Nehru Moral Leader

ONE OF THE MOST encouraging signs of the times is that India holds the balance-of-power in the titanic struggle between the United States

and Russian blocs. On the political level Nehru leads the world morally.

What Nehru has been trying to tell western leaders—but without complete success—is that imperialism is doomed. It was, in fact, due to Nehru's personal leadership, and to India's direct intervention on the side of the Indonesian Republic, that the Dutch imperialists were compelled to yield.

It is not an accident that Indonesians turned out to welcome Nehru in crowds numbering hundreds of thousands; and that the people themselves have named him "the father of Indonesian independence."

The amazing thing is that U.S. leaders do not see the main consequence of Nehru's new democracy in Asia.

Only in India and in Indonesia has Communism been prevented from becoming a major threat. In every other important area of Asia, Communism has already won power outright, as in China, or has established a civil war base from which it could win complete victory were it not for the direct military intervention of white, western nations.

THE WESTERN leaders have not yet seen the benefit of the dual role that Nehru is playing.

On the one hand the new democracy which he personifies in Asia is, in fact, the only real bulwark against complete victory for Communism.

On the other hand, he is adamant in his determination that imperialism must be brought to an end—the whole overlord must go home and let Asia run itself.

Nehru also knows—that the western leaders so far refuse to perceive—that in a struggle between two imperialisms—the old European type run by foreigners and the new, more subtle type, run by native Communists—the new Red type will always win out.

I DO NOT SEE how any honest person, aware of the facts of life of 1950, could deny that Communism is a new, more subtle form of ATTEMPTED imperialism.

But neither do I see how any intelligent person could be blind to the great truth recently stressed by the Archbishop of Canterbury (not to be confused with the Red Dean). The new government of China, says Dr. Fisher, is "morally and socially preferable to the corruptions and inefficiency of the regime it replaced."

"We who can see the black tyranny of its creed" naturally denounce it. But we must frankly realize that in the Far East it can easily be seen not as a tyranny but at present as a liberating force."

NEHRU BELIEVES in a two fold policy. First, wherever Communism has won out, as in China he would face that fact and attempt to achieve a peace of live and let live, by admitting China to UN, for instance.

But above all he stands for stopping the spread of phoney democracy and disguised Red imperialism by genuine liberation.

He tells Britain in Malay, France in Indo China, the U.S. in Korea:

"You can't stop something with nothing. You COULD stop Communism with real democracy."

Bazaar Is Successful

The annual fall bazaar in the redecorated Annunciation School Hall this week was an outstanding success. Many people attended Wednesday and Thursday afternoons and evenings.

Centre of attraction was the tea table, covered with a handsome lace cloth and centered with a bowl of beautiful fall flowers flanked by pale yellow candles. Presided over by Mrs. J. F. Ritchie and Mrs. M. P. McCaffery, the tea was convened by Mrs. C. P. Balagno, assisted by Mesdames J. Delaney, T. M. Fortune, and I. Wick. Serving were Mrs. W. A. Pierce, Miss Frances Murphy, Mrs. Arthur Murray, Mrs. R. Armstrong, Mrs. E. A. Smith, and Mrs. James Rogers.

Mrs. R. E. Moore was cashier. Mrs. Ed. Coughlin, president of the C.W.L., was general convenor. Other conveners and their committees were:

HELP PREVENT TOOTH DECAY!

BEFORE IT STARTS... INSTEAD OF AFTER IT APPEARS

AMMONIATED LISTERINE TOOTH PASTE

...designed to help prevent decay 3 ways!

You've undoubtedly read about this great new anti-decay formula in your newspapers and magazines. It's the famous formula, developed by the University of Illinois Foundation, that caused such a vast interest in dental circles because of its promising method of attacking tooth decay by means of the chemical action of the ammonium ion.

