Debt Burden Excessive (Continued from Page 1)

many new advances in engineering and science during the war years. "Man's mastery of the air, with its uneasy possibility of planes and rockets) rushing through space at speeds faster than sound, has been construed by many as the victorious challenger of the raiiway. I do not agree with this school of thought. The aircraft has a zone of usefulness in our system of modern transport, the same as the automotive vehicle! and water carriers. This zone must be determined by economic restrictions; therefore, I do not foresee how aircraft can replace the railway as the common carrier of the nation."

HOW CAN I ? ?

By ANNE ASHLEY

Q. How can I whiten clothes that have become yellow?

ENGINEER FRANKS

A. First, try soaking them over night in water containing borax, about 1/4 cup to 1 gallon of water. If the result is not satisfactory, let them freeze in cold weather.

Q. What is a good garnish for fried ham?

A. Baked half-rings of pineapple make the fried ham look more appetizing when used as a garnish. They are also delicious when eaten with the ham.

Q. How can I remove stains from copper ash trays?

A. A little denatured alcohol applied with a brush will prove in the 1,337-mile route from

A SOFT, Comfortable twin sweater set of 100 per cent nylon staple yarn for spring, summer or fall year. These lightweight sweaters can be washed easily, do not need blocking yet do not lose their shape.

SHORTENS ROUTE There are 75 miles of canal Montreal to Duluth, Minn.

HARDEST SUBSTANCE

A diamond is composed of pure tic. crystallized carbon, which is the hardest substance in the world.

OBSERVED AT

SCHOOLS

This year the schools thought that, as the time of the Hobby Furniotis. Show was so soon after the Easter holidays, their exhibits would be less extensive, but this is unimportant as the exhibits have never been more attractive.

the first on along the wall, is Flowers and Eventide show his a well planned display against varied ability and appreciation. to be built. The photos are taken from different angles and give an excellent idea of how modern and attractive the building will be.

HIGH SCHOOL-As one nat- -urally expects, the Booth School exhibit is the most comprehensive of all.

What catches one's eye at TRADE visualize is at the bottom of the sea. Where one has a very realistic local looking fish swimming about, the next has odd fishes and sea horses of the south seas. The next has a deep sea diver sending up bubbles while others have very tantalzing mermaids among the sea-

This is poster paint work and one looks above to effective pictures in India ink on white paper, then down to drawings of realistic birds and horses.

Below this is a series of designs so original and attractive that one is left bewildered as to which would be best as a kitchon border, which one would be preferred for that leather beit, or which would be best if on material for a gay summer

If one wants to learn how to make the joints of a table, splice that electric wire, or even build a house, just examine the exhibits of the industrial arts section and a great deal may be

PHOTOGRAPHY - Creating a great deal of comment this year is the photograph exhibit. After looking it over, Miss Faure, for one, said, "I do believe that in Prince Rupert we are getting art appreciation of art."

A favorite picture in the Teen Alle Camera Club exhibit i Evening Sky, a sunset scene of he murbor taken by Odd Eidsvik also the Inlet taken by J Crexford.
