It Pays Off

IT PAYS OFF to be a good student. Two examples right here in Prince Rupert this week prove it.
Prince Rupert-born Harry Daggett has been awarded a new scholarship of \$3300, bringing well up in the thousands now the aggregate of such awards which he has received and which have enabled him to attain a high standard of education which he appears to be putting to good account.
Another local boy, Warren Wilkinson, it was our pleasure to announce yesterday, has been selected for an all-expense educational and goodwill tour to Britain this summer. The necessary qualifications were academic standing, together with such attributes as co-operation and enthusiasm which are as much educational factors as the scholastic attainment. No doubt many other students are envious of Warren today and some of them might have been in his position had they applied themselves in the proper attitude.
And to the credit of Prince Rupert, Daggett and Wilkinson are just two of many local students who have found that applying oneself to the acquisition of good qualities of education and citizenship can be exceptionally profitable sometimes.

LEARNING OF RUPERT

CONGRATULATORY letters continue to be received by the publishers of the Daily News on the special international edition we put out last fall. One which we consider outstanding arrived yesterday from Hon. Ray Lawson, the Lieutenant Governor of Ontario. Mr. Lawson was greatly impressed with the Civic Centre here, for one thing, but the whole edition was, apparently, a revelation to him. His Honor is but one of many prominent individuals throughout Canada and the United States who received copies of the edition and already a number have written in to intimate how much they had learned about Prince Rupert as a result.

Here is Mr. Lawson's letter:
Heartiest congratulations on the International Edition of the Prince Rupert Daily News that was published jointly with the Ketchikan Chronicle.
This is a remarkable edition. It is interesting and educational.
I was particularly surprised to see what is apparently a marvellous Community Centre.
As stated in the illustration, it might well be the envy of the Continent.
I do not suppose there is any place the size of Prince Rupert that has such an attractive and commodious Community Hall.
To see the illustration and read about the \$35,000,000 Celanese Pulp Plant that is under construction and your enormous timber reserves, makes me wonder if the people of Eastern Canada are familiar with the annual income from the fishing industry, your large grain elevator and your annual fur trade.
May I express my sincere thanks for forwarding a copy of this International Edition of your paper and again offer my sincere congratulations to you and the people of Prince Rupert, who have joined with the people of Ketchikan in co-operating in this special edition and I also send best wishes to the people of Ketchikan for the enterprise they have shown.

Enrolment Unchanged

Enrolment at Prince Rupert schools during last month was exactly the same as January. Pupils are still keeping a few of the Conrad Street school children at home but no major outbreak of diseases was reported to the school board Wednesday night.
It was reported by the schools committee that the Borden Street grounds were in bad shape and required filling. It was decided to purchase clink-

ers to remedy the muddy and damp conditions.
Enrolment at Booth totalled 451 compared with 452 during January. At Conrad, 252 pupils were in attendance, two more than the January total of 250. At King Edward, enrolment figures were 305 compared with 308 during January. Enrolment at Borden Street totalled 247 compared with 245 during January. Total enrolment February was 1255, identical to that of January enrolment figures.
Attendance percentages, per school were as follows:
Booth 91.
King Edward 92.8.
Conrad Street 93.
Borden Street 91.3.

Survey Need Of Kindergarten

The Parent-Teacher Council has referred to the four P.T.A.'s resolution which has been passed to them by the Local Teachers' Federation for endorsement to the effect that current regulations be changed to permit teachers to hold civic office. If passed by the P.T.A.'s, Council will forward the resolution to the B.C. Parent-Teacher Federation in Vancouver to be taken up at their annual convention this spring.

A recording of excerpts from the B.C. School broadcasts which is reported to be of especial interest to parents and teachers, has been forwarded here recently. The recording will be played to each of the city's P.T.A.'s at their March meetings.

A survey will be conducted again this year to determine the number of kindergarten age children in the city, so that the P.T. Council will be provided with material to follow up the action begun last year in an effort toward the establishment of adequate kindergarten facilities here. R. D. Cleland was appointed chairman of the Council's Kindergarten Committee.

