● In a democracy, the ballot of the most ignorant, the most misinformed and the most anti-social, is just as powerful as the ballot of the wisest and the most idealistic. The demands of democracy require a broad educational programme. An up-to-date programme of education requires modern school buildings. Vote for modern schools, October 6th, 8 a.m. to 8 p.m., Civic Centre. (11)

WORKMEN'S COMPENSATION BOARD

Notice is hereby given that a public hearing will be held at the office of the Workmen's Compensation Board, 411 Dunsmuir Street, Vancouver, B.C., on October 17, 1949, at 10 a.m., for the purpose of considering the adoption of revised Regulations for the prevention of accidents in the construction industries which come within the scope of the Workmen's Compensation Act.

Dated this 1st day of October, 1949.

CITY TEACHERS GET ACQUAINTED

New teachers on the city schools staff were welcomed by their colleagues at a dinner held by the Prince Rupert and District Teachers' Association at the Civic Centre. The function was in the nature of a "get acquainted" gathering. Under chairmanship of J. S. Wilson, who acted in behalf of President R. D. Cleland, who is at present in Vancouver as B. C. Teachers' Federation geographical representative, the impromptu program consisted of singing, dancing and vocal solos by Mrs. Grace Christiansen, accompanied by Henry Pluym at the piano.

SIX FIRE CALLS IN SEPTEMBER

City fire department answered six fire calls during September, none of which resulted in serious fire damage. Total number of fire calls so far this year is 67 as compared to 71 for the same period of 1948.

AGED FURNACES, HEAT ROBBERS

The owner of an average heating system five or more years old is warned by National Warm Air Heating Association, that the odds are 7 to 10 his winter heating bill is at least 10 percent more than necessary.

This is because 7 out of 10 older type systems of heating are in need of repairing and cleaning. Air leaks in and around furnace combustion chamber, soot in the chimney or furnace, warped burned bars, corroding smoke pipe all create loss of heat right in the furnace itself. Therefore using more fuel to keep the proper temperature.

Heating experts report that home owners are "robbing Peter to pay Paul" through use of improper firing methods and negligence in furnace maintenance.

The majority of costly repairs could have been avoided if owners had followed a regular program of having heating systems inspected each year says the heating association. Minor repairs can add longer service to heating systems and insure health and safety of families.
