RAINY WEATHER RETARDS HARVEST

VANDERHOOF - The prolonged period of rainy weather has been a retarding factor in the harvesting and threshing of crops. As a result only a small portion of the potentially large production for this area has been brought to the elevator...

JUNEAU SUPPLIES SCHOOL BOOKS

JUNEAU-The Board of Directors of the Juneau Independent School District has voted to supply all requirements necessary as part of the students equipment.

This includes workbooks, pencils and paper which will be provided without charge. Text-books will be rented from the school and where books are damaged or lost, there will be a charge.

straight combining job on his crop this year.

Canada's 1948 wheat crop has been estimated at 372,000,000 bushels, 31,000,000 bushels greater than last year, but about 35,000,000 below the 1938-47 average.

The estimated average field per seeded acre is 15.4 bushels, compared with 14 bushels last year, and the 10-year average of 17.1 bushels.

It is most apparent the Nechako Valley averages will by far exceed the averages in most other parts of the country.

Alex Nicholson has 320 acres of fine looking fall wheat to be threshed but it may be two or three weeks before yields are known on this and the many other excellent crops in the district.

Reminiscences

By W. J. - and REFLECTIONS

What there is about the Nahanni Valley, away up near the Yukon border of the Northwest Territories continues to have an attraction not yet fully explained.

It will be recalled that a Vancouver newspaper plane, about a winter ago flew there, but did not remain long. The party went north confident of discovering something. It might be gold, or a mystery with the hint of tragedy behind it.

There had been a lot of publicity, but nothing anyone could actually depend on. Yet, there were possibilities, and colorful at that.

Way went the fliers in the dead of an Arctic winter. They

experienced loss of sleep, dis- appointment, and tried to get a lead from the few more or less inarticulate natives they met. It was a job to find even a good story. And now, it looks like another attempt to reach that remote vale of the north- land.

Nine United States citizens, who applied to the Federal government to fly there, have been refused permission because, as Ottawa authorities declared "the chances were it would be necessary to send in rescue planes."

Prince Rupert was spread all over a good sized proportion of an entire page of last Thursday's Vancouver Sun, and the publicity was right up to the minute. It included a panorama of the city, taken from the air. There was particular reference to the construction
