## The Imprisonment For Hungarian Cardinal

### RECENT REDUCTION IN POWER NEEDED TO ENSURE SERVICE

Co-operation Shown by Industrial and Domestic Users Since Hydro Crisis Began

Industrial and domestic users in the city today agreed to take steps to cut down their consumption of electricity during the current hydro crisis. B. Black, Northern B.C. Power Co. manager, said, despite appeals, consumption of power has dropped noticeably, a situation that may presage

by the power company a reduction of at least 10 percent in the use of electricity. "So far, the reduction has been only about 5 percent which is not noticeable," he said. "With co-operation in this regard, we can ensure continuity of service for the greater part of the time."

### Chiang May Come Back?

NANKING, China—China's dormant civil war flared into a lighted fire on the Yangtze River 40 miles west of here today.

Government patrol boats attacked a flotilla of Communist supply craft west of Wuhu. Several Communist boats were sunk and 31 junks were captured along with a few Communists prisoners.

Meanwhile there were suggestions that Chiang Kai-Shek may be coming to the fore again. It is announced he will preside over an important Nationalist government meeting next week.

### Pro-Cons Win Seat

St. Laurent Suffers Reverse in First Test of Leadership

NICOLET, Que., Feb. 8.—Rene Chappelaine, 37-year old lawyer, carried the Progressive-Conservative banner to victory in the Nicolet-Yamaska federal by-election. It was the first time the Liberals have lost the seat since 1921.

From the beginning of returns, it was clearly a two-man race with another lawyer, Paul Trahan, 40, the Liberal candidate, giving a stiff battle.

The Canadian Press reported Chappelaine elected at 7:50 p.m. on 85 of 103 polls. The final vote:

Chappelaine 8,295  
Trahan 7,999  
Manseau 432

The campaign had been regarded as a test of leadership between Prime Minister St. Laurent and Col. Drew.

| TOO MUCH FOR LOCAL FINANCE  |                               |
|---|-------------------------------|
| Local financing does not appear to be available for the conversion of the former United States Army administration building on First Avenue, now in the hands of War Assets Corporation for disposal, into an apartment building so a special housing committee of the Prince Rupert Chamber of Commerce is now endeavouring to interest outside sources in the project. The special committee, through R. E. Montador, so reported to the Chamber at its regular monthly meeting last night. There have been estimates varying from \$75,000 to \$200,000 on the cost of such conversion. The Chamber, at its January meeting, received a complete structural report from W. H. Shortridge who had been employed for the purpose. In order to encourage the project, the Canadian National Railways has advised that it would be willing to sell the land on which the building stands at the assessed valuation which is comparatively low. | A threatened housing shortage |

CONVERSATION STOPPER

Dumb cane, a plant found in tropical Africa, has an acid juice which paralyzes the power of speech of one who chews the stem.

### Extenuation Is Found In Case of R.C. Primate

BUDAPEST (CP)—The Hungarian People's Court today convicted Joseph Cardinal Mindszenty of treason and sentenced him to life imprisonment. The 56-year-old Primate of the predominantly Catholic country was also found guilty of trying to overthrow the Communist government and speculating in foreign currency.

The court rejected a prosecution demand for the death sentence but ordered the confiscation of all the Cardinal's possessions and the depriving of civil rights for ten years.

All six of the Cardinal's co-defendants were convicted on treason charges, sentence ranging from three years to life. Mindszenty's sentence will be reviewed by the Supreme People's Tribunal following an appeal by the defence.

The court found extenuating circumstances in the Cardinal's case. He had confessed and expressed regret and had lived far from worldly affairs.

The United States, through the minister here, had "made it clear that the United States would start a war and this would help him attain his aims."

The Cardinal is the first Prince of the Catholic Church to face penal measures of the government while actually a member of the Sacred College of Cardinals.

### THE WEATHER

#### Synopsis

An active Pacific disturbance was moving inland over the southern British Columbia coast this morning. Mixed rain and wet snow has been associated with the passage of this storm and some scattered shower activity will follow. Cloudy skies and widely scattered snow flurries will be quite general over the interior. Another Pacific storm which is 1200 miles west of the Queen Charlottes this morning will move into the northern coastal areas tomorrow morning. Milder weather is gradually spreading to most of the B.C. coast.

