AMERICAN TUG PROCEEDS SOUTH

One of her two cribs of logs having been repaired after going aground on Dundas Island three weeks ago, the Seattle tug Monarch left port yesterday afternoon towing 3,000,000 feet of timber to Bellingham and Everett.

The Monarch, Capt. J. S. Pearson, managed to save his ship and her Davis rafts after she lost her rudder in a blow while heading south from Behm Canal.

The ship's rudder was replaced at the dry dock here and one of the cribs received rebinding with steel cables following the mishap at a cove on Dundas Island where the Monarch sought shelter.

THERE'S ELEGANCE IN ROSES AT ROYAL WINTER FAIR—Roses and lace create a charming belle today just as they did in grandmother's day. One of the spectatcular attractions at the Royal Winter Fair in Toronto, Ont., this year was the large number of roses contributed by leading Canadian growers who are world famous for their quality and variety. Shown are some pink Briarcliff roses. More than 18,000 roses bowed to the rose-loving public.

TransCanada Highway, the Chamber went on record as in support of the principle of a TransCanada coast to coast federally aided highway. It was further decided to request the provincial minister of public works, on attending the Ottawa conference, to give all support possible to the northern route—Jasper to Prince Rupert—for the TransCanada Highway. The latter request was made in view of a suggestion from the Associated Boards of Trade of Central British Columbia that now was an opportune time to press for the completion of missing links east of Prince George in the northern transprovincial highway and the incorporation of this road in the federally-aided TransCanada Highway system.

Disposal of the United States Army waterfront war installations here, including warehouse, ocean dock and administration building, came up with a report from the executive which had dealt with the matter after War Assets Corporation had given notice of the intention to call for tenders for demolition. It was reported to the meeting that there would be no advertising for bids until January 15 and meantime, Bernard Allen, manager of the Canadian National Railways for British Columbia and Alberta, would take the matter up with the Chamber. The Chamber is endeavouring to find commercial use for the installations and has a committee working on the possibility of the administration building being converted to residential use.

The aviation committee, W. F. Stone, reported on conferences which had been held during the past month with Canadian Pacific Airlines executives on the need of a landing field at Prince Rupert. The matter is to be followed up with making of representations to the departments concerned at Ottawa seeking a survey of a site in the vicinity of the city. The Canadian Pacific Airlines has been working on a Tugwell Island site. The possibility of development on Acropolis Hill was suggested last night.

WORCESTER, Eng. (CP)—Bank manager Major C. Eales turned up for work in pyjamas, bedroom slippers and a borrowed greatcoat after he lost all his clothes in a fire at Worcester Golf and Country Club where he lives.
