Good reading for how many people?

EVERYWHERE today you see signs of a new trend in Canadian reading habits. Now as never before people are discovering that the printed word, with its worlds of information and entertainment, is a priceless aid to fuller, happier living. So they are reading more newspapers, magazines and books every year!

To help meet this increasing demand for reading material, Canada's vast pulp and paper industry is expanding — thanks, in part, to your life insurance. How can this be?

Because part of the money that you and millions of other policyholders pay in to life insurance companies is invested for you in sound Canadian industries — such as the pulp and paper industry.

Other life insurance dollars are put to work, through investments in bonds, to help provide highways, schools, harbours, or other public works.

Thus every life insurance owner protects his family and helps to build a better, more prosperous Canada!

KIN GATHER WOOD FOR FIRES

Kinsmen turned scroungers yesterday afternoon as the three Hallowe'en fire committees turned out to gather wood for the annual shell-out fires.

At the Canada Packers new plant two Kin parties turned up with trucks and working crews bent on the same mission but as it turned out they were after different woodpiles.

The Conrad fire committee, under chairman Charles Collins, did a clean-up job at two spots and managed to get two fair loads of scrap material for the witching night. Sid Elkins and his party responsible for the celebrations planned for the Gyo Park, had similar success as did Stan Saville's Totem Park crew.
