Jews Shoot Down Five British Planes

CHIANG READY TO QUIT—

Nationalist China Seeking Mediation Of War

NANKING, (CP)—A usually reliable source said today that the Chinese government had asked British, United States and French governments to mediate the civil war. Ambassadors for the three powers were asked to relay the request to their governments, the source said.
The three ambassadors were all called to the Foreign Office by Foreign Minister Wu Te-Chen late today.
None of the foreign officials would comment on failure to include the Soviet member of the "Big Four" in the summons. This raised considerable speculation here.
It is understood the Russian ambassador has been shying away from possible participation in mediation or discussion of negotiations.

RUSSIAN PLANES SCOUT ALASKA

FAIRBANKS — According to Frank Whaley, well known Nome flier, Soviet jet planes have been patrolling the international Date Line and Bering Straits. The planes, flying exceedingly fast, have been sighted by observers, along the Arctic shore. Whaley says he saw a Soviet jet plane circle Big Diomedes Island, between Siberia and Alaska.

STATES MUST ASSUME LEAD

Truman Calls on Country
To Support World's Struggle
For Better Living

WASHINGTON D. C. — President Truman yesterday submitted to Congress a report which says the United States must "positively support" the world's struggle for better living standards and economic progress.

THE WEATHER

(Synopsis)

Winter has renewed its grip on all areas of British Columbia as Arctic air blankets the entire province. Sub-zero temperatures have again been recorded over many portions of the interior and at Prince George the mercury dropped to 25 below during the early morning hours.

(Forecast)

Queen Charlottes and North Coast—Clear over the northern mainland today and Sunday. Variable cloudiness and widely scattered snow flurries over the Queen Charlottes, clearing this afternoon. Clear tonight and Sunday morning, becoming cloudy during the afternoon. Winds light. Continuing cold. Lows tonight and highs Sunday — at Port Hardy 20 and 32; Massett 17 and 32; Prince Rupert 17 and 32.

CARONIA STARTS MAIDEN VOYAGE

SOUTHAMPTON — The new Cunard-White Star liner Caronia, ranking among the most modern ships afloat, sailed this week on her maiden voyage to New York City.

At the peak, the 1946-47 school year, 40,000 Canadian war veterans were registered in special courses and regular classes of our universities.

NEW POLICE ADMINISTRATIVE SET-UP ELIMINATES "D" DIVISION HERE

Administrative changes which eliminate one link in the chain of authority within the British Columbia Police force and enlarge the area served by the Prince Rupert detachment, have been put into effect by the Attorney General's Department.

Eliminated by the changes are the five divisions within the province and the inspectors in charge of the divisions now have command over districts of nearly equal size. Formerly, detachments were immediately responsible to district headquarters which, in turn, was responsible to the Division. Elimination of the division places the detachments immediately responsible to the Inspector-in-Charge.

The re-organization is the first major administrative change within the force since 1924. Notable effects of the re-organization within the Prince Rupert district are:

1. "D Division" no longer exists. Inspector F. B. Woods-Johnson now is officer in charge of the Prince Rupert District.

2. The Prince Rupert detachment, which formerly embraced only the city limits, has been expanded to include certain unorganized territory in the immediate area.

3. Burns Lake and Atlin detachments have been placed, for administrative purposes, within other districts.

Purpose of the re-organization is to "streamline" the administrative set-up by making the detachments, which do the actual police work, directly responsible to the Inspector-in-Charge.

The enlarged Prince Rupert detachment is now in charge of Staff Sergeant G. A. Johnson, former district non-commissioned officer. Under him will be Prince Rupert city policing as well as that of unorganized territory immediately surrounding the city. The city detachment now will police as far east as Kwinitsa.

Prince Rupert detachment force will consist of Staff Sergeant Johnson, Sergeant L. A. N. Potterton, Corporal A. H. Taylor, Corporal E. A. Wales and ten constables.

Port Edward remains a separate detachment and will not be policed by the Prince Rupert detachment.

While the Prince Rupert detachment will have a larger area to cover, it will gain three more men—the staff sergeant, a corporal and one constable. Formerly, Corporals Taylor and Wales alternated duty between the city and the launch P. M. L. 15 and Constable Edward Anderson was attached to the district office. All now come under the Prince Rupert detachment.

In future, the P. M. L. 15, which is classified as a detachment will draw a man from the Prince Rupert detachment if one is needed.

The Burns Lake detachment, which formerly was the easterly limit of "D" division, is now part of the Prince George district. Smithers is the easterly limit of the Prince Rupert district under the new arrangement.

The northern settlement of Atlin, which also was in "D" division, is now in the Peace River district. Both were transferred because they were so far from Prince Rupert as to be more easily accessible from other points.

