Acadians On Revisitation

HALIFAX—Possibly including among its members descendants of Acadians who were deported nearly two centuries ago and went to Ohio, a group of more than 100 persons, members of the Ohio farmer Nova Scotia tour will arrive today by special Canadian National Railways train from Chicago on a four-day visit to Halifax.

Strange as it may seem historians have developed the connection between the Acadians and the early settlers in Ohio through trees. The Acadians were noted for their willow baskets and when they were deported they carried them along. Proof that they went to Ohio has been made through the willow trees that prominently line the shores of the Ohio River.

During their visit to Halifax the party will take side trips to the Annapolis Valley and to the south shore. They hope to see famous Oak Island where Captain Kidd reputedly buried his valuable treasure and many of the quaint and picturesque fishing villages that dot the shores of the Atlantic coast.

Parisian Family Visiting Rupert

Professor and Mrs. J. Riviere, both professors at a Paris university, arrived in the city today aboard the Princess Norah. With them is their daughter. They leave on tonight's train for Jasper. They also intend to visit Winnipeg and Montreal before returning to Paris. They sail September 5.

A party of 73 Methodists from Chicago are on the steamer Princess Norah making the trip to Skagway. When they return to Vancouver they will proceed to Lake Louise and Banff before going home.

High Tribute At Last Rites

Tribute to the late George J. Frizzell as a pioneer community builder who looked far into the future welfare beyond his own immediate interests was paid by Rev. Canon Basil S. Prockter in officiating at a funeral service last evening in St. Andrew's Cathedral. Canon Prockter urged a large congregation to be of good cheer as the last thing that deceased would have wished would be sadness in his passing. One of the hymns "Onward, Christian Soldiers" was typical of his buoyant spirit. The other hymn was "Jesus Lover of My Soul." Peter Lien presided at the organ.

Canon Prockter disclosed that Canon W. F. Rushbrook, the old friend of deceased, would have been officiating had his health permitted. However, he had been taken from his own hospital sick bed to pray before Mr. Frizzell passed away.

Members of the Masonic craft, parading in a body under Worshipful Master A. E. Field, Tsimpsan Lodge, of which deceased was a member, augmented the congregation of old friends gathered to pay their final tributes of sincere regard and sympathy.

Frank Skinner and Gordon Acton were ushers.

Following the cathedral service, the dignified cortege, surmounted by one large and beautiful wreath from the family, was taken to the Canadian National wharf where, after a brief service by local Shriners, led by C. A. Berner, it was placed aboard the Canadian National steamer Prince Rupert for Vancouver.

Cremation will take place in Vancouver after a service under the auspices of Gizeh Temple, Ancient and Arabic Order of the Nobles of the Mystic Shrine, in the chapel of Center & Hanna. The ashes will be returned north to be scattered on the Skeena River near the confluence of the Estall in which area deceased had spent so many years of his life.

Accompanying the remains south were the widow, son, Howard Frizzell of Chicago, and daughter, Mrs. Laura Mitchell. Another son, Ald. Douglas Frizzell, left today by plane.

Many old friends of deceased acted as honorary pallbearers including Mayor G. W. Rutherford, E. T. Applewhite, M.P., Col. S. D. Johnston, M.C., V.D., Dr. L. W. Kergin, G. F. Forbes, Bert Morgan, Ald. George B. Casey, C. C. Mills, W. J. Raymond, Louis Ross, G. W. Nickerson, John Bulzak, Joseph Lindsay. Also invited to act as honorary pallbearers but unable to attend were Former Premier T. D. Pattullo and Col. C. W. Peck, V.C., D.S.O.

The active pallbearers were Ald. James Forman, R. E. Moore, Vic Menzie, Lee Wing, A. Van Meer and John McLeod.

Prairie Crops Looking Good

WINNIPEG — while weather and precipitation has been variable throughout the Prairies during the past week conditions have generally been favorable for crop progress, and many points in all provinces are beginning to estimate prospective yields with considerable assurance of these being attained. According to the weekly crop report of the Department of Agriculture of the Canadian National Railways.

Possibility of frost and migratory grasshopper damage must still be considered as determining factors in crop output in a number of districts. Excess moisture has caused crop lodging particularly in Manitoba.

In the Okanagan, weather was warm and dry. The pear crop is now estimated at sixty per cent of normal. Apple crop normal, and other fruit crops will be light. There is a good vegetable crop but, as tree fruits are a little late, movement of these is not very brisk due in part also to fair vegetable and wild fruit crops on the Prairies. It is expected that the apple movement will be considerable heavier before the end of this month.

BATTLE OF KOREA—

Reds Seize Vital Port Of Pohang In Savage Battle

TOKYO, Saturday, (CP)—Red troops last night seized the important port of Pohang on the east coast and fought virtually to the edge of the United States air base to the southeast.

The Eighth Army, announcing the fall of Pohang, said the city was in flames as the Americans withdrew after a savage night battle. Pohang is 65 air miles north of the main U.S. supply port of Pusan.

Small United States forces battled in the early morning darkness to save the air field, which is on a spit about six miles southeast of Pohang. U.S. tanks and infantry were rushing up to rescue the air field.

Pohang, second only to Pusan itself as a supply port, fell to a surprise Red drive through undefended mountains while the Americans were rolling back the enemy on the extreme southern end of the Korean front.

General MacArthur's headquarters, meanwhile, announced that all Communist bridgeheads but the one across the Nakdong River on the western front had been erased by American units.

But this one is important. It is the big one in the Changyong area 29 miles southwest of the front line supply base of Taegu. Here about 6,000 enemy, with artillery fire support from across the river, are trying to break out eastward. If they make it they will cut off Taegu from Pusan, 55 miles to the southwest.

On the southern front, approximately 1,000 enemy troops battled in a desperate attempt to break out of the trap in the coastal hills southwest of Chinju and about 45 miles or so west of Pusan.

The marines completed the capture of Kosong, south coast port of 55,000 population, 29 miles southeast of Chinju. Associated Press correspondent Hal Boyle at the front, said the air strip to the southeast was fighting for its life. Communists have brought up artillery to within range.

Fighter planes blasted the attacking enemy with rockets and machine gun fire. Fighter planes left the air field for safety elsewhere during the night.
