60 YEARS OF ACCOMPLISHMENT

1889  1949

In place of the old wooden tub, wash-board and wringer the modern washing machine and the commercial laundry have come to the assistance of the housewife of today. "Monel," an alloy composed of 3/4 Nickel and 1/4 Copper, is today in general use for washing machine tubs, and for washers and other equipment in modern laundries. Being rust-proof and corrosion resistant, it eliminates trouble from stains and verdigris. Its hard, glass-smooth surface removes all danger of injury even to the most delicate fabrics. Because it is strong and tough as steel, "Monel" equipment is unusually durable.

Canadian Nickel sold Abroad brings in U.S. Dollars

Since more than ninety per cent of the Nickel produced in Canada is sold to the United States and other countries, it brings a constant flow of dollars back to Canada. In fact, Canada's Nickel industry is one of our chief sources of U.S. dollars so essential at the present time to maintain our foreign trade and make available products not produced in this country.

These dollars help pay the wages of the 14,000 Nickel employees, and help provide the dollars which make it possible to pay millions in freight to Canadian railways, to buy timber, steel, coal, machinery and supplies amounting to many millions each year. These millions, flowing into all industries through the length and breadth of Canada, help create jobs for Canadians.

Canadian Nickel

FIRST PRODUCED IN CANADA IN 1889

THE INTERNATIONAL NICKEL COMPANY OF CANADA, LIMITED, 25 KING STREET WEST, TORONTO

Relieve DISTRESS OF CATARRH FAST

Put a few drops of Vicks Va-tro-nol in each nostril. It flushes out mucus and makes breathing easier. Try it.
