UNITED NATIONS TAKES HAND IN HYDERABAD

to Investigate In Civil War

Order Is Being Sought — Is 'Tic' Affair Contends Nehru

United Nations Security Council has taken the war with Hyderabad and into the situation there. China and Ukraine abstained from voting, and of China that decision be de was rejected.

The council's first business was to decide whether India's invasion concerned the council and it was quickly decided that it did.

Hyderabad is seeking a cease-fire order, the withdrawal of Indian troops and mediation by the United Nations.

India contends that it is "strictly a domestic affair" and outside the jurisdiction of the council.

Meanwhile Premier Nehru of India declared at New Delhi that India is prepared to take over the government of Hyderabad as soon as Indian troops, already deep in the princely state, win complete control. The Indian government today announced the appointment of two provisional officials to be a joint civil administration of Hyderabad.

At the same time a military communique said that spearheads of Indian forces were pushing toward the capital from the east and west and are only 125 miles apart.

IN NEW ROLE—Hon. Lester B. Pearson, career diplomat in the Canadian civil service until last Friday, is shown here in a new picture taken since his appointment as secretary of state for external affairs succeeding Rt. Hon. Louis St. Laurent, acting prime minister, was announced. Mr. Pearson will seek election in the federal riding of Algoma East, October 25.

Large Cargo For Yukon Via Haines

B. C. Steamships freighter Alaska Prince, Capt. T. Garrick, docked at 8 o'clock yesterday morning from Vancouver. While in Prince Rupert she discharged mixed cargo for Nelson Bros. Fisheries and took on about 40 tons of mining machinery consigned for Tulsequah. A deck load of ten trucks will be unloaded at Haines. From there they will be taken over the Haines Highway to Whitehorse. Including the trucks, the ship carried about 400 tons of freight for the Yukon city.

GRAND NIGHT OF DRAMATIC SINGING AS HORSFALL OFFERS PRODUCTION

It was a grand night of dramatic music that Prince Rupert had when Basil Horsfall, noted producer of Great Britain and Canada, presented in the Civic Centre auditorium on Wednesday an operatic entertainment—old and new—the like of which has not been seen here before. Almost 400 persons who turned

Prince Rupert On High Road

Former City Commissioner Alder Reiterates Optimism — May Erect Building

High optimism as to Prince Rupert's future was reiterated by W. J. Alder, former city commissioner and early Prince Rupert investor, who is here for a week's business visit. "We have been a long time coming," said Mr. Alder to the Daily News following his arrival yesterday afternoon on the Prince George from Victoria, "but we are on the high road now for sure." His enthusiasm, Mr. Alder suggested, might be translated into action by "putting up a real building" either at the corner of Third Avenue and Sixth Street or on his property across from the Daily News office. He was seriously considering this, Mr. Alder admitted.

Speaking on the history of pulp mill production, which was about to launch Prince Rupert on its new era of industrial progress and prosperity, Mr. Alder felt that F. L. Buckley, who had pioneered pulp and promotion here, should not be forgotten. He had put in much time and money, said Mr. Alder who recalled a trip he himself had made to Montreal with Mr. Buckley on this very project.

Mr. Alder referred to the need there would be here for housing—good housing—when the pulp mill personnel came here to settle. These were high paid men and would demand good houses.

RUSSIA HEADS FOR NEW WAR

All Preparations Being Made With That End in View Says Red Colonel

NEW YORK—The Times has a despatch from London, telling about the flight from Russia of Colonel G. Tokayev, Soviet Army officer, now in London. He has declared:

"The danger arising from the Red-Imperialistic line of action on the German question is more serious than it may appear. The Russian Communist Party appears to be leading the Union toward a new military adventure.

"Everything," says Colonel Tokayev, "appears to be again leading up to our country disturbing the general peace. The fruits of slave and semi-slave labor do not go towards needs of the people, but are used to prepare for the third war and for the upkeep of an army of millions.

"In the whole vast territory of the Soviet Union there is not a place where intense military preparations are not taking place."

GERMAN YOUTHS STONE RUSSIANS

BERLIN—Some 150 German youths stoned three policemen in the Russian sector of Berlin today, the Soviet-controlled press reported. This is the third stoning of east sector policemen in recent weeks. The first two drew gunfire and resulted in the death of one Berliner and the wounding of twenty others. The report said that the youths were incited by older persons.

