

## Kitimaat Or Skagway For Aluminum Plant

WATER—The Avenger, torpedo-carrying plane, is being bought by the Royal Canadian Navy for anti-submarine work. The aircraft, which carries a three-man crew, will be used by the fleet air arm on the aircraft carrier Magnificent. (CP Photo)

### Landers Canada

Filled with a spirit of adventure and excitement, a group of Dutch immigrants, led by a single group to arrive from Holland in a quarter of a century, have settled back as speakeasies, operated from trains, operated from highways, snaked their way to port city last night and their westward across

### Keenleyside To Visit Bolivia

OTTAWA—Dr. H. L. Keenleyside, deputy minister of resources, told about the approaching visit to Bolivia of the Canadian Commission, of which he is chairman, consists of more than a dozen experts whose services will promote the welfare of peoples who, for various reasons, do not share in the progress and happiness that otherwise might, and in all likelihood, would be theirs. They live in lands rich in natural resources yet suffer from isolation, poverty and distress of various kinds.

### May Drill More On Charlottes

A total depth of 3,512 feet had been reached when Royalite-Queen Charlotte No. 1 suspended further drilling a few weeks ago. This, however, does not mean that future work is not planned. The drilling rig, still near Skidegate, will stay there, until after a geological survey, to be undertaken this spring, is completed. It is expected there will be further developments.

### Three Months On Liquor Charge

Herbert Braaten of Hazelton was fined \$300 or default of three months Tuesday on a charge of supplying liquor to an Indian on April 8. The accused pleaded guilty before Magistrate C. H. Drake. He chose the jail sentence and is being escorted to Prince Rupert this week-end en route to Oakalla prison in Vancouver.

### Presented With Award of Typos

A. O. Franks, pioneer city printer, after having spent the past few weeks in Prince Rupert General Hospital, sailed last night by the Prince Rupert, for Vancouver to receive further treatment after which he will proceed to his home at Galiano Island. He was accompanied south by his son Jack Franks of the city fire department.

Prior to the sailing of the steamer, Mr. Franks was presented with a 40-year continuous membership pin of the International Typographical Union. The presentation was made in the presence of other union members and friends by Herb Morgan, president of the Prince Rupert local, who made comments appropriate to the occasion, extending sincere best wishes to Mr. Franks for the future.

### Robin Red Breast Is Bonnie Scrapper

The red breasts of robins are noted very frequently in Prince Rupert just now. It seems the further north one goes, the more are seen. Don Brown, who lived in Dawson for a while, mentioned yesterday that in midsummer there, the robins as well as other song birds are indeed numerous. Incidentally, the robins are bonny fighters. They can scrap as well as sing, even taking on hawks.

### Owes Much To Britain

Rotary Club Hears Discourse by Visiting Missionary  
"In a few years, as the people of India look back, they will recognize and admit the wonderful contribution Great Britain has made to their country." So said Dr. O. E. Daniels, president of the Baptist Convention of British Columbia in speaking to members of the Rotary Club Thursday.

"There is no doubt in my mind as a Britisher, that, if China had had the same type of government as Britain gave India, her present problems would not exist," said Dr. Daniels who spent 17 years in India as a missionary.

Great Britain faced serious political and social conditions in India that were not apparent to people through out the world. He spoke lengthily on social difficulties which arise in a caste system. Leaving a cosmopolitan city such as Bombay, one enters the real India.

He related how people are huddled together in one central village, "which you can smell before you see" and have nothing to do with another group in a village a short distance away. "They are afraid to live separately," he said, "and therefore are segregated in one central village. From there, they journey to the fields and work."

Modern 20 passenger busses have nearly taken over ox-cart travel to towns and cities, the doctor said. Previously, the different castes travelled separately, not coming in contact with other social and religious groups. "What about the Brahmins who rub shoulders with an outcast in a bus?" the doctor asked. "It seems they are being polluted all the way."

### Rangers Even With Detroit

TORONTO (CP)—Two goals by Edgar Laprade paced the New York Rangers last night to a 3 to 1 victory over Detroit Red Wings to tie the best of seven game Stanley Cup series at one game each. The Rangers had been defeated by 4 to 1 Tuesday. The next game will be played tomorrow night.

### Status of Teachers—

### Pr. Rupert Resolution is Rejected

VANCOUVER (CP)—A resolution by Prince Rupert Teachers Association was voted down last night when it drew rebuttal of Tom Alsbury, vice-president of the Vancouver and District Trades and Labor Council and delegate to the annual British Columbia Teachers' Federation convention.

The resolution sought to have the Federation executive review affiliation with the Congress with an eye on withdrawal before next year's convention. The convention steering committee recommended withdrawal of the resolution and asked, instead, that a committee of the Federation executive merely go into the matter.

