TERRACE TOPICS

Ray Reflects and Reminisces

W. Osborne made a quick business trip to Prince George at the week-end, returning by car on Monday morning.

T. V. B. Tremblay of the Columbia Cellulose and Mrs. Tremblay, who is here from the south to visit her husband, spent the past few days at the home of Mr. and Mrs. W. C. Osborne.

Mr. and Mrs. F. Gavan and daughter, Joan, returned at the week-end from Vancouver, to Vancouver, to which point they drove on holiday.

Mr. and Mrs. P. Murie, jr., returned on Monday from Vancouver where they have spent the past few weeks.

Mrs. E. S. Lair returned on Thursday morning's train from Vancouver where she attended the annual meeting of the Cancer Society, being the Terrace delegate.

Mrs. Martin Miller and daughter returned from Prince Rupert at the week-end. Miss Marilyn Miller will spend the winter months with her parents here.

Mr. and Mrs. R. S. Cruikshanks of Victoria and son Douglas, have been the guests of their daughter and son-in-law, Dr. and Mrs. K. McPherson, driving in from the south. They left on Tuesday morning. Douglas is returning by car and his parents driving to Prince Rupert with Bill Brooks and from there proceeding by steamer.

Mrs. C. W. Alger returned home last week from Battleford, Saskatchewan, where she has spent the past two months with her son-in-law and daughter and children.

Mr. and Mrs. Earl Hobenshield drove in from Kitwanga last week to have the cast removed from Earl's leg. While here they were the guests of Mr. and Mrs. Tony Hobenshield.

Miss G. Moreau arrived at the week-end from Edmonton and will be the third teacher on the Terrace high school staff.

The officers of the Teachers' Association of school unit No. 53 were chosen at a recent meeting. President is Mr. H. F. Noakes; vice-president, L. Leighton and secretary-treasurer, N. Scutt.

Mr. and Mrs. A. Norton, newcomers from England, have taken up residence on Lakelse Avenue in the former Hugo Johnson home, their furniture having arrived from the Old Country. The Johnsons have purchased from John Gurvich of Prince Rupert the former Porter property and will take up residence there.

Flora Melvin and Elizabeth Pongracz have both become members of the local telephone staff.

The children's dental clinic got underway at Terrace on Tuesday morning with four grade 1 children being the first patients. The clinic was held in Dr. McPherson's office and Mrs. Brandis was the doctor's assistant. The children were taken by car to and from the school by Mrs. C. Michael.

Mrs. R. Squires has returned from a three months' holiday in Vancouver and other points in the south.

Mr. and Mrs. W. Schroeder left on Tuesday morning's train for their home in Winnipeg after spending the past two weeks on holiday with the Bakers here.

Mr. and Mrs. J. Kill have moved to the old Gilbert home on Eby Road which they recently purchased from Mr. H. C. Mangnus. They have been residing for the past few months in the Dover home on Lakelse Avenue and this is now occupied by Mr. W. Tugwood, newcomers to Terrace.

If the school teaching profession had more glamour, one hears, everything would move along in a much smoother and satisfactory way. Such a suggestion was never even hinted at, when we went to school. The teacher, that long ago, was strong and wore a beard. He also owned a cane but was never known to limp.

We'll say this much for the world series broadcaster. Had he lived before the radio was invented, we'll wager he was a circus "barker". And if he was not, he must have shouted at the public, during a bareknife sale. Anyone with that kind of voice need never worry over future security.

Anyone, over 45, need not apply for a job as an apple picker in the Okanagan. It is, of course, an occupation not to be engaged in lightly, even should you be 43 or even 44. The burden of years, in this swift age becomes almost unbelievably heavy. Weakness, exhaustion, general awkwardness is apt to develop almost any hour, after 45.

The plucking of an apple, it should be explained, is not the simple little task it seems. Those beyond 45 are subject to complexities and unlooked for risks. A man might be required to ascend a ladder, and thus be exposed to a fall. The plucking of an apple demands good eyesight, and fully preserved muscular development. So, all in all, it is just as well that applicants be kindly, yet fully warned and informed. Those whose lifespan shortens, should, while there is time, be shielded from the dangers which lurk, even in an orchard.

