## Soccer Schedule

Schedule for the North Star Trophy football series is as follows:  
July 18—General Motors vs. Canadian Legion.

## FIVE TENDERS ON BUILDING

Five tenders for the reconstruction work on the former naval wardroom building off First Avenue, which has been acquired by the Canadian Legion and will be used as its headquarters and clubrooms, have been submitted. Final consultation is being made with the architect, J. H. Harvey of Vancouver, and announcement of the letting of the contract is expected within the next few days.

The executive of the Legion is carrying on essential business without regular monthly general meetings during the summer and it was in session this week to consider routine matters.

of life's comforts and consolers

Prince Rupert's natural advantages are being more clearly shown every day. A glance at the map is all that's needed, if one is interested in distances, and centralization. And if further proof were needed, think over the trend of the times, and look around you.

## PLAY BALL

ties. Now Morgan makes a fool of us by clipping the ball at a .391 pace, 45 points above Abel. One explanation for the high batting averages this season is the lack of the softball league. It is a well established fact that playing softball with the different size of ball and bat and shorter pitching distance, plays havoc with the baseball batting eye of many players.

## Good Umpires—

A problem that has plagued the baseball executive annually is solved this year. At last we have a capable and available umpire staff. Neither "Frog" Letourneau or Mike Montesano are long on the experience end but they are getting it and doing a good job on the balls and strikes. True, they make some mistakes but what umpire doesn't. A worthy habit of both umps is that, when a bum call is made, they don't try to "even up"—you just can't make two good calls out of two bad ones.

**S'long fellows — see you out fishing!**

**It won't be long now!**

No, sir; this is my last shift. I'll be pensioned when I walk through these gates tonight.

Forty years ago last Saturday, I joined Cominco\*—May 10, 1909. A pretty small company it was in those days—a few buildings perched up on the banks of the Columbia River and the Manager wondering from day to day how long it would keep going.

Well, it did, and today with an output of thousands of tons of metal and fertilizers, it's one of the biggest companies of its kind in the world. A good place to work too, at least I thought so or believe me, I wouldn't have stayed with it.

Now, I'm about to lead a life of leisure and do some of the things I've always longed to do.

We'll get along alright, the wife and I. Saved a bit over the years, got a few shares of company stock and now my Cominco pension—things don't look too bad.

I'm glad I stayed with Cominco—they encourage young men to stay in B.C. and make their career with the company.

Well—see you fellows fishing sometime!"