FREE LABOR IS BEST BULWARK

DETROIT—"The best bulwark against communism is free labor," said President Truman, addressing a huge audience here. "If you let Republican reactionaries get complete control of the government I would fear not only for wages and living standards, but even for our democratic institution of free labor and free enterprise."

Bulletins

BUTTER FROM DENMARK

OTTAWA—Minister of Trade C. D. Howe said last night in an interview that Canada had completed negotiations with Denmark and New Zealand for the importation of some nine million pounds of butter. He also said that negotiations were also being undertaken with a third unidentified country for further importations. Prices involved were not disclosed.

SEES LOWER PRICES

VANCOUVER—Canada's top financiers and industrialists, here for meetings with the board of directors of the Bank of Canada, are optimistic about a decline of present high prices. Graham F. Towers, Governor of the Bank, said that consumers might soon get a break, possibly before the end of the year.

SPOKANE WINS PENNANT

SPOKANE—Spokane won the Western International League championship campaign last night by shutting out the Tacoma Tigers 4 to 0 in the first game of a double-header. Vancouver Capitanos, last year's champions, ended in fifth place.

POWELL RIVER EXPANDS

POWELL RIVER—Touch of a button today pushed one of Western Canada's foremost paper makers, Powell River Co. Ltd., toward the top rung among newsprint producers. Described as the world's fastest newsprint manufacturing machine, the company's No. 8 has commenced spinning out a test-run of 1,200 feet of newsprint a minute.

STRIKE WAVE SPREADS

PARIS—The strike wave spread today through France's aviation, automobile and steel industries. It was touched off by demonstrations in which more than 100 police and thirty workers were injured.

BURNED IN GAS BLAST

Queen Charlotte Island Fisherman in Hospital

A fisherman named Nels Olson suffered severe burns recently following an explosion on his boat at Sandspit, Queen Charlotte Islands. He was flown to the Vancouver General Hospital for treatment to hands and face.

When the gas stove on his boat, moored in shallow water, blew up, Olson overcame the fire by smashing a hole in the hull, and partly sinking it. Then he waded ashore. He is making a good recovery. The boat is being salvaged.

TYPHOON LASHES CENTRAL JAPAN

TOKYO—Ten prefectures of central Honshu were lashed by a typhoon last night as winds up to sixty miles per hour zipped east of Tokyo. At least two are dead, three injured and twenty-three missing. Fears for the ripening rice crops are expressed.

RED STRIKE IN AUSTRIA

VIENNA—Communist party officials predicted yesterday that there would be a communist-sponsored strike in industries throughout Austria for a 25-per cent wage increase. Government sources are confident that there will be no general strike.

PAMPERED MOTHERS—Dr. Alice Woodhead, M.R.C.O.G., one of Britain's noted obstetricians for the last 15 years, now practising in Vancouver, says too many expectant mothers are pampered. She says childbirth is as normal as having breakfast and that anaesthetics eliminate the helpful voluntary effort of the mother. She is a graduate of University of Manitoba.

LOAN DELEGATION CANCELS VISIT

Absence of two provincial cabinet ministers from Victoria this week has forced cancellation of a visit by a Prince Rupert civic delegation which was to have sought provincial blessing for a \$500,000 loan to aid in the rebuilding of the city telephone system.

Mayor Nora Arnold and City Clerk H. D. Thain, the city's delegates to the annual convention of the Union of B. C. Municipalities, who were to have formed part of the group to visit the cabinet ministers, are expected back tomorrow or Saturday by car from Vancouver.

Civic Finance Chairman T. B. Black, who was to have been the third member of the committee, has cancelled his projected trip to Victoria because of the delegation's inability to meet the government leaders.

City Council laid plans a month ago for Mayor Arnold and City Clerk Thain to attend the U.B.C.M. convention at Harrison Hot Springs, then continue on to Victoria where they would be met by Alderman Black in an effort to seek approval for a projected telephone loan.

However, Mayor Arnold was informed that both Hon. Herbert Anscomb, minister of Finance, and Hon. R. C. MacDonaid, minister of municipalities, were out of Victoria and that, therefore, there would be little point in the visit.

Travelling with Mayor Arnold who left Vancouver Tuesday, are Mrs. Thain and Alf Rivett. The latter flew south last Friday on account of the death of his father.