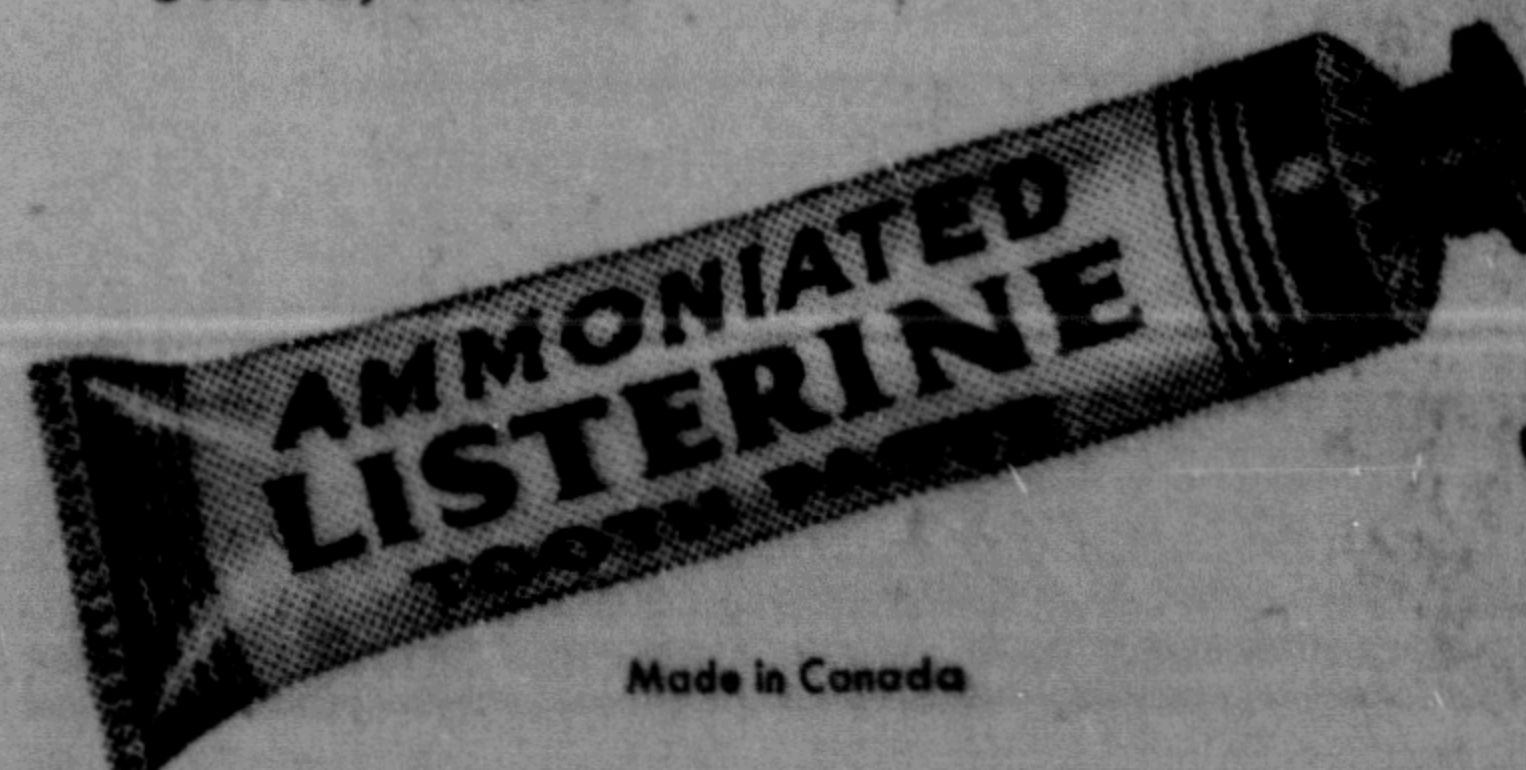

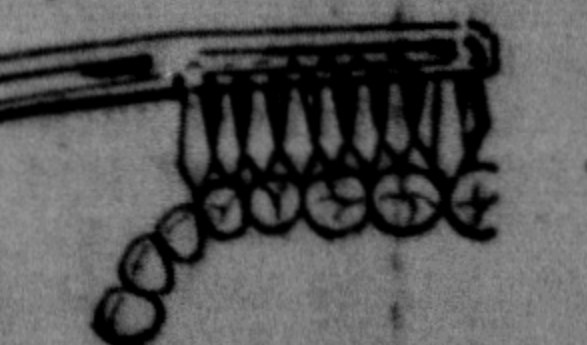

In preliminary tests conducted at the University, case after case of reduction in the incidence of tooth decay was reported. Now the manufacturers of Listerine Antiseptic make this same formula readily available to you and to your family with the introduction of Listerine Ammoniated Tooth Paste.

Start in with Listerine Ammoniated Tooth Paste today. Use it regularly, as directed, morning and night and immediately after eating. Notice its delightful, tangy, refreshing flavor. You'll like it. Your children will like it. Lambert Pharmaceutical Co. (Canada) Ltd., Toronto, Ontario.

1. Chemical action reduces mouth acidity. Mouth acidity encourages decay.

2. Mechanical action cleans surfaces as teeth are brushed—helps break up and remove decay-breeding deposits.

3. Chemical action checks acid-forming bacteria—a major cause of decay.