The next meeting of the P.T. Council will be held on March 27.

Those present at Monday evening's meeting were Mrs. A. J. Dominato, President J. Jenkins, Secretary-Treasurer J. Goscoe, Mrs. H. M. Lindseth, Mrs. R. E. Mortimer, T. G. Bateman, Mrs. E. W. Becker, Mrs. H. Marchildon, H. H. Thom, L. Sykes, J. S. Wilson, Mrs. W. McLeod, Mrs. H. Flood.

In order to observe Education Week, it was announced that Dr. A. R. Lord, principal of the Vancouver Normal School will be in the city to address the public in the Civic Centre auditorium on Monday, March 6. Also in connection with Education Week, it was announced that visitors day would be held at each of the city's schools.

Two Tenders Are Accepted

Three tenders, two for servicing of typewriters and one for construction of teachers' desks, were opened at a meeting of the Prince Rupert Public School Board Wednesday night.

The successful tender for servicing of 44 typewriters at city schools was that of Brydges, McLean and Rudderham which stipulated servicing of each typewriter every second month at a \$1 fee. The other bid, by McRae Bros. Ltd., was identical.

Thirteen teachers' desks will be supplied by Woodbilt Products of Prince Rupert as a result of their successful bid for the contract. The desks, of wooden construction, will measure 42 feet by 26 feet and cost \$45 each. Seven of these will be used at Borden Street school and the remaining six at Conrad Street school.

