Welcome, Ontario

THE NAVY is always welcome in Prince Rupert and that goes particularly today for H.M.C.S. Ontario, the sleek cruiser which is the senior vessel on the Pacific Coast. It is a pleasure to have Capt. H. F. Pullen and his officers and men here. We trust that their visit will be a pleasant one.

For the next three days Prince Rupert will take on again that aspect of the war days when H.M.C.S. Chatham was in its heyday and the Navy was really in "control." To many of us nostalgic recollections of those strenuous, often tragic but not altogether unpleasant days will be recalled.

We do not see the Navy as much these days as we might like to. True other ships do come to the north coast but some of them seem to miss the real metropolis of the area.

Come again, Ontario, and more often and bring your smaller colleagues of the fleet with you!

PROTECTION OR PRESTIGE

THE EXACT amount of money to be spent by the United States on arms aid for Europe is less important than the dispatch which Congress can move to provide that aid. Instead of that dispatch, it seems, that Congress is engaging in a deal of bickering.

To vote every last cent of the \$1,450,000,000 asked by Truman would not make western Europe aggression-proof. It is now evident that the program is going to be cut. However, it is to be hoped that the actuating factor may still be western security rather than domestic political prestige that compromise will be the watchword on both sides of the debate.

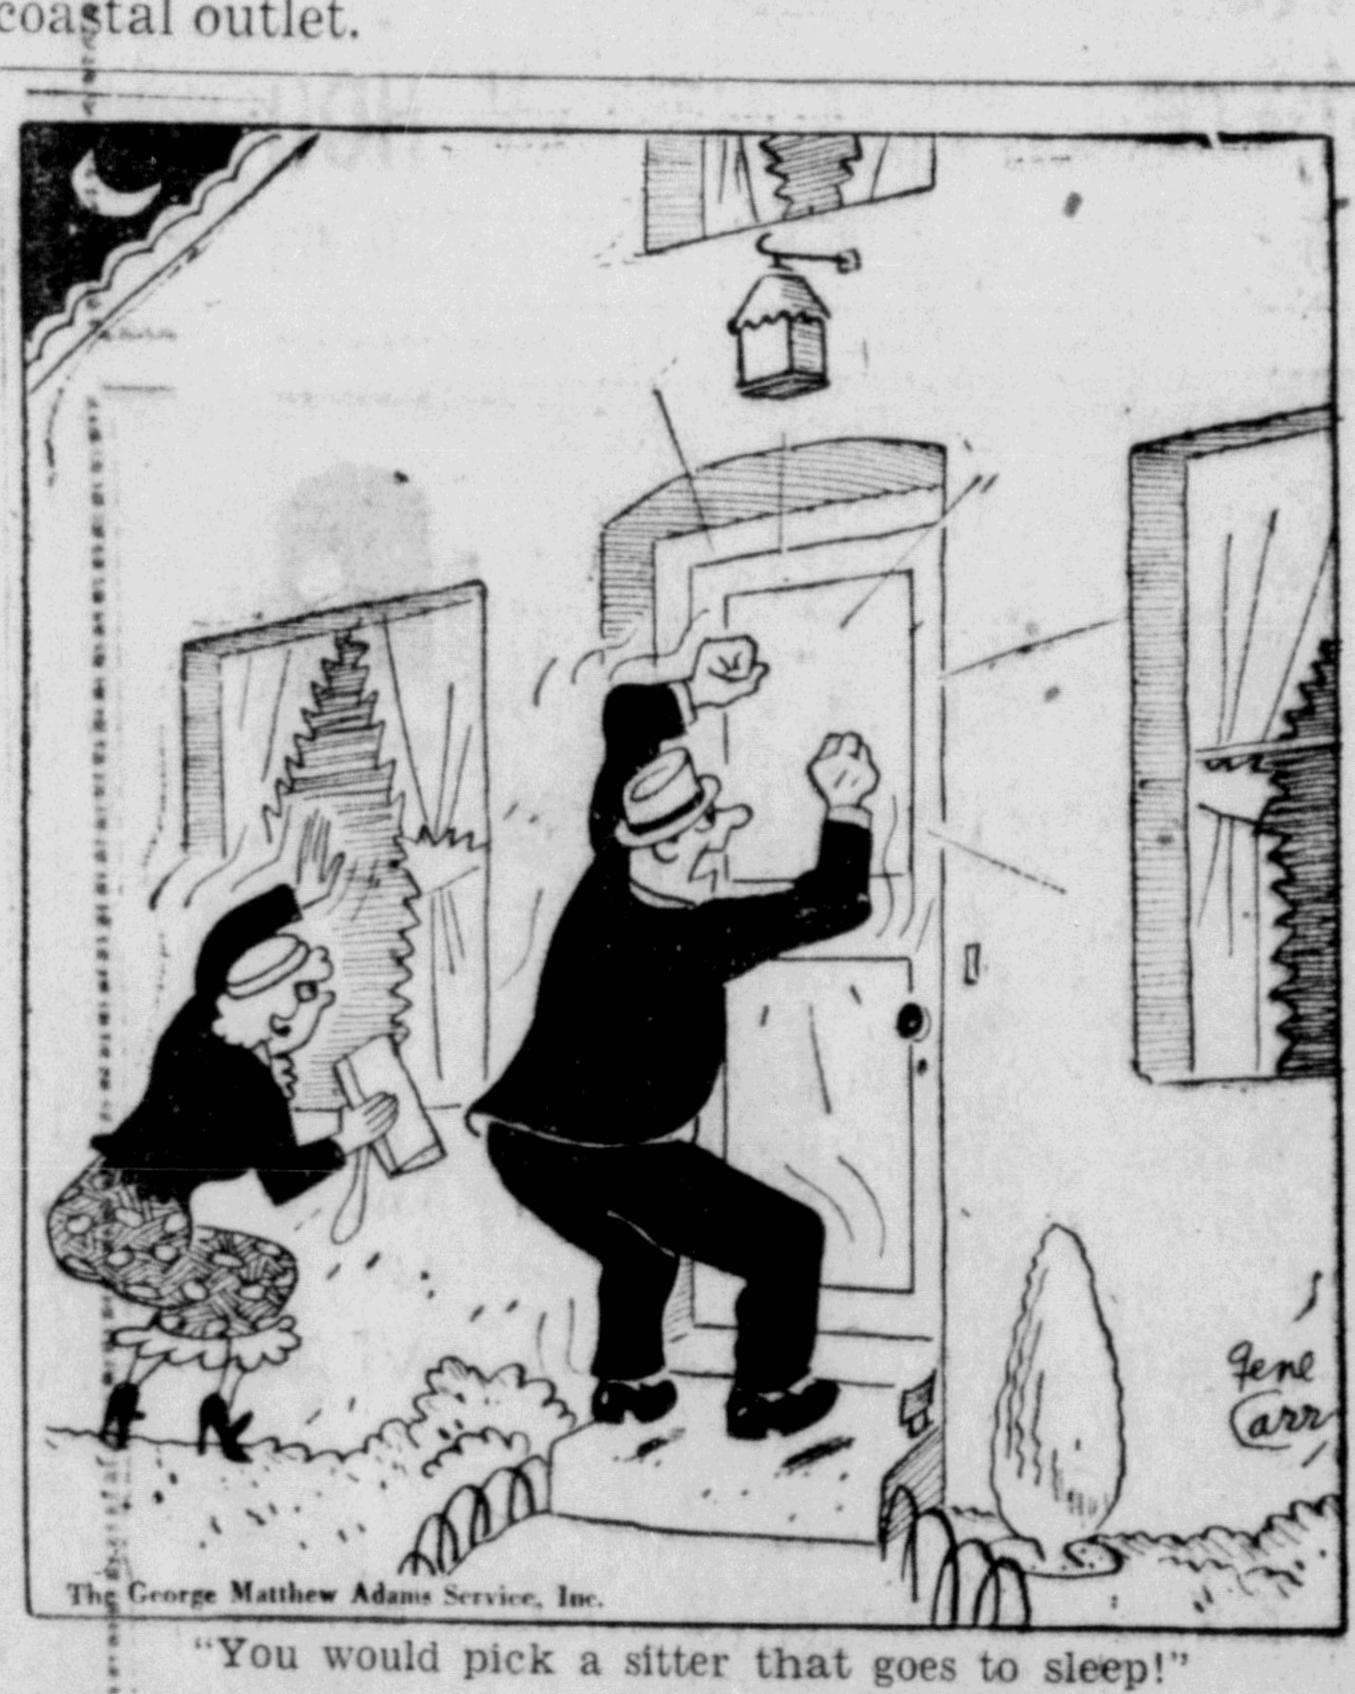

Certainly there is the need, as Truman says, for keeping up the "momentum" in American foreign policy which was started with the overwhelming bi-partization ratification of the Atlantic Pact.

