The result of the Nova Scotia election will be watched as a possible signal of federal trend.

### ATLIN ROAD IS BEING STARTED

Construction of a highway between Whitehorse, Y.T. and Atlin, British Columbia is expected to start "within the next week," according to word received by H. G. Archibald, representative of Skeena in the last Federal house, from T. J. Kulwood, secretary of the Atlin District Board of Trade.

The Board of Trade has been informed by Canadian Army headquarters, Whitehorse, that funds for the construction have been deposited and that a camp is to be built and construction started within a week.

The army expects to have right-of-way over the 140-mile stretch cleared by September and a passable road built this year. Half the money for the project is being provided by the federal government and half by the British Columbia government.

"It is interesting to know that Atlin has already felt the benefit of the road although it has scarcely begun," Mr. Kulwood stated. "Transcontinental Metal Resources have closed a deal on the Noland ground on Spruce Creek and intend having the property in production by summer. This will probably mean a year-round payroll of about 50 men."

FIRST IN FIELD—Ted Applewhaite, Liberal candidate for Skeena in federal election, whose papers have been accepted by Returning Officer. Encouraging reception being received on tour of riding. Speaks in Smithers tonight.

He said prices here were lower because "you are not as concerned as Sweden with protection of the natural resources of your forests."

Usual practice is to obtain the signatures of more than the required number so that, if the qualifications of one of the sponsors is questioned, the nomination does not become invalid.

Linzey, Oskar Havroy, Mrs. Bessie Parker, Charles Balagno, Mrs. Louise Balagno, John A. McRae, Dorothy M. Keilback, Victor Menzies, Charles Barrie, Herbert F. Glassey, George B. Casey, T. People Urged to Give a Pint of Blood

Mobile Clinic Comes Here in August

A pint of blood from the body of a healthy man means little to him—it can be replaced. But that same pint of blood may mean the difference between life and death to someone else in one of a score of British Columbia hospitals.