PILES

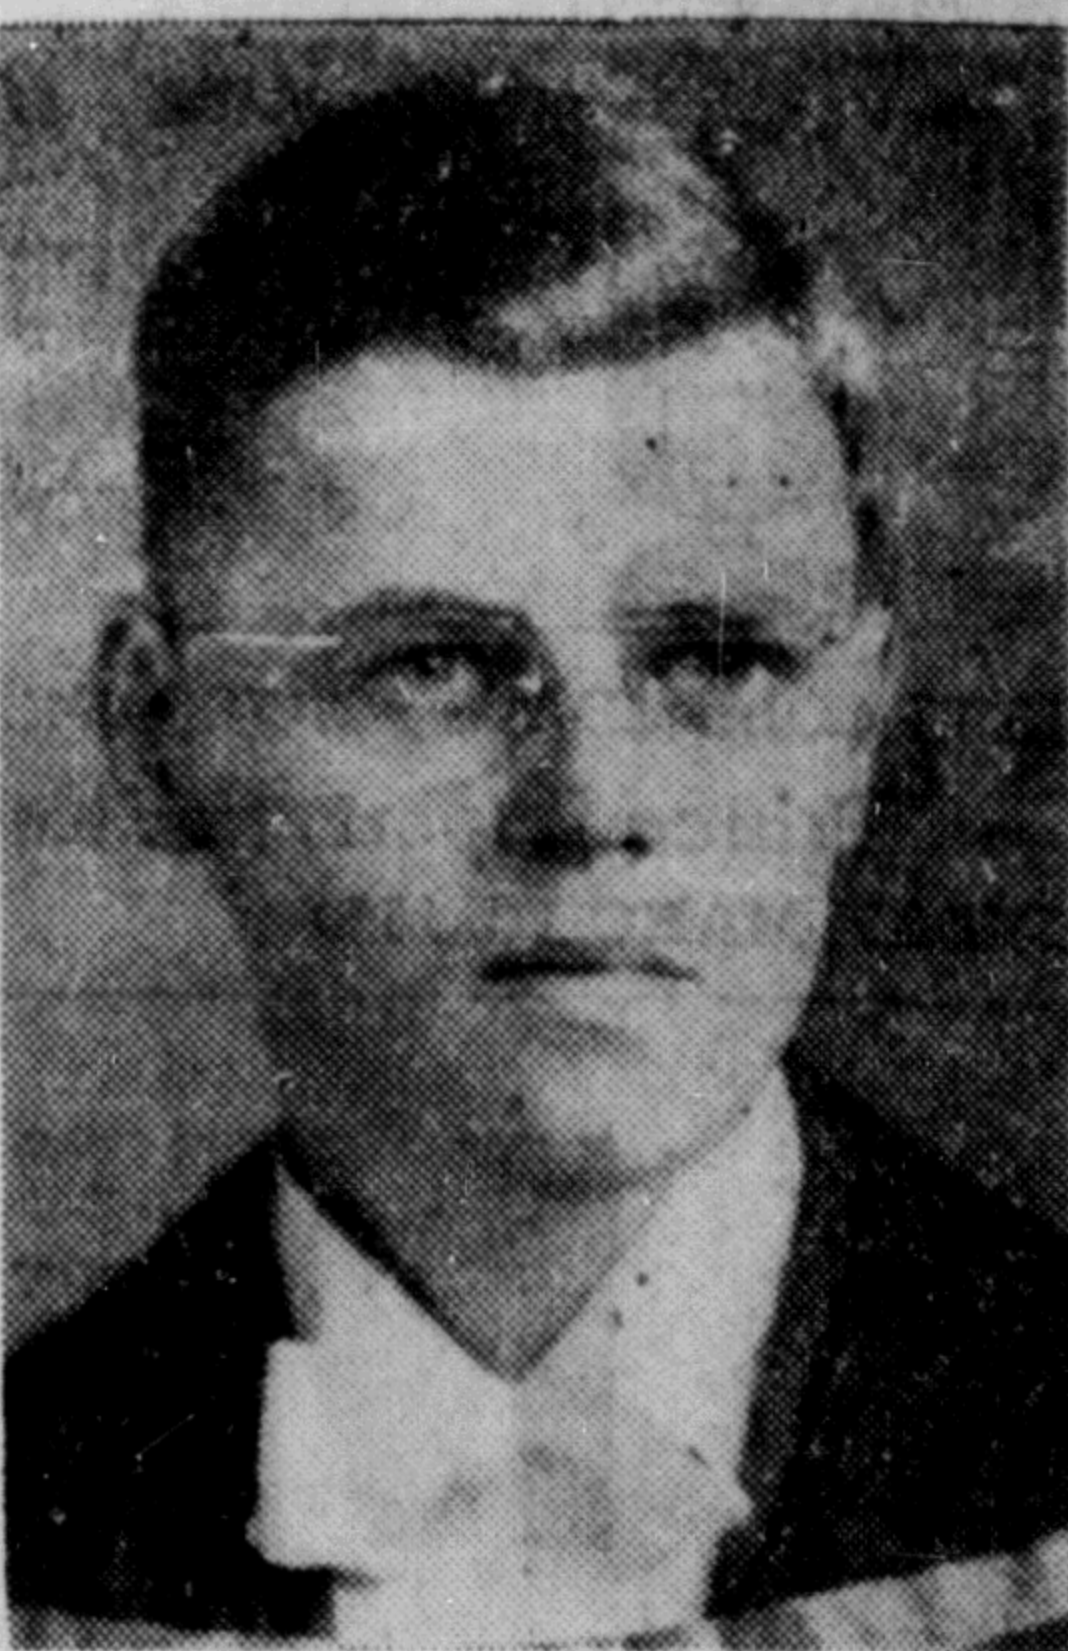

Pyltone has been used in many cases. Some were very old people with twenty or more years of torture, others recently severe cases, scarcely able to walk, yet the new Pyltone treatment has been successful. This new way treats the cause right at its source, which is always internal. Pyltone (a liquid taken by mouth) goes quickly to that inner trouble. One bottle will show you the results we claim or price refunded at once. At all drugists. His wholesaler has it in stock now.

