ORGANIZING OF CRAFT CLASSES

The craft classes for Civic Centre members this winter will vary a little from those presented last year. This year the crafts will include beadwork for the Junior girls, woodwork for the Junior boys and leathercraft for the Teenage boys and girls as well as the adults.

The adult beginners will meet on Monday evenings in two separate classes.

Tuesday night will be reserved for the advanced pupils who have a general knowledge of the craft and information regarding the ordering of tools and materials will be given.

Wednesday and Thursday afternoon the craft room will be open to class members. At this time the crafts may be combined with a social hour.

The Junior members of the Civic Centre will meet for crafts on the following days.

Monday afternoon, Woodwork for the Junior boys, tools and materials supplied.

Tuesday afternoon, Teenage leathercraft.

Wednesday afternoon, Junior girls beadwork, beadlooms and beads supplied at cost.

Wednesday evening, Teenage boys leathercraft, some tools supplied.

As there is no extra fee charged, outside of the Civic Centre membership, for these craft

classes, it is felt that those interested in taking the course will be sufficiently keen to purchase their own tools. Sample tool kits will be on display at the Civic Centre which can be ordered and sent direct to the pupils home C.O.D. This applies to the project kits also and when registering for the course, it would be advisable to obtain any further information regarding these necessities.

It will be understood that it is to the advantage of the craftsman to have his or her tools so that no waiting will be necessary during the class, while more work can be accomplished during leisure hours at home.

The handling of tools and project kits will facilitate a more active craft club this year but anyone wishing assistance in ordering special supplies will find ready enthusiasm and friendly advice.

These classes will start the first Tuesday after Thanksgiving and registration for the same will begin at the Civic Centre this week. Arrangements may be made while securing membership.

AIRLINE OFFICIALS

(Continued from Page 1)

Completion of service to Edmonton will give it a route extending from Canada's oil capital to oil centres in Texas and Oklahoma and they anticipate that because of the current boom in Alberta oil it will be extremely busy.

"We have met nothing but good will from officials of Trans Canada Airlines and Canadian Pacific Air Lines," Mr. Drinkwater said. "We anticipate little opposition to our application."

Only Canadian point now reached by Western Airlines is Lethbridge, which connects from Great Falls, Montana. A western route branches to Los Angeles.

The officials were high in their praise for west coast scenery and commended highly the service and courtesy on the Prince George.

This afternoon, they visited industrial plants and other points of interest here and at Watson Island.

Hospital Guild of the Women of the Moose met at the home of Mrs. Ada Hopkins. After a brief business session, delicious refreshments were served by the Mrs. A. Hopkins.

LODGE BACKS SCHOOL BYLAW

Endorsement of bylaws which tomorrow will ask Prince Rupert and district residents to authorize borrowing of money to build two new schools in the city was favored at the monthly meeting of Municipal Chapter, I.O.O.F. in the Civic Centre Monday evening.

The approval followed a discussion period in which members expressed support of the new school program.

of these days you'll live in an... **aluminum house**

ANY PEOPLE, perhaps you yourself, already live in houses which are as much "aluminum" as others are "brick" or "stucco". Just look at the amount of aluminum which already is going into Canadian buildings:

Roofing and Siding — Last year alone about 100 Canadian fabricators shaped thousands of tons of aluminum for use as roofs and exterior walls.

Windows — Today a score of Canadian companies are making aluminum windows and sash which have unique advantages: they never warp, swell, shrink or crack, and never need painting.

Insulation — Aluminum has outstanding insulating properties. Already numerous Canadian companies adapt it to keep homes warm in winter, and cool in summer.

Paints, Flashing, Trim, Architectural Hardware — Because aluminum is attractive and lasts a lifetime, dozens of Canadian manufacturers are now kept busy making it into all sorts of forms for use outside and inside the house.

ALUMINUM COMPANY OF CANADA, LTD.
Producers and Processors of Aluminum for Canadian Industry and World Markets
MONTREAL • QUEBEC • TORONTO • VANCOUVER • WINDSOR

Why Aluminum?

Aluminum is becoming more and more popular for use in home building because...

- ... it does not rust... is practically indestructible. Therefore maintenance costs stay low.
- ... it is light and easy to handle, is very strong, needs only correspondingly light supports.
- ... it has an attractive natural finish, and can be painted if desired.
- ... like other building materials, aluminum can be used in houses of any design.

Ask your architect or contractor about aluminum for building. He knows the story of Alcan's continuing research into its uses. So he can tell you about its overall advantages and how you can profit from them when building or remodeling.
