

Manitoba Is Appreciative Of Prince Rupert's Relief Effort

WINNIPEG—On May 12, just eight weeks ago, the Manitoba Flood Relief Fund made its first appeal to the public for contributions through the daily newspapers and radio stations of Canada. As a result of the magnificent support given by the newspapers and radio stations in setting up receiving stations for

contributions and in supporting the multiplicity of local efforts on behalf of the fund, approximately one million persons have contributed over six and one half million dollars to the fund. Gifts have poured in from all parts of the world at the rate of more than \$120,000 daily and, as a result of the open-hearted giving by the public the committee has now decided that the campaign should be drawn to a close on July 15.

The committee is hopeful that, with the contributions yet to be forwarded, it will be possible for to fully achieve the objective of restoring property damaged by the flood and not in the government's plan of repairing structural damage.

"The general committee of the Manitoba Flood Relief Fund and the flood victims whose homes will be restored by the fund wish to express a message today from Cecil Lamont of Winnipeg, honorary organizer of the fund, deep appreciation for all that you have done to reach its objective." They also ask that you

convey deep appreciation to your citizens who have contributed so generously and to those who have worked so diligently in local efforts which will enable the fund to achieve its objective."

Committees have operated on behalf of the fund in all parts of Canada and even in such remote villages as Aklavik.

Contributors will be interested in knowing the fund has operated entirely with voluntary help and that the expenses in raising the fund have been less than one half of one per cent of the amount collected.

The gifts to the fund have been so great in number that the accounting staff have fallen behind in issuing receipts. Voluntary helpers are working day and night in an effort to issue receipts as early as possible but there will be some delay and the public is asked to bear with the honorary treasurer of the fund in this connection. Individual receipts will be issued covering all contributions received.

In drawing the campaign to a close the Daily News is asked to request that the committee operating in this area forward funds collected as soon as possible after July 15. This may be done without cost through an chartered bank.

REHABILITATION PROGRESS

As a result of the action of the government in compensating flood victims for cost of structural repairs and the generous contributions made by the public to the Manitoba Flood Relief Fund, coupled with the steps being taken to guard against a recurrence of the flood, rehabilitation has progressed so rapidly that normal business activity has been restored to the Winnipeg area. The restoration of some six thousand houses damaged by flood waters is progressing with dispatch and will be completed in a few weeks.

HOW CAN I ???

Q. How can I remove tarnish from silverware?

A. The tarnish can be removed and the silverware made to look like new if placed in potato water and allowed to stand for one hour, then taken out and washed.

Thanks For Gifts Sent By Canada

LONDON—Knitted black shawls sent by the "Ladies of Quebec" and canned apricots from the Canadian government are warmly remembered by one London woman.

In a letter accompanying a small gift to the thanksgiving fund started by the Lord Mayor of London, Mrs. H. Hayes of Chiswick, London, spoke of her "grateful remembrance of so many things!"

Among them were small black shawls from Quebec "thankfully" worn by British nuns, and tins of apricots sent to "our small remote hospital."

The Lord Mayor's fund is designed to raise funds for a permanent memorial to Commonwealth countries and the United States, which among them have sent £80,000,000 (\$248,000,000) worth of food gifts since 1940.