AWARDED SCHOLARSHIP—Dr. H. M. Daggett, assistant professor of chemistry at University of British Columbia, has been awarded \$500 by the Research Corporation of New York. The award is made to facilitate investigations of electrolytes. University of British Columbia officials say. A native of Prince Rupert and son of Ex-Mayor and Mrs. H. M. Daggett, Dr. Daggett joined the University of B.C. faculty last year. He studied at Queen's University at Kingston, and Brown University, Rhodes. This is another in a series of scholarships he has won.

LETTERBOX

BETTER RADIO?
Editor, Daily News:
May I through the medium of your paper ask the obscure question, how much longer have we in Prince Rupert to endure the program and standard of transmission as put on the air by our local radio CFPR. To any community, however remote, it may be I can imagine no greater demand upon one's powers of endurance. To say that we are remote from any large network is no excuse.
To substantiate this I refer you to any radio station other than CFPR.
Thanking you Mr. Editor.
B. HUMPHREY.

Could Stand Only One Hydrogen Bomb

LONDON—Britain could stand the explosion of only one hydrogen bomb, says General Frederick Pile. He was responsible for Britain's wartime aircraft defence.

Ray Reflects . . . and Reminisces

Sir Harry Lawder was a bonnie minstrel, poet and man of good cheer and will be sorely missed in a troubled world. But fair enough to inquire if, with feast and song, the anniversary of his birth will be honored for the next century and a half.

It took slightly less than five hours, Wednesday, for a man to fly from the British Columbia coast to Montreal. That almost gives him time to enjoy a fish breakfast in Prince Rupert, read the noon news in the Star, La Patrie or Herald, and fly home in ample time for dinner and bed.

What seems like enthusiasm attaches to the report that British Columbia wild animals such as bear, cougar, deer and many others species will be placed in the zoo at Stanley Park. There are two column headlines in the papers. One's curiosity is strangely stirred. What have they had in the zoo for the last forty years?

Prince Rupert's Canadian Legion, within another few weeks will have a home that few others, anywhere else in Canada will be able to equal. A spacious building with far spreading scenic grandeur on all sides, is not found everywhere, even in this country.

The CBC is criticized, of course. Everything is. Affairs would be seriously upset if faults, serious or trifling, were missing. We all go on, panning the radio—too much weighty drama, more than enough singing, or not enough classical, more advertising than is wanted, and plenty more alleged reasons for kicks. But who ever gives a moment's thought to what radio is. Only a few years ago it was a miracle. Now it's just another cause for grief.

Old Bailey, in London, was packed the other morning, when Dr. Fuchs was sentenced to fourteen years for having betrayed the United Nations to Russia. It seems there was no passion. For two hours, proceedings were calm and matter of fact. One might have said the tone was along polite, conversational lines. But when the judge uttered the words "base treachery", Dr. Fuchs turned a shade paler, and then court adjourned.

