IT'S A DATE—Boys in strange cities sometimes find it difficult to meet girls. Canadian Navy ratings in Halifax have no such trouble. Under the auspices of the Naval Officers' Wives Association and with the full approval of the navy, a date bureau has been established at the east coast Canadian port. Here, right, Ordinary Seaman John Keable of Quebec calls the date bureau for a date. On the other end of the line, as the left photo shows, are Mrs. J. I. C. Inness and Mrs. W. H. De Costa who operate the bureau. They check their list of girls and give Sailor Keable a number and address. As protection sailors and girls must both be registered with the bureau and present proper identification when they meet, usually at the girl's home.

PLAN SKY LIGHTING
CANNBERRA — A team of
-ing Australian physicists has begun
-ing experiments to produce an ar-
-ing tificial aurora. The aurora is
-ing believed to be caused by electric-
-ing ally-charged particles striking

the atoms of the upper atmos-
-ing phere and making them radiate
-ing light. The scientists produce
-ing the same effect by shooting a
-ing beam of radio waves into the
-ing atmosphere, 60 miles above the
-ing earth.

NOTTINGHAM — An offer
-ing from a Nottingham business
-ing man to provide £5,000 (\$20,000)
-ing for a statue of Robin Hood, 14th
-ing century legendary outlaw of
-ing Sherwood Forest, has been ac-
-ing cepted by the town council.

and answer a few press questions. Future oil discoveries seemed uppermost in the thoughts of some. Said one: "You can't make too many oil strikes." Drill away, Queen Charlottes!

Tourists, glorying in northern scenery, are returning home just in time to miss the fascination afforded in watching the rich tints of changing foliage. Of course, the same can be enjoyed in the United States, but seasonal beauty is discouraged in vast cities. Take a look at the forests of Skeena and Omineca in September and October.