Three Canadian destroyer sailed for Tokyo when the war in Korea was little more than a few weeks old, and the same may be said of the R.C.A.F. co-operation. You can't get an army together in a country the size of Canada, overnight. There was no unseemly delay in doing it, with the result that today there is a force practically ready to go anywhere. This is written, not as a space-filler but as a reminder.

Instalment buying in Canada is more general today than ever, before, says a government report. It is equally true that Canadians are taking longer to pay up, and the suggestion is made that the growing scope of credit purchasing be restricted. All this may have something to do with living costs, and the well known spiral nightmare. Anyway, if you do without plenty of things not necessary, you also do without plenty of bills and worries.

Juneau is to have a building with twelve floors which is twice the height of the tallest structure in Prince Rupert. Juneau, capital city of a territory comparable with the United States itself in vastness and natural riches, is unfortunate in the selection of townsites. Overshadowed by a lofty peak, it's essential to make the most of narrow street and sidewalk space. If the capital

NEGLECT OF DISTRICT (Continued from page 1)

Kerr) that it had not been the intention of the department to leave the Copper City Highway as it is, but, due to the pressure of other work, they had not been able to complete the job. Work had ceased on the Prince Rupert Highway as this work could be done after the frost comes and there were several other jobs needing completion. Mr. Kerr stated that there was nothing further on the straightening of the rock cut approaching the Skeena Bridge and the Board decided to wire the department of Public Works urging that this work be done immediately.

It was decided to write to the Minister of Public Works asking if a survey had been made for the proposed road north of the Skeena River to Usk. It was stated that the cost of operating the Usk ferry for three years would put in the road from Terrace to that point. Such a road was necessary and would open up the north bank of the river. This matter would be of interest to the Indian Department as the Kitseas Reserve covers part of that area.

Highway and parking signs were again discussed and a statement was made that such signs are being taken up with the Department by the Attorney-General so there should be some action soon.

UTILITIES
The town's utilities are in fairly good shape. Electrical power is good. Applicants for water are coming in faster than they can be serviced. However, there was one grievance—with regard to the local telephone system. There is a lot of work to be done here and there is no maintenance man available for the job. The Terrace maintenance man has a large territory and has been in Prince Rupert for one month and will be away that much longer. Therefore, it was felt that the district should not be without a maintenance man and the Board decided to write D. C. Schubert, requesting that this matter be remedied immediately.

A letter from Miller Lake, Ontario, inquiring about "raw" land between here and Prince Rupert suitable for farming was handed to the Agricultural committee for action.

It being the quarterly meeting, refreshments were served at the close of the business session following which C. J. Norrington presented James Stevenson with an engraved Ronson cigarette case and lighter combined, a parting gift from the members of the Board of Trade. Mrs. Norrington presented Mrs. Stevenson with a corsage of roses and carnations.

can't spread out, there is only one other direction in which to go.

LIVERISH?

"Troubles never come singly," they say. So take Dr. Chase's Kidney-Liver Pills and get two treatments in one! This proven remedy helps you feel better faster—because it relieves both liver and kidney disorders and the backache and painful joints which so often result. Dr. Chase—a name to depend on. 50

HMCS Chatham Is Busy Place

The regular parade at H.M.C.S. Chatham Wednesday night was half rifle drill and the second half naval films. One, filmed under fire, depicted a commando raid on Norway. It proved of great interest to everyone. There were 23 officers and men on parade.

Interspersed with training at H.M.C.S. Chatham this winter there will be many entertainment features. In addition to basketball and badminton, another activity will be added. There will be roller skating in the drill hall for naval personnel with Mr. Kwok, professional skater, offering his services as instructor.

Recruiting in the reserve unit has been active. Two new recruits were taken on strength at

the parade Wednesday night. The recruiting office at Chatham is open all day Mondays through Fridays and Wednesday nights.

ADVANTAGES OF AGE
MONTREAL — Old age doesn't necessarily have to be a handicap. When Mike Walsh was in court on a charge of drunkenness, he gave his age as 79. "We can't keep you in jail at your age," said recorder Henri Monty, "so off you go."