IS LOOKING OVER AIR STRIP SITE

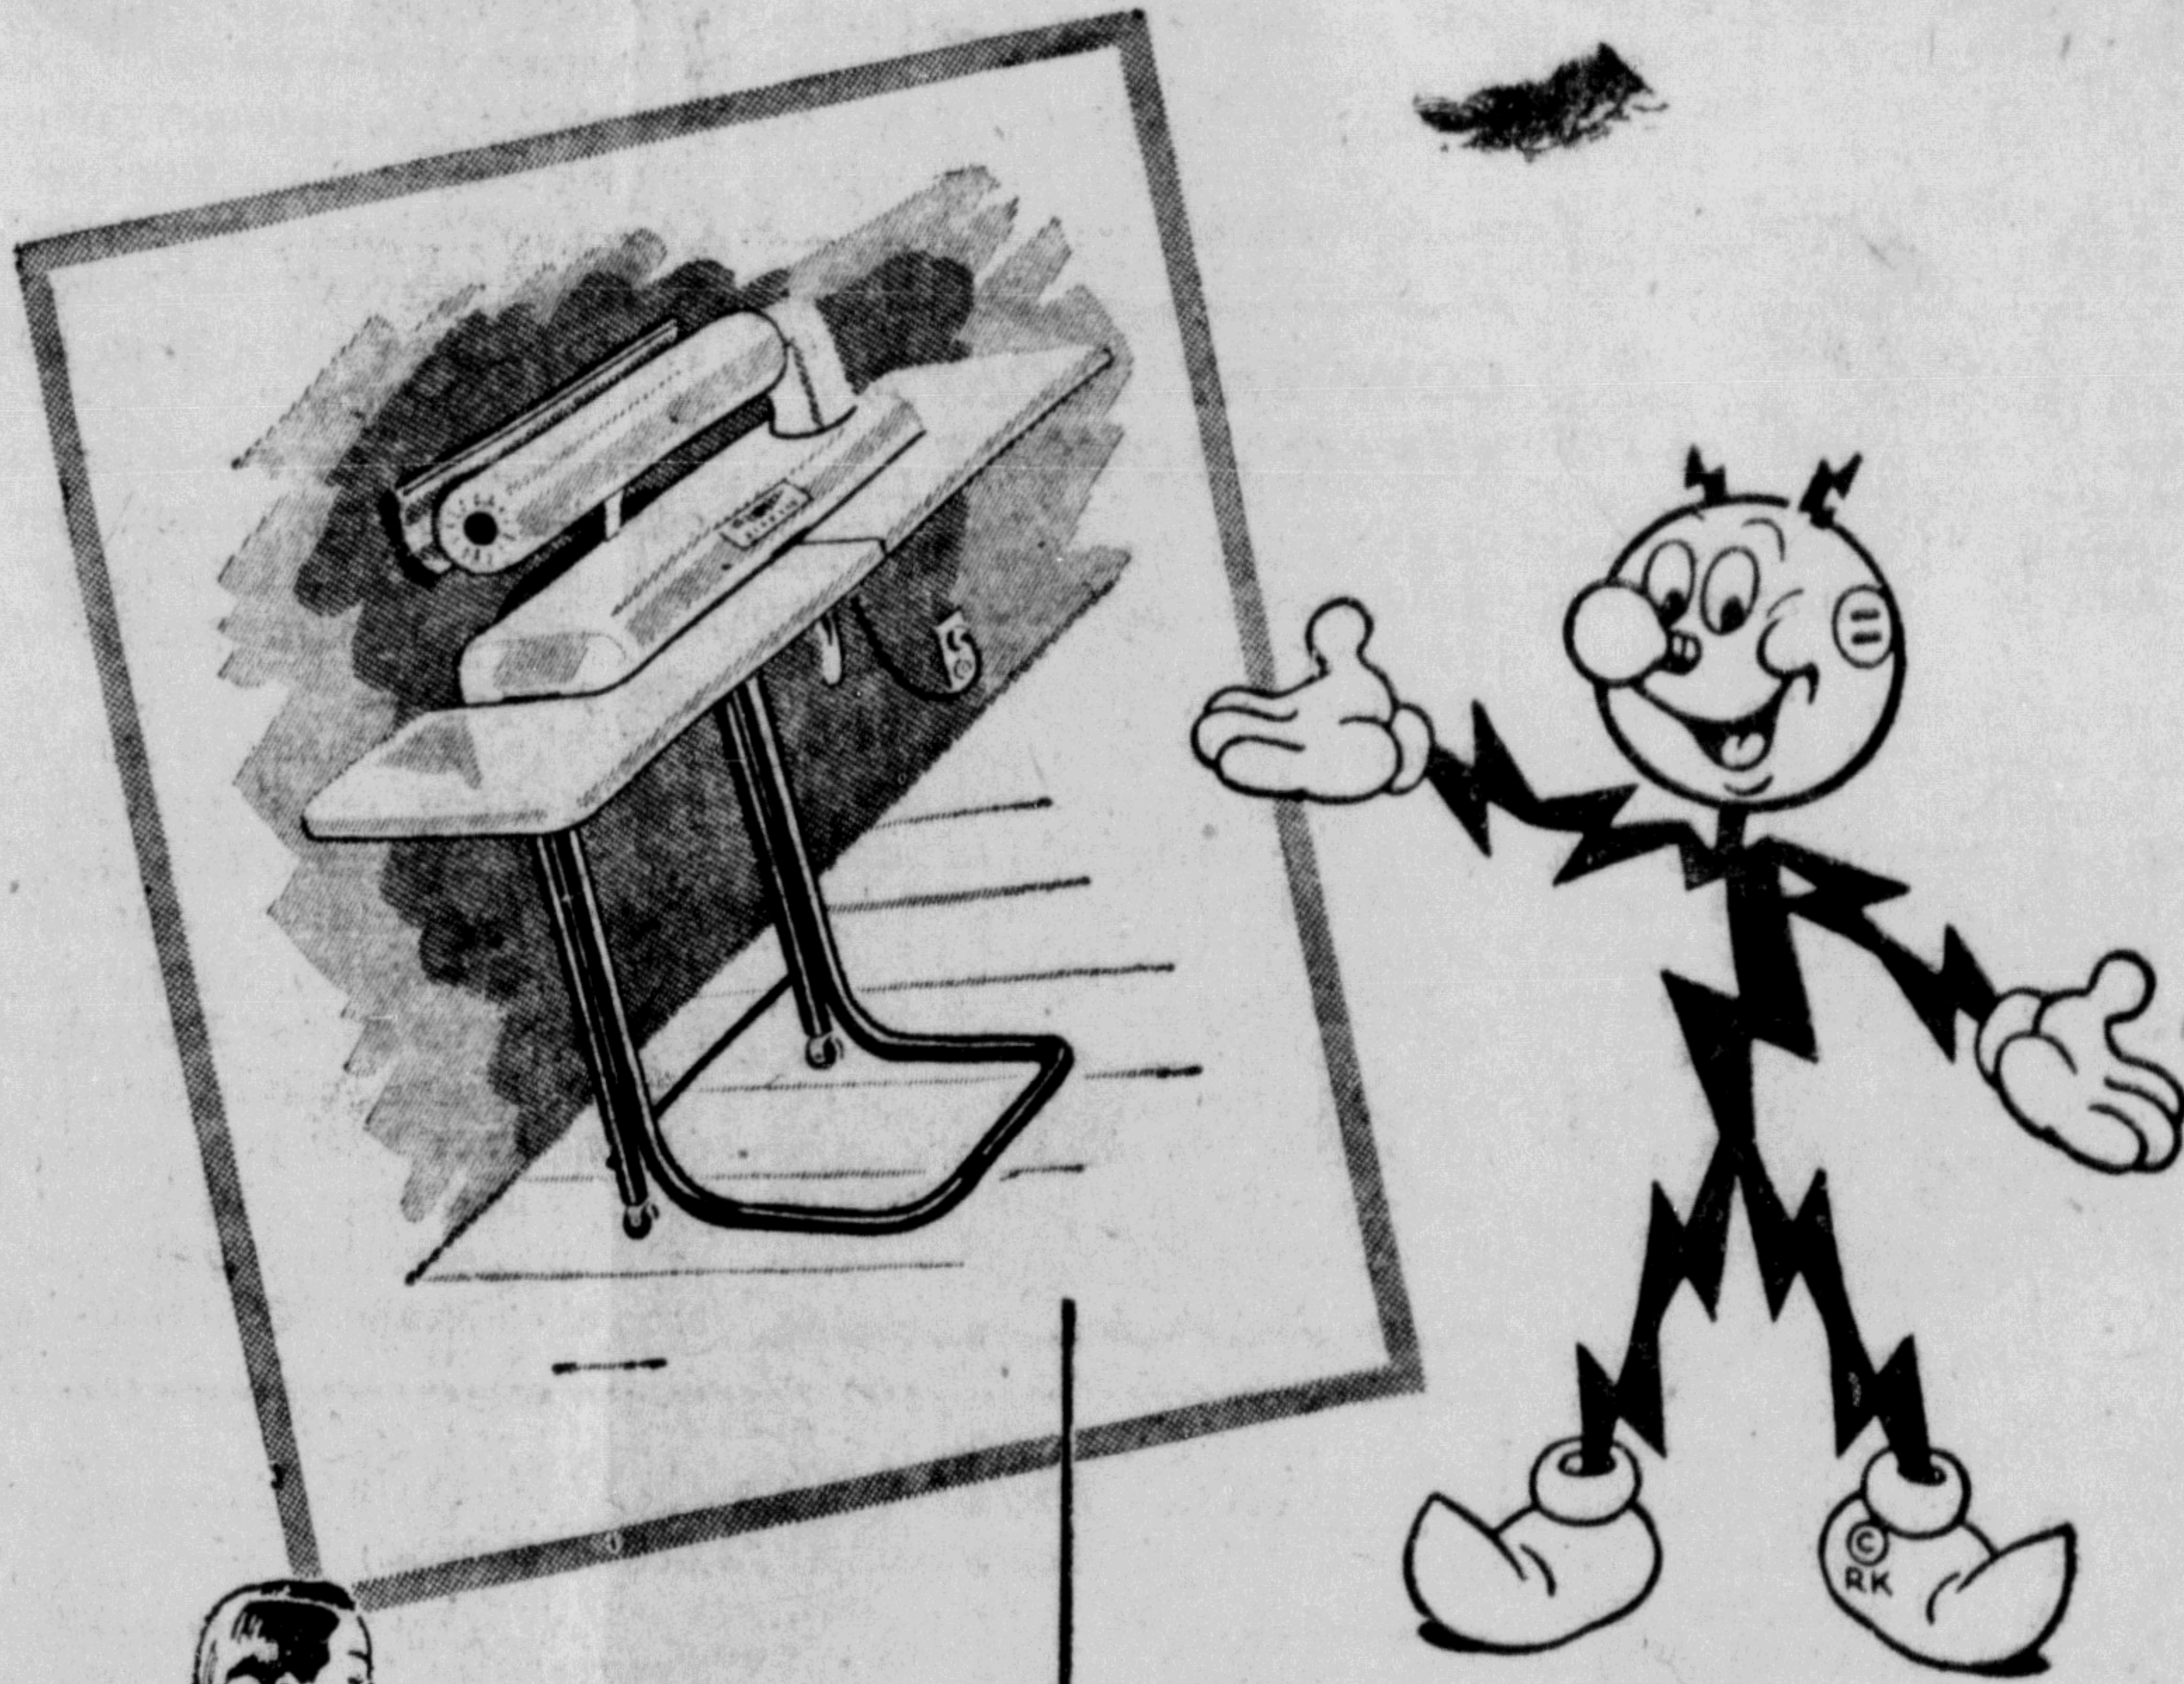

To look over the ground on Tugwell Island with a view to possibly tendering later in connection with work of establishment of an air strip, Bert Blair, Vancouver contractor, arrived in the city Wednesday afternoon by air. Yesterday he visited Tugwell Island in company with A. P. Crawley. He plans on returning to Vancouver on Saturday's plane.

"SALADA" ORANGE PEKOE

It makes ironing as light as sewing

With an electric Gladiron you sit and just glide the clothes through. The pressure is applied for you. And you control starting, stopping, opening, closing with a touch of your knee.

The heat is automatically controlled, and the Gladiron presses beautifully. The sleeve-size roll turns out a shirt in jig time and whisks a sheet through in no time at all.

Ask for a demonstration.

NORTHERN BRITISH COLUMBIA POWER COMPANY LIMITED

Portable—wheels easily. You iron wherever it's convenient. Folds and tucks away in less than 2 square feet of floor space.

Mrs. Elizabeth Garner, mother of Mrs. John McLeod and Edward Garner of this city, arrived at the first of the week from Nanaimo for a visit here.

It's business wise to advertise.