Forecast

Queen Charlottes and North Coast—Variable cloudiness and

Continued on Page 3)

widely scattered showers of rain and snow today. Cloudy tonight, becoming overcast with intermittent rain. Occasional mixed rain and snow early Wednesday morning. Winds northeasterly (25 m.p.h.) in the exposed areas. Light elsewhere today, becoming southerly (25) early Wednesday morning. Little change in temperature. Lows tonight and highs Wednesday—At Port Hardy 30-37, Massett 30-37, Prince Rupert 25-35.

QUEEN OF CARNIVAL—Eighteen-year old Shirley Williams, only blonde contestant, was crowned queen of the Winter Carnival at Fort William this week. This photo by Fryer shows the pretty queen wearing her crown after the coronation ceremonies.

### Local Concern Takes Over Island Resort--Development Planned

Acquisition of the well known Sangar River pleasure resort seven miles from Massett on the famous North Beach of Graham Island and a five-year improvement and development program thereon is announced by Neil Kingston, president of the Northwest Construction Co. here, who has organized the Limberlost Lodge company to operate the property. Ross Kingston is proceeding at once to Massett to open up the resort for operation commencing July 1 this year. There are at present nine cabins with capacity for forty guests. Within two years the capacity will be increased to 100 guests with 500 the objective for five years.

The Sangar River project marks the first large enterprise for the handling of tourist business on this part of the coast. Plan is to operate it not only as a summer beach resort but also at other times of the year in connection with the hunting and fishing that abound on the Queen Charlotte Islands.

Prince Rupert will be the embarkation point for visitors to the resort which is reached by the Union Steamship Co. service from here. Mr. Kingston states that negotiations are under way for the steamship company when traffic warrants, to operate a 120-passenger motor vessel from here to Massett. Massett may also be reached by a shuttle seaplane service connecting with Canadian Pacific Air Lines at Sandspit.

A new construction program will be instituted this year including the building of five or six more cabins and a 100 by 40 foot lodge this fall. Eventual plans call for separate recreation hall, dining hall and kitchen.

Sangar River is connected with Massett by a plank road. The property comprises 123 acres and is being acquired by Mr. Kingston from the estate of the late Dr. J. C. S. Dunn.

Mr. Kingston made his announcement at the monthly meeting of the Prince Rupert Chamber of Commerce last night and it was greeted with interest and applause.

Several local reservations have already been made.

### Margarine, Public Works, School Tax Relief, Help To Industries, In Speech

VICTORIA (CP)—The Speech from the Throne, presented by the Lieutenant-Governor as the session of the Legislature opened this afternoon with usual formalities, included the following proposals:

Removal of the provincial ban on sale of butter substitutes.

Equalization of borrowing powers for public works and power development.

Relief of school taxes.

Extensive program of public works including main highways, bridges, secondary roads, schools, hospitals, public institutions and office buildings.

Further financial assistance to enable the University of British Columbia to proceed with its program of expansion.

Further alleviation of the burden of text-books costs.

Improvement and development of the government-owned Pacific Great Eastern Railway.

Revision of the policy for irrigation.

Further expansion of forest protection work.

Establishment of a New Haven Borstal-type institution for young offenders on a basis which will make it more effective as a corrective institution.

Further development of Mount Seymour Park near Vancouver as a recreational outlet.

Encouragement of industries particularly pulp and paper manufacture and processing of alumnum ores.

Flood control measures.

### NOTICE

There has been very little co-operation from the great number of users of electricity to date, as outputs from plants show very little reduction.

It is extremely important to avoid more drastic measures that every economy be effected in the use of electricity throughout the community.

We appeal to you to cut your requirements by at least 10% while the present situation lasts.

Push lights, window lighting, unnecessary use of lighting, electrical heating, and appliances, can be eliminated without hardship.

We urgently request your co-operation to ensure continuation of service for a greater period of time.

NORTHERN B.C. POWER CO. LTD.
