MURDERED DAUGHTER — Mrs. Leonidas Dube, 41, has been convicted at Rimouski, Que. of the murder of her 17-year-old daughter Irene. The daughter was killed during a drinking party at their Matane-Sur-Mer home a year ago. Crown witnesses said she was "jealous" of her daughters Irene and Anita because youths at the party danced with them instead of her. (CP Photo)

Pictures of New Zealand Enjoyed

The senior grades of Borden Street School had one of their most interesting lessons in social studies last week when Mrs. G. E. H. Montgomery took them on a trip to New Zealand.

Her large collection of beautifully colored scenes proved most informative to the children and her comments made the showing very realistic.

A vote of thanks to Mrs. Montgomery was moved by Roy Sieber and seconded by Julie Prockter and enthusiastically endorsed by the hundred children who attended the lesson.

Oil makes a country strong

Try to imagine life without oil! Oil supplies one-quarter of all the heat and power we use . . . in home and factory, on farm and highway. It helps us live better.

For years Canadians have had to depend on foreign countries for almost all the oil they used. Now, after a long and costly search, big new fields have been found in Alberta.

The more oil we produce right here in Canada the stronger we will be. Already the new discoveries have made thousands of new jobs. Millions of U.S. dollars once needed for imported oil are now being saved by the new oil fields, and the prairie consumers are saving money too.

In order that Canadians may reap further benefits, Alberta oil must reach new markets. It must be moved to eastern Canada—2,000 miles away—where it must compete with oil from other areas. That means holding transport costs down to a minimum.

To bring Alberta oil east a tube of steel will span one-third of the continent—from Edmonton to Lake Superior. It is taking shape now. To carry the oil on to Ontario refineries, the largest inland tankers ever built are being constructed in Canadian yards.

There's a big job still to be done before the full benefits of the new oil discoveries reach all Canadians. But the job is being carried on with increasing benefit to all of us. Oil is strengthening the nation.