Both resolutions were defeated. Mr. Alsbury said: "Inaccurate are the claims by the Prince Rupert teachers that tenure regulations set them apart from organized labor, that trade union policy is often formulated from the executive level, that teachers' salaries rightly belong with those of 'professional groups,' that children of trade unionists and those of management groups go to the same schools and the British Columbia Teachers' Federation has no management affiliations."

### Brethren Back At Meet Place

SHAWINIGAN FALLS, Quebec (CP)—Members of the Christian, Brethren sect, who were driven from their meeting place by a riotous demonstration, returned quietly without molestation. Stones, empty bottles, chunks of ice and a few eggs were hurled at the two storey building during the demonstration that lasted two hours.

### Water Power Rights are Turning Point In Great New Industry

### Appointment Is Extended

Robert Forgie, official with the Department of Labor at Victoria, had his appointment as conciliator in the wage dispute between the city and its Civic Employees' Union employees, extended to April 30 by city council Monday night on the recommendation of the wage committee.

He met both city and employees April 4 but was unable to effect a settlement. His appointment expires ten days after his appointment unless both parties consent.

### Wrecks Way To Success

Getting wrecked in sundry ventures marked the career of Edmonton contractor Soren Madsen until he found wrecking things himself was his forte. In 1945 he bought ghost town of Brule, Alberta, wrecked it and with materials built 26 houses in Edmonton. Since 1946 he has wrecked 16 Alberta airports and army camps. Latest venture is the purchase of a \$9 million U.S.-built warehouse at Prince Rupert, B. C. This he is wrecking with 30 men on the job. Building has 6 million feet of material including some 400,000 board feet of No. 1 maple flooring and nine elevators, seven of which cost \$30,000 apiece. Most of the lumber is being shipped to Edmonton where the government public works department has agreed to buy it.

VICTORIA —(CP)— Reports were circulated today that the Aluminum Company of Canada and the Canadian government may strike a bargain giving firm water and power rights in Northern British Columbia.

The Aluminum Company of Canada and the Aluminum Company of America are trying for water power rights for the development of a \$500,000,000 aluminum industry at Kitimaat, British Columbia, or near Skagway, Alaska. The government has said it will back the Canadian company if the plant is built in the province. Industrialists say they would oppose likely water power rights for the American company if the plant was constructed in Alaska.

### Defiant Girl and Boy Taken After Dramatic Pursuit Near Quesnel

QUESNEL—(CP)—A defiant pair of lovers—a 19-year-old youth and his 16-year-old gun moll—stood off a posse of police for more than twelve hours before their capture today on a high plateau near here.

The police smoked the couple out of a lonely trapper's cabin with tear gas bombs but the two fled to the bush. A posse finally tracked them to a stony ridge where police bullets felled the girl as she prepared to open up a fusillade upon the police with a 22-calibre rifle. The girl was only nicked in the leg.

The couple—Bert Lagace was the only one identified by police—were holed up in a cabin 18 miles west of here after fleeing their Quesnel homes Tuesday night on a wild rampage of breaking and entering.

The police have a warrant charging Lagace with abduction. They added, however, that the High School girl had fled with Lagace of her own will and accord, defying her parents' orders to stay away from the youth.

The posse waited until dawn before attempting to rush the cabin. Then they moved in with tear gas bombs. The girl shouted from the cabin to her father as he pleaded with her to come out: "I'll see you in hell first."

The boy yelled to the police: "If you want me you'd better bring a coffin." No one was reported injured. Crowds were said by police to have reached a peak of 1500 but only a few youths are said to have been the real demonstrators.

### THE WEATHER

GALE WARNINGS  
North Coast—Gale warning continued.  
Rain today and Saturday. Little change in temperature. Southeast gales, 40 miles per hour, shifting to southerly (30 mph) this afternoon. Winds southeast (25) tomorrow. Lows tonight and highs tomorrow—at Port Hardy, Sandspit and Prince Rupert, 37 and 45.  
Synopsis  
Southeast gales developed on the north coast last night. Strong winds have spread to the west coast of Vancouver Island and are expected to develop along the east coast of Vancouver Island by noon. These winds are in advance of a complex storm which is centered just west of the Queen Charlotte Islands. Rain from this disturbance is spreading southward along the coast with rain expected on the lower mainland about noon today.  
It will be sunny in most interior regions today with cloudy skies developing in the western sections this afternoon.

UNCONCERNED ABOUT CRITICISM—In spite of mention of her name by a U.S. congressman critical of Hollywood influence, actress Rita Hayworth is all smiles as she poses at Gstaad, Switzerland with daughter Yasmin. Rita is expected to return to Hollywood soon to make a film perhaps based on her life.
