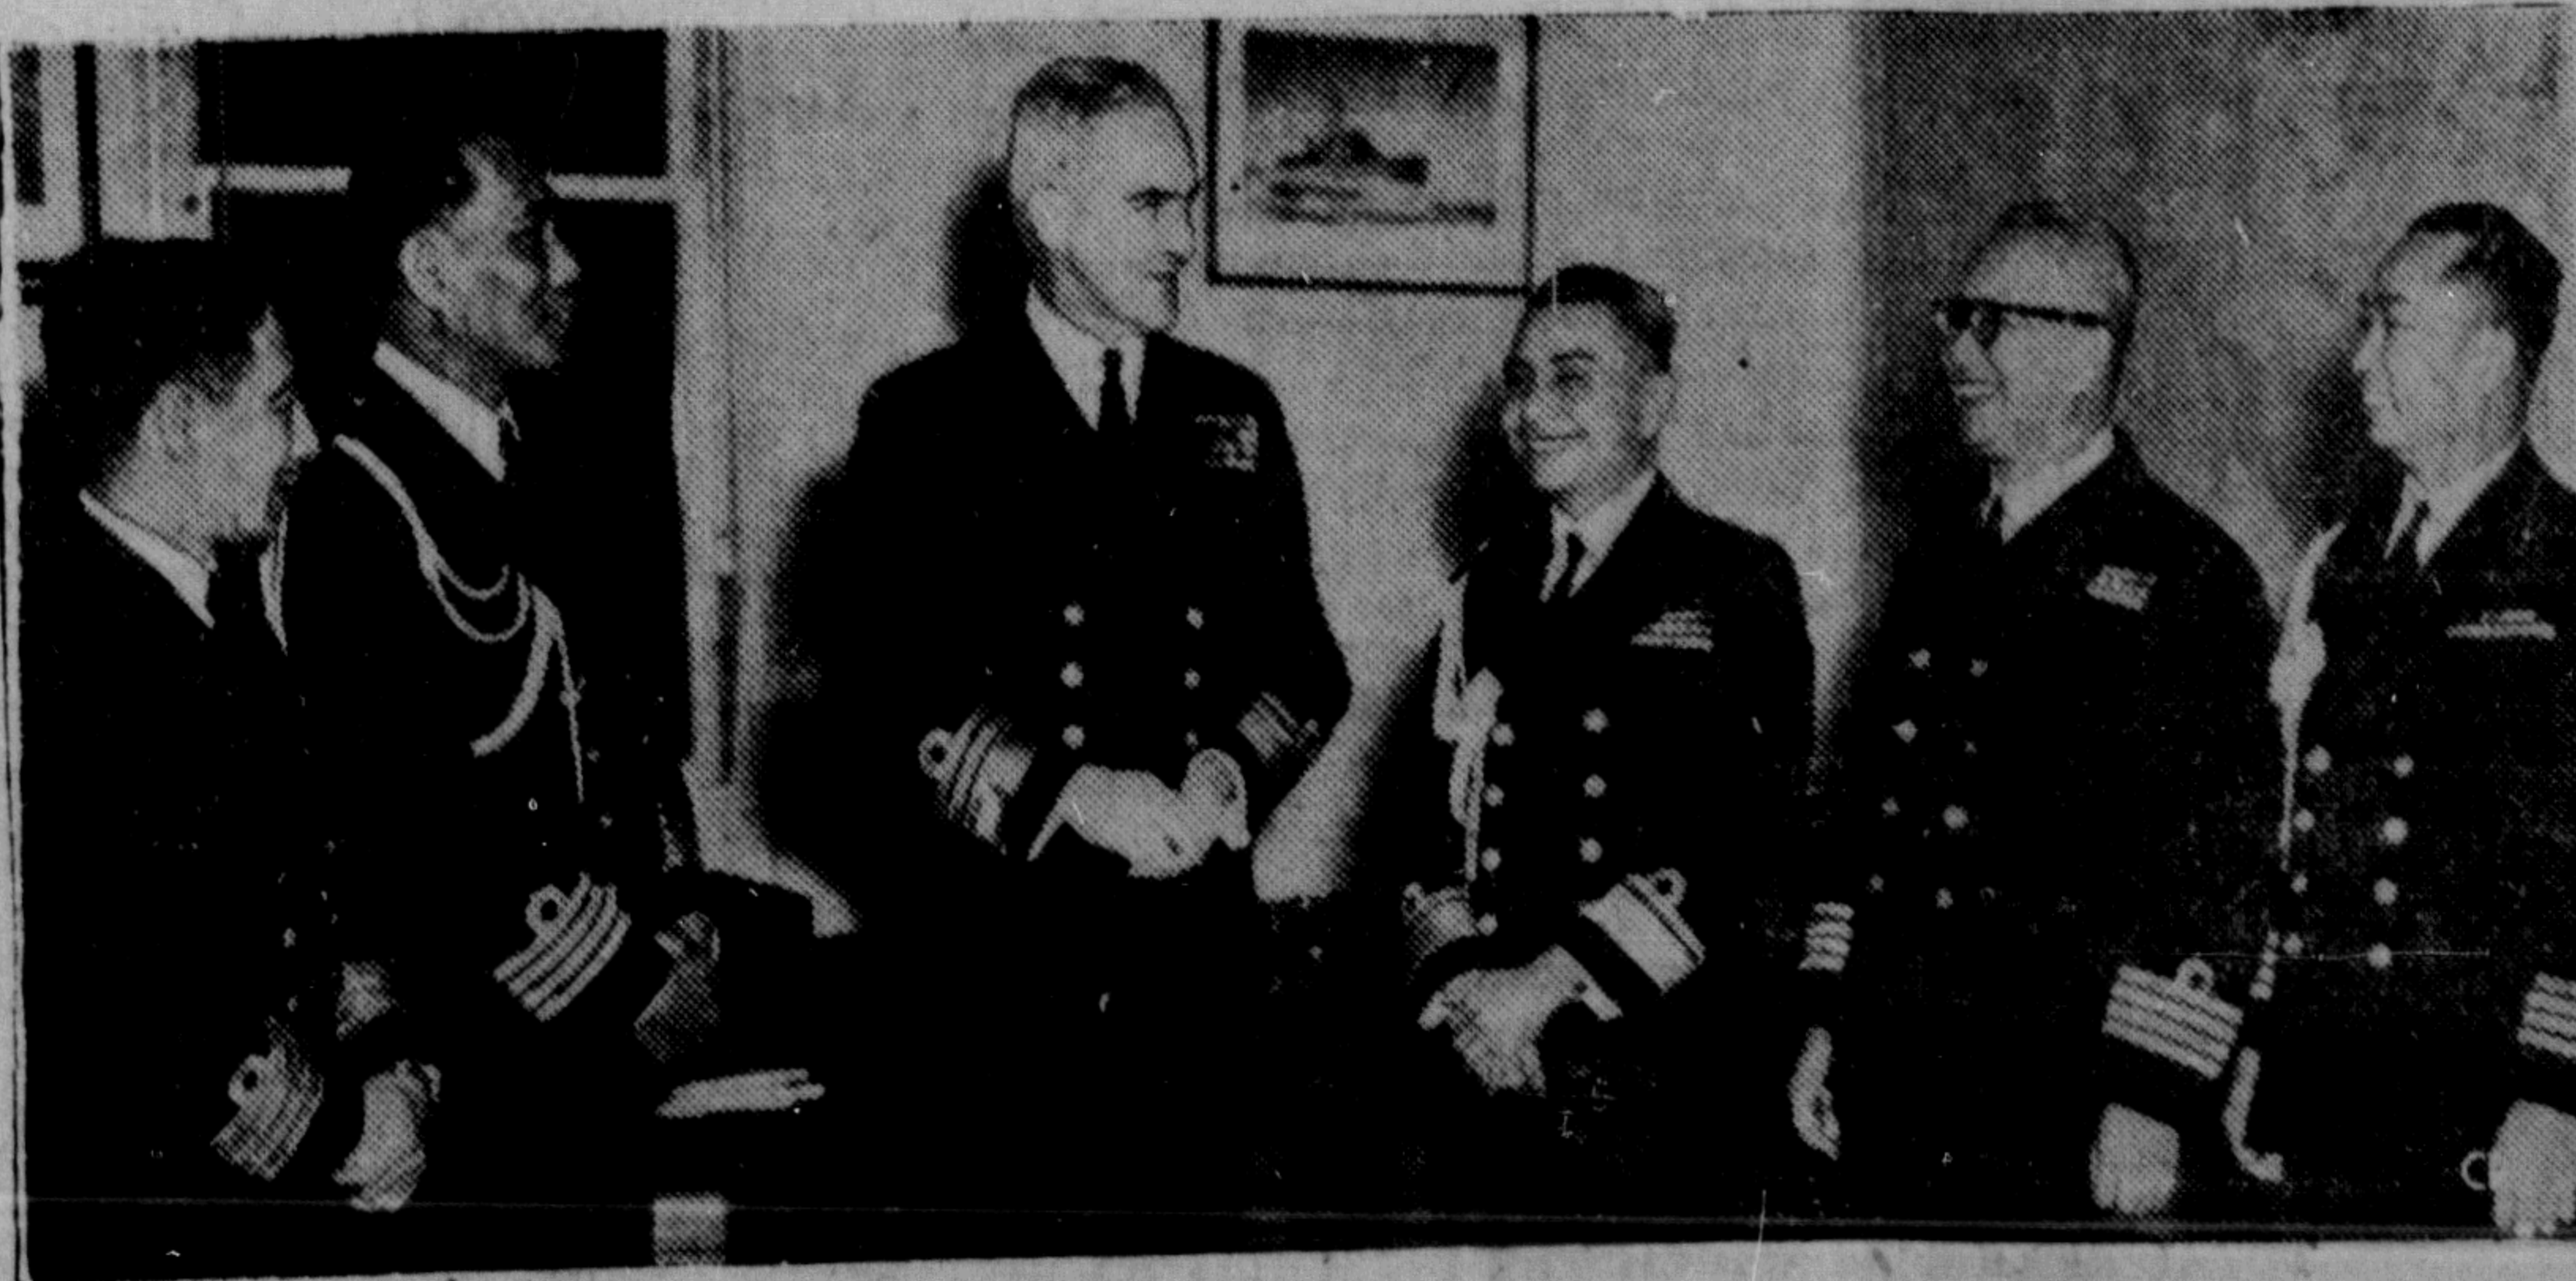

"At the end of four years it may be advisable to increase the size of the supply mains."

"In the meantime, there is always the possibility of a break in the supply mains which would leave the city entirely without water. Consideration should be given to improvement of the pipe line from Mount Oldfield."

THAI NAVY VISITORS—A five-man mission from the Royal Thai Navy is visiting Canadian naval establishments, industrial firms working on defence contracts and army and air force installations. The tour began in Ottawa, where the mission was welcomed by Vice-Admiral H. T. W. Grant, chief of naval staff. This Navy photo shows, left to right, Capt. Sombandh Bunnag, Capt. Damri Palkavongse, Admiral Grant, Rear-Admiral Jan Pachusanon, Capt. Charlie Sindhusupon and Capt. Djamrat Peganan. (CP PHOTO)