Bringing you oil is a big job . . . and a costly one

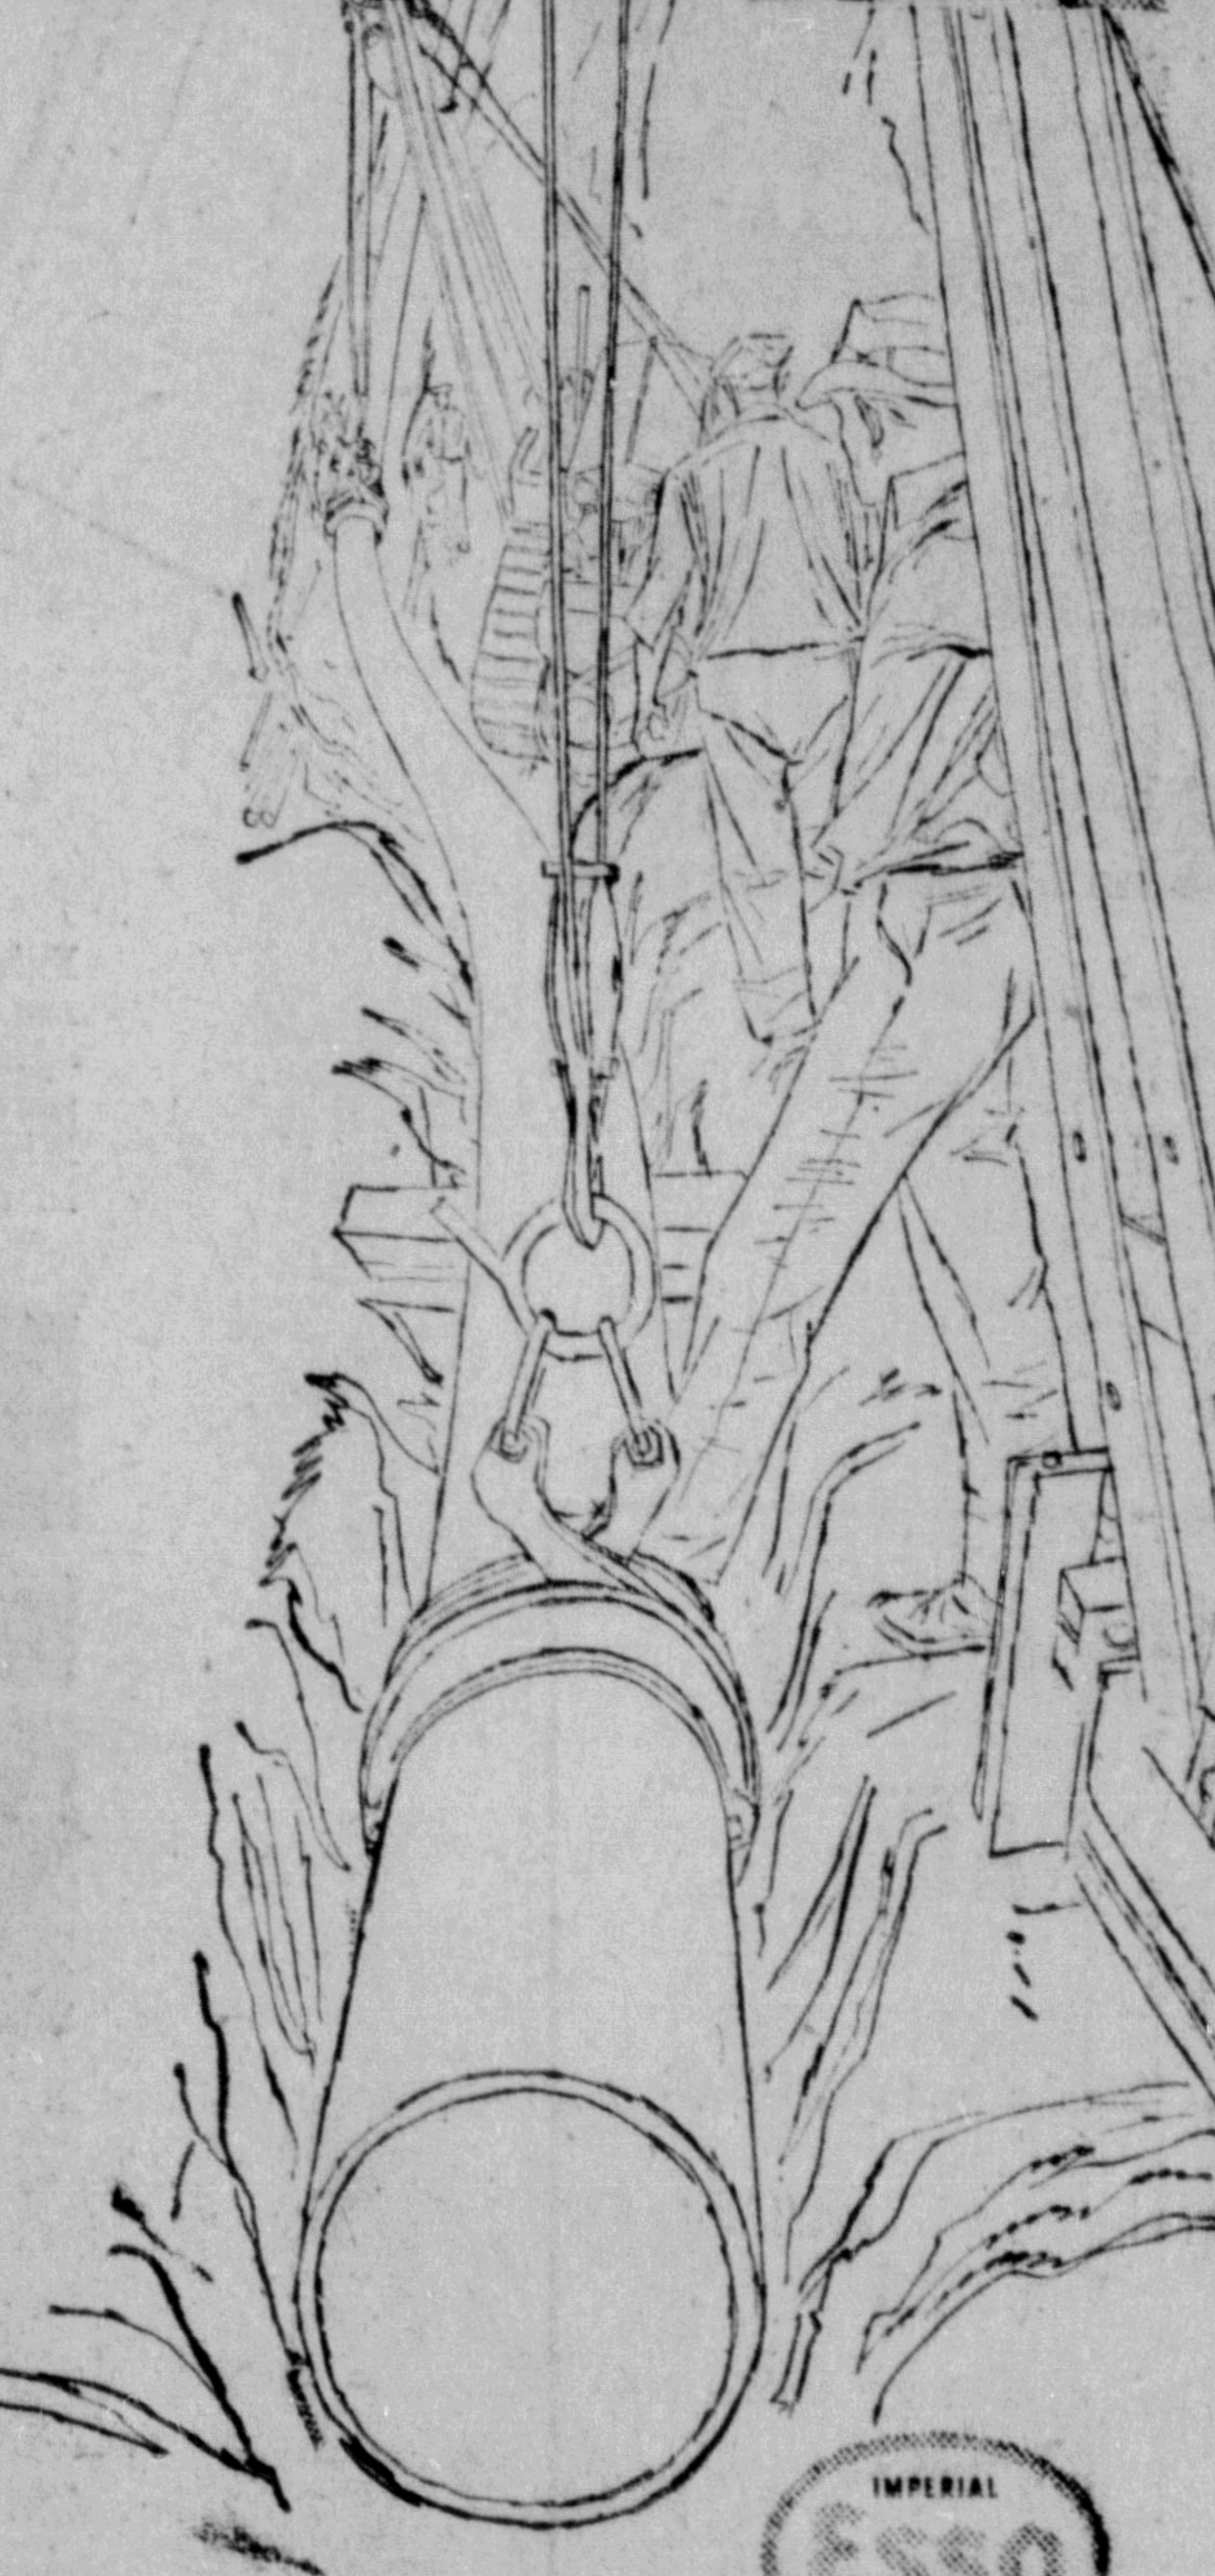

About Canada's Oil—Last year Canadians used an average of 300 gallons of oil each. This is more, per capita, than any nation except the United States.

By replacing imports, Canadian oil production is expected to save 100 million scarce U.S. dollars in 1950; next year, \$145 millions.

Imperial is building a new refinery at Winnipeg at a cost of \$10 millions to process Alberta Oil.

The 1,150-mile pipe line from Edmonton to Lake Superior is being built by Interprovincial Pipe Line Co., which was sponsored by Imperial and in which Imperial holds a minority interest.

Teachers' Meeting

Prince Rupert. Activities of the Geographical Representative, R. D. Cleland, were reported, which included the formation of a local association of Queen Charlotte Island teachers, and a visit to the Terrace local recently. Reports from associations were heard. Other matters discussed at the meeting were resolutions before the Easter Convention in Vancouver on salaries, pensions, the constitution and fall conventions.