ST. JOHN RIVER SERVICE ENDED

Had Been Maintained 122 Years Without Break

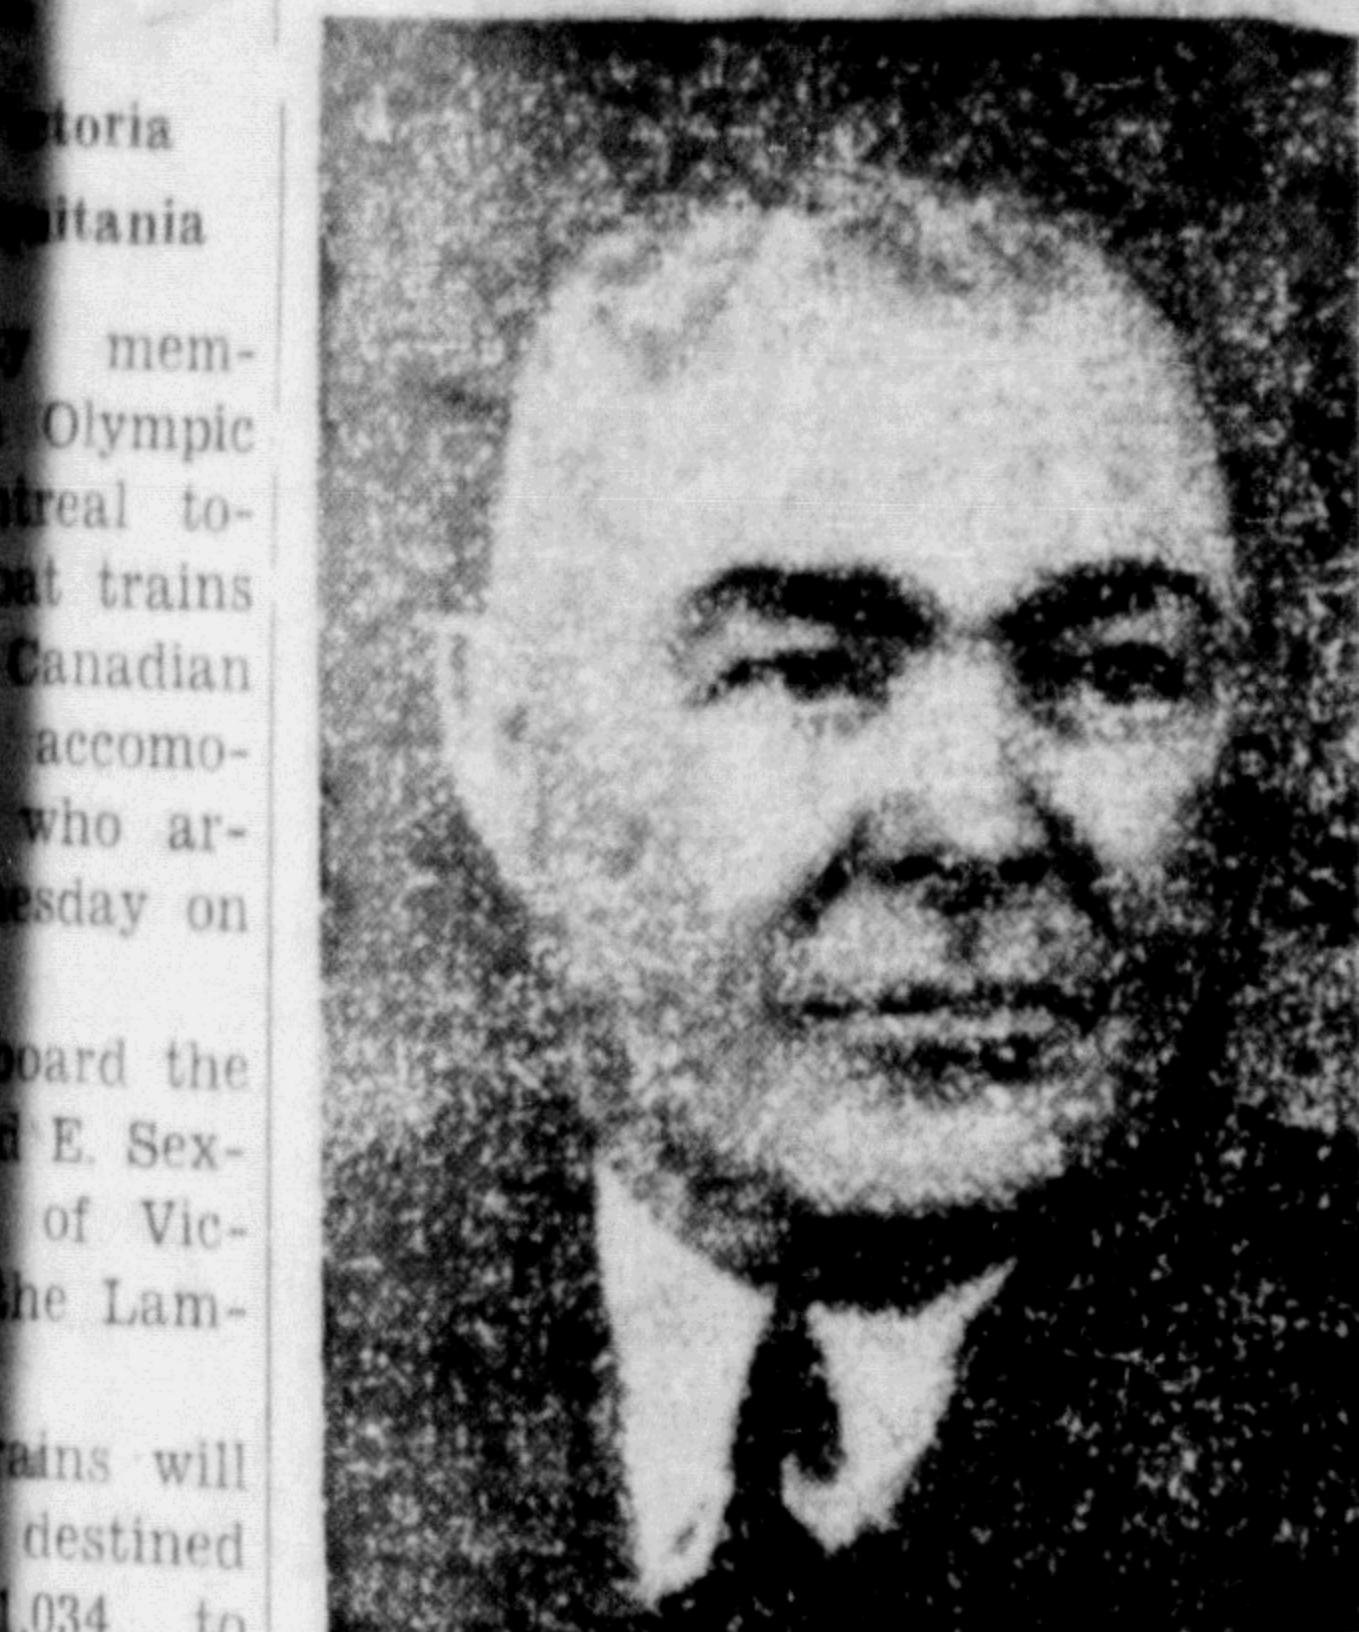

ST. JOHN, N.B.—Destruction by fire of the St. John River steamer, D. J. Purdy, marks the end of a river service maintained without a break for 122 years.

One of the earliest of the boats was called the General Smythe. It had no engines, motive power being provided by horses. Farmers, living along the shores, had a habit, when wanting to stop, or signal the craft, of slipping out in a small boat and shouting "whoa."

Other well known steamers included the "May Queen" and the "David Weston." The latter burned. There were a few fatalities, on that occasion.

Canada Is Greatest Uranium Producer

OTTAWA—Canadian scientists are in general agreement that Canada is gradually overtaking the Belgian Congo as the world's greatest producer of uranium ore.

C.N.R. CHANG—F. H. Keefe, general superintendent, B.C. District, Canadian National Railways, Vancouver. He transfers positions with J. F. Cooper who goes to Edmonton. (Appointed September 15, 1948).

PRAVDA IS CRITICAL

Of United States and Great Britain—Calls Tryge Lie "Tool"

MOSCOW—Pravda, Communist party newspaper, said today that "Anglo-American colonizers exposed themselves" at the Big Four meetings on Italy's pre-war colonies this week at Paris.

Pravda also denounced Tryge Lie, secretary-general of the United Nations, as an obedient tool of Britain and the United States.

The article criticized the refusal by western delegates to consider new Soviet proposals.

Apologize For Cemetery Demand

BRUSSELS—The United States embassy said yesterday that two Belgian real-estate firms apologized for demanding evacuation of an American war cemetery recently. They had served legal process requiring that the cemetery in Neuville-en-Condroz be evacuated "within eight days."
