Science
turned their
backs on
the target

Science is playing an increasingly im-
portant role in Canada's new Army. In
heavy anti-aircraft, for example, com-
plex radar equipment predicts to with-
in a few feet exactly where the target
is and will be. The gunners, their backs to the target, fire
with amazing accuracy by instrument.

Training men in the use of modern scientific equip-
ment is a major requirement in Canada's new Army.
Thousands of young men are attending some of the finest
schools in the country, specializing in electronics, radar,
radio and telephone. In addition, there are openings for
clerks, drivers, mechanics and many other trades.

New higher pay, good food and quarters, trades train-
ing and the opportunity for advancement make the
Canadian Army Active Force one of the most attractive
careers open to young men today. You are eligible if you
are 17 or over and can meet Army requirements. Visit
your nearest recruiting office soon for full details. Bring
certificates of birth and education with you.

No. 11 Personnel Depot, 4th Ave. & Highway 97, Jericho,

SHORTEST DAY OF YEAR COMING UP

A month from now will be the
shortest day of the year. Then,
from the Christmas and New
Year season on, the steady leng-
thening of the days will be most
noticeable.