Detachments within the Prince Rupert district and directly responsible to Inspector Woods-

BAD STORMS IN ALBERTA

Coal Branch Area Suffers
\$100,000 Damage From
Hurricane and Snow

EDMONTON, (CP)—Wet snow today added new peril to the Coal Branch mining area west of here in the wake of hurricane force winds which caused \$100,000 damage.

Winds at 90 miles per hour yesterday demolished buildings, tore out communications and lashed the towns of Cadomin, Luscar, Mountain Park and Leyland.

Snow was still falling after 19 inches had brought fears of further damage to buildings weakened by winds.

Bell Telephone Is Issuing New Shares

MONTREAL (CP)—Bell Telephone Co. of Canada will offer capital stock to shareholders at \$33 in ratio of one new share to five old ones. The right, expiring at the close of business February 21, will be assignable.

Lumber and Tie Production Same

OTTAWA, (CP)—British Columbia's production of sawn lumber and ties was slightly higher in September than August but was almost unchanged from the year before, the Dominion Bureau of Statistics reported yesterday.

OUT—General George Marshall, resigned as United States Secretary of State owing to ill-health.

Incident On Egypt Patrol

Foreign Office Admits Help Being Sent to Help Protect Arabs

LONDON (CP)—Britain said today that five Royal Air Force planes had been shot down yesterday by Israeli aircraft while on reconnaissance patrols over Egyptian territory near the Palestine border. The announcement of the Air Ministry came after a Jewish spokesman in Tel Aviv said that two of five aircraft shot down by the Jews over Rafa were known to be British planes and two others were presumed to be.

Meanwhile Foreign Office officials announced that Britain, acting on the request of Trans-Jordan had sent troops to guard the seaport of Aquaba.

DETROIT AND BOSTON EVEN

Former Have Two Games This Week-End and Latter Only One

MONTREAL — Detroit Red Wings, presently tied with Boston Bruins for the leadership of the National Hockey League, are taking on the Canadiens at the Montreal Forum tonight and will return home to take on the Toronto Maple Leafs in Detroit tomorrow night. Meanwhile the Maple Leafs are playing host to the erratic Chicago Black Hawks tonight.

Boston is billed for only one appearance this week-end, against the Black Hawks at Chicago tomorrow night.

After the game tonight, the Canadiens journey to New York to meet the Rangers tomorrow night.

POWER CRISIS IN VANCOUVER

Looks Like "Gray-out" for Southern City—Praying For Rain

VANCOUVER, (CP)—There may be a "gray" tinge here next week unless it rains.

British Columbia Electric officials here have repeated the warning that non-essential uses of electricity will have to be curbed unless weather conditions improve "by the end of the week."

Company hydro-electric plants are using up valuable supplies of stored water.

Low temperatures and snow in the watersheds throughout the Lower Mainland and the Fraser Valley are delaying replenishment of needed water supplies.

"We require a week of normal Vancouver rain to restore water supply," says Thomas Ingledew, company vice-president and chief engineer.

It is believed signboards and window displays will be the first to face the "gray-out."

Canada's textile industry is largely decentralized having 653 plants distributed among 200 communities, many of them small towns and villages.

Bulletins

CHURCH DESTROYED

OTTAWA—St. Mary's Roman Catholic Church, 60-year old edifice in Ottawa's east end, was completely destroyed by fire early today in a two-alarm blaze which caused damage estimated at more than \$50,000. The actual cause of the fire is undetermined.

LABOR CONGRESS CASE

VICTORIA—Outlawing of company unions and elimination of supervised strikes vote clause from the British Columbia labor code was asked yesterday by the British Columbia executive of the Trades and Labor Congress of Canada. An 11-man delegation urged that hours of work be reduced to a weekly limit of forty and the basic minimum wage rate rise to 75c per hour. Old age pensions of \$60 a month without means test were also advocated. It was also asked that the Industrial Conciliation and Arbitration Act be broadened to cover all workers, specifically civic, municipal and provincial government employees.

WOULD BAN IRON EXPORT

VICTORIA—Federal ban on the export of iron ores to the United States was sought today by the British Columbia government. Hon. R. C. McDonald, minister of mines, said that British Columbia wanted its own steel industry and exports of raw material would endanger such a project. Mr. McDonald said that a permit to export 50,000 tons of iron ore from Quinsam Lake, Vancouver Island, to Wenatchee, Washington, had been granted without his department's knowledge.

NEW CITIZENS—To acquaint new Canadians with their adopted country, federal immigration officials prepared a booklet to be published in several languages and presented to each immigrant. Designed to give newcomers basic details of what Canada is like, the volume is being discussed by a group of political refugees from Estonia, who, for political reasons, their names be withheld. (CP Photo)
