Upland Down...

MATGOES UP must come down and the higher VV it goes the harder it may fall. Possibly that may be said of the markets with the inflation boom bursting as it appears to be doing now.

There was bound to be the reaction that is now occurring after the spiraling of prices and wages which had been worrying everybody the last few months. That it will be an orderly recession, gradual and not too preciptate, is to be hoped. Then the readjustment will be easier and too many people

Booth Memorial School News SPEAKER TO SENIOR GIRLS

New Addition to Leaching at Booth Memorial

A newcomer to the staff following Christmas vacation is Mrs. H. Cobb, who has replaced Miss Noel, in the Commercial department.

ST. VALENTINE'S DAY

CT. VALENTINE'S DAY commemorates the mar-J tyrdom of two early Christians. Origin of this

observance of the day is obscure; some authorities claim there were five saints called Valentine, a name common in antiquity; but it's generally not Delta, has gained the highagreed that two Valentines were martyred, one of whom-according to legend-was beheaded during the reign of Claudius II near Rome's Porto Valentini (The Flaminian Gate).

But the modern connotation of February 14 as c a day on which birds are supposed to pair and lovers exchange billets-doux appears to stem from the ancient feast of Lupercalia, observed February 15, which secured the fruitfulness of the earth, prevented sterility in women, and gave young Roman gallants the chance to pick lots from a helmet for their sweethearts of the coming year. Originally, the valentine was the other partner of the lovers' vow. Now it's the card sweethearts exchange-cloyed with sentiment, sprinkled with "diamond dust" and bedecked with satin, rayon, lace and impaled hearts. But this year there are plenty of the mushy Girls played and Delta swampvariety, too, makers say, all marked "Made in Canada" because the Ottawa ban on many U.S. imports included, of all things-Valentines!

This is, Mrs. Cobb's of exercise and instruction in first visit to the coast. ice skating, which entailed many thrills and spills. Perhaps no Barbara Ann Scott was in evidence but all gained a bit of practice and a great deal of enjoyment from the outing, and wished they could repeat it more often.

ALPHA HOUSE LEADS SCHOOL

A recheck of House totals reveals that Alpha with 1676 points est piont total this year. Delta is a very close second with 1665; Gamma, third with 1581; and Beta, fourth with 1229.

BRITISH REGULATIONS

THERE IS marked interest here in the new regu- S PRINCE RUPF.RT lations of the British government calling for a

freezing of wages and profits-a freezing of all incomes apparently at today's levels except under exceptional circumstances or in the achievement of greater production.

For some time there has been controversy among writers and observers on the real situation in Britain. Socialists have been pointing to conditions in Britain as something that Canada should copy while those who return from visits to Britain maintain that wage scales are much lower there than in Canada, and the standard of living of all the people | that "no request has been made is far below that which we enjoy. Mr. Attlee's plea for drastic voluntary action to "combat spiralling prices" seems to confirm the statements of the latter.

During the last week the school gym has been humming with activity. It was the interhouse basketball league. On Tuesday the Junior Girls played and Delta overcame Gamma by the score of 17-14. On Wednesday the Senior ed Gamma 30-2. Beta beat Gamma by default

and on the following Monday also in the Senior Boys' league Alpha won from Beta by default

YEARS AGO

February 13, 1923 The thermometer reached its lowest reading of the winter when it dropped to 11 degrees at 7 o'clock this morning. Previous minimum temperatures had been 12 degrees in December and 13 degrees in January.

E. E. Payne, secretary of the Vancouver Board of Trade, advised the local Board of Trade nor is any contemplated that the dry dock at Prince Rupert be removed to Vancouver."

There were only five cases in the city police court during nuary, the chief of police rerted to the Police Commison. Fines collected during the onth totalled \$202.

SNOW ISR'T Always FUR!

To millions of children it only means more misery

It's no fun when your toes are out of your boots - or you have no boots at all. Yet that is how children in ruined lands around the world must trudge through winter weather.

They are the future - and their plight is desperate. Shivering and starving, their uneducated minds grow as sick as their withered bodies

If they are not fed, clothed, educated, given new faith and courage, a terrible legacy will be left for the world of OUR children.

To meet their desperate and immediate needs is the aim of the Canadian Appeal for Children.