The debate in Congress might well present to the world a completely false picture as to American unity back of the pact unless the political realities are accurately calculated and handled in a stateslike way.

WELCOME FEDERAL HELP

THE SUM of \$1,200,000 is proposed as federal aid to say you cannot find a woman for the extension of the Pacific Great Eastern Railway northward from Quesnel. It will be a welcome lift, as Premier Johnson has said. More, no doubt, will be forthcoming when the line is continuied on northward from Prince George to the Peace River which is even the more important aspect of the whole extension scheme.

It is to be noted with satisfaction that one of the points which Premier Johnston continually makes in connection with the P.G.E. extension project is that it will make possible the shipment of Peace River grain to Prince Rupert—the natural coastal outlet.

Stressing a "new outlook" in international health, the U.N. World Health Organization (WHO) is now attacking international health problems with tactics based on preventive rather than curative techniques. Here, under the guidance of a WHO Malaria Engineer assisting the Turkish Malaria Services, workmen spray insecticide for mosquito control in a swamp near a town in the province of Ankara.

ARCTIC PRIEST RETURNING-Thirty-five year old Rev. Joseph Buliard, a French member of the Oblate Order, has worked among the Eskimos north of Churchill, Man., for most of the eight years he has spent in Canada. He is shown in front of his mission in winter.
